

## Index of Subjects

- Acid-base balance, blood and urine, effect of dietary hydrochloric acid and calcined magnesite, grass-meal diet, sheep 233
- Acid-base status, effect of dietary and intraruminal hydrochloric acid and intraruminal sodium bicarbonate, grass-meal diet, sheep 221
- Acidosis, effect of dietary and intraruminal hydrochloric acid and intraruminal sodium bicarbonate, grass-meal diet, sheep 221
- Acidosis, effect of dietary hydrochloric acid and calcined magnesite, grass-meal diet, sheep 233
- Adipose tissue, fatty acid metabolism, effect of dietary copper deficiency, rat 105
- Adrenals, histology, effect of sodium and dietary potassium, steer 1
- Age, effect on cyanocobalamin absorption, pig 469
- Age, onset of obesity, effect on weight loss, man 201
- Albumin, serum concentration, relationship to serum colloidal osmotic pressure, kwashiorkor, children 459
- Alkaline phosphatase, activity, effect of different products of digestion, small intestinal mucosa, rat, rabbit, cat and hen 205
- Amino acid *see also* Cysteine, Histidine, Hydroxyproline, Isoleucine, Methionine, Selenocystine, Selenomethionine, Tryptophan
- Amino acids, availability, microbiological assay, protein quality of feeding-stuffs, collaborative study 153
- Amino acids, diets with complementary compositions, sequential feeding, nitrogen utilization and growth, chicken 113
- Amino acids, effect of addition to poor-quality-protein diet, growth rate, food conversion efficiency, chicks 363
- Amino acids, plasma amino acid index, use for determining limiting amino acids in diet, sheep 375
- Amino acids, plasma, effect of glucose infusion, pre- and postparturient ewes 375
- Amino acids, plasma, effect of ingestion of amino acid mixture simulating casein, and a tryptic hydrolysate of casein, man 259
- Animal model, vitamin B<sub>12</sub> deficiency, fruit bat (*Rousettus aegyptiacus*) 397
- Antimethogens, activity of pivalate and adipate esters of trichloroethanol, effect on metabolism of sheep rumen micro-organisms, persistence on foliar application to ryegrass 449
- Antimethanogens, physical properties, in vitro tests of activity, rumen micro-organisms, sheep 429
- Aorta, mineral composition, histopathological study, magnesium deficiency, horse foal 45
- Ascorbic acid, association between dietary intake and 'risk' factors affecting diet, man 517
- Ascorbic acid, fortification of cane sugar and common salt, effect on iron absorption, man 141
- Bacteria, rumen, lipid metabolism, effect of high-fat diet, sheep 25
- Barley, supplement to dried-grass diets, effect of processing on intake and digestibility of diet and rumen pH, sheep 493
- Bat (*Rousettus aegyptiacus*) 397
- Behavioural tests, effect of previous under-nourishment, rats 511
- Biotin, deficiency, effect on liver and kidney, wheat-based diets, growing chickens and layers 83
- Bone, mineral composition, histopathological study, magnesium deficiency, horse foal 45
- Calcium, absorption and retention, effect of increasing dietary Ca and phosphorus, young and mature Ca-deficient wether sheep 311
- Calcium, balance, effect of dietary hydrochloric acid and calcined magnesite, grass-meal diet, sheep 233
- Calcium, deficiency, effect on Ca and phosphorus retention, young and mature wether sheep 311
- Calcium, dietary, effect on retention, excretion and tissue distribution of lead, rat 351
- Calcium, intake, effect of school milk, primary schoolchildren, socio-economic study 91
- Calcium, serum and tissue contents, magnesium deficiency, horse foals 45
- Calorimetry, measurement of heat loss, effect of environmental temperature and level of feeding, growing pig 279
- Casein, formation of bonds resistant to proteolytic enzymes, effect of heat and glucose 163
- Casein, simulated amino acid mixture and tryptic hydrolysate, effect of ingestion on plasma amino acids, man 259
- Cat 205
- Cattle *see also* Steer
- Chicken 83, 113, 325, 339, 363
- Child *see also* Man
- Child *see also* Schoolchildren
