ROYAL
AERONAUTICAL
SOCIETY

THE AERONAUTICAL JOURNAL

Covering all aspects of aerospace

Volume 123

Number 1264

June 2019

CAMBRIDGE
UNIVERSITY PRESS

THE AERONAUTICAL JOURNAL

Editor-in-Chief: Professor Holger Babinsky

Editorial Board

Chairman: Professor Mike Graham Deputy Chairman: Professor Chris Atkin

Associate Editors

Professor Christian Allen
University of Bristol

Professor George Barakos
University of Glasgow

Professor Cees Bil
RMIT University, Australia

Professor Rene de Borst
University of Sheffi eld

Professor Jonathan Cooper
University of Bristol

Peter Curtis
Aircraft Research Association

Professor Laurent Dala
University of Northumbria

Professor Dimitris Drikakis
University of Nicosia, Cyprus

Professor Brian Falzon
Queen's University, Belfast

Professor Antonio Filippone
University of Manchester

Professor Song Fu
Tsinghua University, China

Professor Ed Galea
Greenwich University

Professor Victor Giurgiutiu
University of South Carolina

Dr Guy Gratton
Cranfi eld University

Professor Ismet Gursul
University of Bath

Professor Li He
University of Oxford

Professor Michael Henshaw
Loughborough University

Professor Konstantinos Kontis
University of Glasgow

Dr Arnab Majumdar
Imperial College, London

Professor Jim McGuirk
Loughborough University

Professor Jack McNamara
Ohio State University

Dr Richard Markiewicz
DSTL

Professor Pierangelo Masarati
University of Milan

Professor Ning Qin
University of Sheffi eld

Professor Jason Ralph
University of Liverpool

Dr G Satheesh Reddy
MoD, India

Professor Kenichi Rinoie
University of Tokyo

Professor Ulrich Rist
University of Stuttgart, Germany

Carl Russell
NASA Ames, USA

Dr Matthew Santer
Imperial College, London

Professor Ömer Savas,
University of California, Berkeley

Professor Shahrokh Shahpar
Rolls-Royce, Derby

Professor Howard Smith
Cranfi eld University

Professor Marilyn Smith
Georgia Institute of Technology, USA

Professor Constantinos Soutis
University of Manchester

Professor Anthony Waas
University of Washington, USA

Aims and Scope

The aims and scope of *The Aeronautical Journal* are intended to reflect the objectives of the Royal Aeronautical Society as expressed in its Charter of Incorporation. Briefly, these are to encourage and foster the advancement of all aspects of aeronautical and space science. Thus the topics of *The Aeronautical Journal* include most of those covered by the various Specialist Groups of the Society. Topics covered in *The Aeronautical Journal* include:

Aircraft design, aerodynamics, airworthiness and maintenance, air traffic Management, avionics and systems, composites, environmental issues, flight operations, flight simulation, fluid dynamics, fluid mechanics, guided flight, human factors, human powered flight, light aviation, propulsion, rotorcraft, safety, space, structures and materials, structural mechanics and UAVs.

Papers are solicited on all aspects of research, design and development, construction and operation of aircraft and space vehicles. Papers are also welcomed which review, comprehensively, the results of recent research developments in any of the above topics.

We recognise the inhibiting pressures of time and confidentiality, and acknowledge that many of the design testing, manufacturing and operational problems that industry has to solve contain important information for the whole aerospace community. Be assured that *The Aeronautical Journal* provides a renowned platform for refereeing and presenting your work to the broadest international audience.

Papers will be considered for publication in *The Aeronautical Journal* if they meet the terms and conditions listed in our instructions for authors available at: <http://journals.cambridge.org/AER>. If these are not met, the Editor reserves the right to withdraw the paper without redress, which may be at any time up to publication.

Enquiries should be sent to: Wayne J Davis, RAES Production Editor: aerjournal@aerosociety.com

Subscription enquiries should be sent to: journals@cambridge.org Papers should be submitted at: www.edmgr.com/aerj
