## Verdi

A Biography

MARY JANE PHILLIPS-MATZ

With a foreword by

ANDREW PORTER

'a provocative account' *Composers Weekly*

'Phillips-Matz's research is meticulous, her documentation painstaking, and no one could doubt the absolute integrity of this biographer ... compulsively readable' *Opera Now*

- First new biography for a generation
- Written with exclusive and unprecedented access to original Verdi family documents
- Explores the facts behind the myths surrounding the life of this extraordinary figure
- Discusses the documentary evidence detailing previously unknown aspects of Verdi's life

Verdi was one of the greatest, most successful, and the longest-lived of all composers. Nearly a century after his death, many of his operas remain in the standard repertory, and some, such as *Rigoletto*, *La traviata*, and *Aida*, are among the most popular of all operas.

Drawing on a wide range of sources, this is an authoritative re-examination of a long, vigorous, and varied life.

Manuscripts should be double spaced throughout (including footnotes, etc.) and should be typed on one side of the paper with ample margins. Contributors with word processors are requested to underline rather than use an italic font, and to avoid justification of right margins, automatic hyphenation and bold face type.

Footnotes should be numbered consecutively and be typed, double spaced, on separate pages at the end. Musical examples, figures, tables, etc. should be supplied on separate sheets.

Contributors who wish to reproduce photographs should provide good black and white prints, full details of the source and the full address of the copyright holder if this differs. Photographs will not normally be considered unless they are an intrinsic part of the contribution, and their inclusion will always be at the discretion of the editors. The full address of the copyright holder should also be provided for any material used in which the contributor does not hold copyright.

Punctuation should follow standard British practice. Single quotation marks should be used with double reserved for quotations within quotations. Punctuation that is not part of the quoted material should be outside closing quotation marks, as should footnote indicators. Longer quotation should be indented left without quotation marks and double spaced. Prose citations should be in English unless the original is of particular importance, unpublished or inaccessible, in which case the original should be followed by a translation in square brackets. Verse citations should be in the original language followed by a prose translation in square brackets.

Dates should be on the following model: c. 1740, 1840s, 5 February 1943. References should be to: Act I scene 2, op. 1 no. 2 in E major, Ex. 12 and Exx. 12–14, Fig. 3 and Figs. 6–9, motif(s) and leitmotif(s). For precise identification of pitch, use this system.

# MUSIC IN THE THEATER

Essays on Verdi and Other Composers

**Pierluigi Petrobelli**

*With translations by Roger Parker*

Well-known for having generated new interest in Verdi as a subtle and elaborate musical thinker, Pierluigi Petrobelli offers here lively, penetrating explanations of how musical theater works: Why is it that only a few operas constitute the standard repertory of all opera houses throughout the world? What makes these operas as effective today as they were at the time of their creation? Is there a governing principle in their organization and structure? In this collection of essays, many appearing in English for the first time, Petrobelli answers such questions by analyzing specific operas, in terms of historical context, musical organization, and dramaturgical conventions.

"What gives Petrobelli's writings so much life is the profundity of thought behind them, the elegance of language, and the clarity of expression—all in the context of a sophisticated, highly educated listener."—David Lawton, State University of New York, Stony Brook