- Child 91, 459
- Cobalt, flow rate, digestive tract, effect of diet, sheep 73
- Collagenase, cornea, effect of retinol deficiency, rat 297
- Colloidal osmotic pressure, serum, relationship to serum albumin and globulin concentration, kwashiorkor, children 459
- Common salt, fortification with iron and ascorbic acid, effect on Fe absorption, man 141

- Copper, dietary deficiency, effect on fatty acid metabolism of liver microsomes and adipose tissue, rat, 105
- Copper, flow rate, digestive tract, effect of diet, sheep 73
- Copper, metabolism, effect of dietary sulphur source, Cu-molybdenum-S interrelationship, sheep 411
- Copper, whole-body retention, effect of dietary phytate, rat 243
- Cornea, collagenase and proteinase activity, effect of retinol deficiency, rat 297
- Creatine, metabolism, effect of selenium deficiency, rat 119
- Critical temperature, estimation, growing pig 279
- Cyanocobalamin, absorption and retention, significance of binder-protein, effect of age, suckling piglets 469
- Cyanocobalamin, <sup>57</sup>Co-labelled, retention, organ distribution and whole-body content, fruit bat (*Rousettus aegyptiacus*) 397
- Cysteine, availability, estimation by in vitro and in vivo methods, food products 175
- Cysteine, dietary sulphur supplement, effect on copper and molybdenum metabolism, sheep 411
- Cysteine, participation in formation of bonds resistant to proteolytic enzymes, effect of heat and glucose, casein 163
- Desaturase activity, liver microsomes, effect of dietary copper deficiency, rat 105
- Diet, effect on flow of micronutrients, digestive tract, sheep 73
- Diet, feeding frequency, fat metabolism, rat 15
- Diet, nutrient content, sampling and experimental error in estimation by 'duplicate analysis' method 391
- Diet, physical form, chopped and pelleted, fresh and dried grass, effect on eating and rumination time, sheep 59
- Diet, quality and physical form, chopped and pelleted, effect on portal blood flow, heat production and oxygen consumption, gut, fasted and fed sheep 125
- Dietary survey, older people, nutrient intake, incidence of 'risk' factors affecting diet 517
- Dietary survey, primary schoolchildren, contribution of school milk to nutrient intake 91
- Digesta, flow rate, diurnal fluctuations, pig 267
- Digestibility, amino acids, effect of heat damage and propionylation of proteins, faecal and ileal content analysis technique, chicks 339
- Digestibility, dried-grass diet, effect of processed-barley-based supplements, sheep 493
- Digestibility, grass-meal diet, effect of adding hydrochloric acid and calcined magnesite, sheep 233
- Digestion, enzyme activity, interaction of different products of digestion, small intestine, rat, rabbit, cat and hen 205
- Digestive tract, heat production and oxygen consumption, effect of chopped and pelleted diets, fasted and fed sheep 125
- Dipeptidases, activity, effect of different products of digestion, small intestinal mucosa, rat, rabbit, cat and hen 205
- Dried grass, intake and digestibility, effect of processed-barley-based supplements, rumen pH, sheep 493
- Drinking-water, magnesium content, effect on serum and tissue mineral composition, Mg deficiency, horse foals 45
- Energy, association between dietary intake and 'risk' factors affecting diet, man 517
- Energy, deficiency, effect on fibres and nuclei of skeletal muscle, pig 421
- Energy exchanges, eating and rumination, effect of grass diets, sheep 59
- Enzyme *see also* Alkaline phosphatase, Collagenase, Desaturase, Dipeptidases, Glucoamylase, Proteinase, Transketolase
- Enzyme, method for determination of available sulphur amino acids, food proteins 175
- Enzymes, digestion, interaction of different productions of digestion, small intestinal mucosa, rat, rabbit, cat and hen 205
- Enzyme activity, fatty acid metabolism, liver, effect of biotin deficiency, wheat-based diets, growing chickens and layers 83
- Ewe *see also* Sheep
- Faecal analysis, determination of amino acid digestibility, heat-damaged and propionylated proteins, chicks 339
