

ERRATUM

The following is a correction for an error that occurred in the *Journal of the International Neuropsychological Society*, Vol. 12, No. 3, May 2006. In the article titled “Is adaptation of the Word Accentuation Test of Premorbid Intelligence necessary for use among older, Spanish-speaking immigrants in the United States,” pp. 391–399, by Robert W. Schrauf et al., on page 396 there is a misprint in the equation in the left column:

Errant copy:

$$\text{Raven (predicted)} = 20.805 \text{ WAT} + .328$$

Correct copy

$$\text{Raven (predicted)} = (.328 \times \text{WAT}) + 20.805$$

Cambridge University Press and the Editor regret the inconvenience that these errors may have caused.