- Fat, dietary, effect on fat metabolism and deposition, feeding frequency, rat 15
- Fat, metabolism, effect of dietary fat and feeding frequency, rat 15
- Fat pads, lipogenesis rate, fatty acid composition, effect of dietary fat and feeding frequency, rat 15
- Fatty acids, lipid metabolism, rumen microorganisms, effect of high-fat diet, sheep 25
- Fatty acid composition, adipose tissue, effect of dietary copper deficiency, rat 105
- Fatty acid composition, liver, effect of biotin deficiency, wheat-based diets, growing chickens and layers 83
- Feeding-stuffs, protein quality, availability of amino acids, microbiological assay 153
- Fermentation, rumen, effect of high-fat diet, diet, sheep 25
- Fish *see* Turbot 383
- Fish meal, amino acid composition, effect of sequential feeding with sunflower meal, nitrogen utilization and growth, chicken 113
- Fish meals, protein quality, available methionine, tryptophan and isoleucine, microbiological assay 153
- Fistula-feeding, effect of grass diets on heat production, gut, sheep 59
- Foal, *see also* Horse

- Folic acid, serum erythrocyte levels, effect of vitamin B<sub>12</sub> deficiency induced by all-fruit diet, fruit bat (*Rousettus aegyptiacus*) 397
- Folic acid, tissue and milk content, capacity of binder-protein, effect of age, suckling piglet 469
- Food, nutrient content, sampling and experimental errors in estimation by 'duplicate analysis' method 391
- Food intake, cyclic pattern, effect of dietary phytate, rat 243
- Food intake, effect of dietary and intraruminal hydrochloric acid and of intraruminal sodium bicarbonate, pelleted grass-meal diet, sheep 221
- Food intake, effect of dietary hydrochloric acid and calcined magnesite, grass-meal diet, sheep 233
- Foot lesions, biotin deficiency, effect of wheat-based diets, growing chickens and layers 83
- Globulin, serum concentration, relationship to serum colloidal osmotic pressure, kwashiorkor, children 459
- Glucosylase, activity, effect of different products of digestion, small intestinal mucosa, rat, rabbit, cat and hen 205
- Glucose, effect of infusion on plasma free amino acids, pre- and postparturient ewes 375
- Glucose, effect on formation of bonds resistant to proteolytic enzymes, casein 163
- Glucose, intestinal absorption, diurnal fluctuations, pig 267
- $\epsilon$ -( $\gamma$ -L-glutamyl)-L-lysine, metabolism, rat 291
- Grass diet, fresh or dried, pelleted or chopped, effect on eating and rumination times and energy exchanges, sheep 59
- Grass-meal diet, effect of hydrochloric acid on food intake and on metabolism, sheep 221
- Groundnut meal, low-quality dietary protein source, effect on growth rate and food conversion efficiency, chicks 363
- Growth rate, effect of dietary phytate, rat 243
- Heat, effect on formation of bonds resistant to proteolytic enzymes, casein 163
- Heat damage, effect on nutritional value of proteins as sources of lysine, methionine and tryptophan, chemical, microbiological and biological assays 325
- Heat damage, proteins, effect on digestibility of amino acids, faecal and ileal content analysis techniques, chicks 339
- Heat increment of feeding, effect of chopped and pelleted diets, sheep 125
- Heat loss, effect of fasting, environmental temperature and level of feeding, growing pig 279
- Heat of fermentation, gut, effect of chopped and pelleted diets, fasted and fed sheep 125
- Heat production, eating and rumination, effect of fresh- and dried-grass diets, sheep 59
- Heat production, gut, effect of chopped and pelleted diets, sheep 125
- Hen 205
- Herring meal, dietary protein source, effect on growth rate and food conversion efficiency, chicks 363
- Histidine, intestinal absorption, diurnal fluctuation, pig 267
- Horse 45
- Hydrochloric acid, effect of addition to diet and intraruminal infusion with or without intraruminal sodium bicarbonate, food intake, acidosis, sheep 221
- Hydroxyproline, cornea, effect of retinol deficiency, rat 297.
- Ileal content analysis, determination of amino acid digestibility, heat-damaged and propionylated proteins, chicks 339
- Inhibitors, antimethanogens, physical properties, in vitro tests with sheep rumen micro-organisms 429
- Intestine, absorption of glutamyl-lysine in vitro and in vivo, rat 291
- Intestine, absorption of histidine and glucose, diurnal fluctuations, pig 267
- Intestine, zinc absorption and secretion, effect of dietary phytate, rat 243
- Intrinsic factor, effect on cyanocobalamin absorption, effect of age, suckling piglet 469
- Iron, absorption, effect of using fortified cane sugar and common salt, man 141
- Iron, whole-body retention, effect of dietary phytate, rat 243
- Isoleucine, availability, microbiological assay, protein quality, fish meals, collaborative study 153
- Kidney, vitamin B<sub>12</sub> concentration, effect of all-fruit diet on retention of [<sup>57</sup>Co]cyanocobalamin, fruit bat (*Rousettus aegyptiacus*) 397
- Kwashiorkor, relationship between serum colloidal osmotic pressure and albumin and globulin concentrations, children 459
- Magnesium, balance, effect of dietary hydrochloric acid and calcined magnesite, grass-meal diet, sheep 233
- Magnesium, dietary deficiency, serum and tissue Mg, calcium and phosphorus, histopathological study, horse foal 45
- Man *see also* Child
- Man 91, 141, 201, 259, 459, 517
- Manganese, flow rate, digestive tract, effect of diet, sheep 83
- Manganese, whole-body retention, effect of dietary phytate, rat 243
- Meal-feeding, effect on fat metabolism and deposition, rat 15
- Methane, in vitro production by sheep rumen micro-organisms, activity of new antimethanogens 429
- Methane, production by sheep rumen micro-organisms, antimethanogenic activity of pivalate and adipate esters of trichloroethanol 447

- Methionine, availability, effect of heat damage and propionylation of proteins, chick growth assay 325
- Methionine, availability, estimation by in vitro and in vivo methods, food products 175
- Methionine, availability, microbiological assay, protein quality, fish meals, collaborative study 153
- Methionine, dietary sulphur supplement, effect on copper and molybdenum metabolism, sheep 411
- Methionine, limiting amino acid, effect of addition to low-quality-protein diets, growth rate, food conversion efficiency, chicks 363
- Methionine, participation in formation of bonds resistant to proteolytic enzymes, effect of heat and glucose, casein 163
- Micro-organisms, rumen, lipid metabolism, effect of high-fat diet, sheep 25
- Microsomes, liver, desaturase activity, effect of dietary copper deficiency, rat 105
- Milk *see also* School milk
- Milk, significance of binder-proteins, cyanocobalamin and folate absorption and retention, suckling piglet 469
- Minerals *see also* Calcium, Cobalt, Copper, Iron, Magnesium, Manganese, Molybdenum, Potassium, Phosphorus, Selenium, Sulphur, Zinc
- Molybdenum, metabolism, effect of dietary sulphur source, copper-Mo-S interrelationship, sheep 411
- Muscle, creatine metabolism, effect of dietary selenium deficiency, rat 119
- Muscle, m. flexor digiti V brevis, fibres and nuclei, effect of nutritional status, pig 421
- Muscular dystrophy, nutritional, creatine metabolism, effect of selenium deficiency, rat 119
- Nibbling, effect on fat metabolism and deposition, rat, 15
- Nitrogen, utilization, effect of sequential feeding with sunflower meal and fish meal, growth, chicken 113
- Nutrient content, food, sampling and experimental errors in estimation by 'duplicate analysis' method 391
- Nutrient intake, association with 'risk' factors affecting diet, man 517
- Nutrient intake, calcium and riboflavin status, effect of school milk, primary schoolchildren, socio-economic study 91
- Nutritional status, primary schoolchildren, effect of school milk, socio-economic study 91
- Obesity, effect of age of onset, weight loss, man 201
- Palatability, grass-meal diet, effect of dietary hydrochloric acid, sheep 221
- Parotid salivary gland, histology, effect of sodium and dietary potassium, steer 1
- Perennial ryegrass, effect on flow of micro-nutrients, digestive tract, sheep 73
- pH, rumen, effect of processed-barley-based supplements, dried-grass diet, sheep 493
- Phosphorus, absorption and retention, effect of increasing dietary calcium and P, young and mature Ca-deficient wether sheep 311
- Phosphorus, dietary, effect on retention, excretion and tissue distribution of lead, rat 351
- Phosphorus, serum and tissue content, effect of magnesium deficiency, horse foal 45
- Phytate, dietary, effect on intestinal absorption and secretion of zinc, retention of Zn, copper, iron and manganese, rat 243
- Pig 267, 279, 421, 469
- Piglet *see also* Pig
- Portal blood flow, effect of chopped and pelleted diets, fasted and fed sheep 125
- Potassium, effect on sodium requirement, body-fluid composition, adrenal and parotid salivary gland histology, steer 1
- Potato, mashed and boiled, nutrient content, sampling and experimental errors in estimation by 'duplicate analysis' method 391
- Pregnancy, plasma free amino acids, effect of glucose infusion, ewes 375
- Propionylation, effect on nutritional value of proteins, chemical, biological and microbiological assays 325
- Propionylation, proteins, effect on digestibility of amino acids, faecal and ileal content analysis techniques, chicks 339
- Protein, casein, simulated amino acid mixture and tryptic hydrolysate, effect on plasma amino acids, man 259
- Protein, food products, effects of processing on available sulphur amino acid content 175
- Protein, formation of bonds resistant to proteolytic enzymes, effects of heat and glucose 163
- Proteins, propionylated and heat-damaged, digestibility of amino acids, chick assay 339
- Protein(s), heat-damaged and propionylated, nutritional value, determined by chemical, microbiological and biological assays 325
- Protein deficiency, effect on fibres and nuclei of skeletal muscle, pig 421
- Protein quality, effect on growth rate, food conversion efficiency, chicks 363
- Protein quality, feeding-stuffs, available amino acids, microbiological assay, collaborative study 153
- Proteinase, activity, cornea, effect of retinol deficiency, rat 297
- Protozoa, rumen, lipid metabolism, effect of high-fat diet, sheep 25
- Pyridithiamin, thiamin antagonist, effect of addition to diet, growth, turbot (*Scophthalmus maximus*) 383
- Rabbit 205
- Rat 15, 105, 119, 175, 205, 243, 291, 297, 351, 501, 511
- Retinol, deficiency, effect on collagenase and proteinase activity, cornea, rat 297
- Riboflavin, intake, effect of school milk, primary schoolchildren, socio-economic study 91

- Rumen, antimethanogenic activity of pivalate and adipate esters of trichlorethanol, metabolism of micro-organisms, sheep 447
- Rumen, dilution rate, volume of contents, volatile fatty acids, micro-organisms, effect of high-fat diet, sheep, 25
- Rumen, fermentation, volatile fatty acids, effect of dietary hydrochloric acid and calcined magnesite, grass-meal diet, sheep 233
- Rumen, metabolism, effect of dietary and intraruminal hydrochloric acid and intraruminal sodium bicarbonate, grass-meal diet, sheep 221
- Rumen, methane production, in vitro tests of new antimethanogens, sheep 429
- Rumination time, effect of grass diets, sheep 59
- Ryegrass, foliar application of trichloroethyl adipate, in vitro antimethanogenic activity of ryegrass extracts, sheep rumen micro-organisms 447
- Schoolchildren 91
- School milk, effect on nutrient intake and calcium and riboflavin status, primary schoolchildren, socio-economic study 91
- Selenium, deficiency, effect on creatine metabolism, rat 119
- Selenium, metabolism of [<sup>75</sup>Se]selenocystine and [<sup>75</sup>Se]selenomethionine, rat 501
- Selenocystine, <sup>75</sup>Se-labelled, metabolism, rat 501
- Selenomethionine, <sup>75</sup>Se-labelled, metabolism, rat 501
- Sheep 25, 59, 73, 125, 221, 233, 311, 375, 411, 429, 447, 493
- Silage, effect of hydrochloric acid on intake, sheep 221
- Small intestine, enzyme activity, interactions of products of digestion, rat, rabbit, cat and hen 205
- Sodium, requirement, effect of dietary potassium, steer 1
- Sodium bicarbonate, intraruminal infusion, hydrochloric-acid-supplemented, grass-meal diet, effect on food intake and metabolism, sheep 221
- Soya-bean meal, low-quality dietary protein source, effect on growth rate and food conversion efficiency, chicks 363
- Steer 1
- Streptococcus zymogenes* assay, available amino acids, protein quality of feeding-stuffs, collaborative study 153
- Sulphur, dietary, inorganic and organic, effects on copper and molybdenum metabolism, sheep 411
- Sunflower meal, amino acid composition, effect of sequential feeding with fish meal, nitrogen utilization and growth, chicken 113
- Temperature, environmental, effect on heat loss at different levels of feeding, growing pig 279
- Thiamin, estimation of requirement, turbot (*Scophthalmus maximus*) 383
- Transketolase, erythrocyte activity, effect of dietary thiamin, turbot (*Scophthalmus maximus*) 383
- Trichloroethyl adipate, antimethanogenic activity in vivo, sheep 447
- Trichloroethyl adipate, physical properties, anti-methanogenic activity in vitro, sheep 429
- Trichloroethyl pivalate, antimethanogenic activity in vivo, sheep 447
- Trichloroethyl pivalate, physical properties, methanogenic activity in vitro, sheep 429
- Tryptophan, availability, effect of heat damage and propionylation of protein, chick growth assay 325
- Tryptophan, availability, microbiological assay, protein quality of fish meals, collaborative study 153
- Turbot (*Scophthalmus maximus*) 383
- Undernourishment, effect on response in behavioural tests, rat 511
- Vitamin(s) *see also* Ascorbic acid, Biotin, Cyanocobalamin, Folic acid, Retinol, Riboflavin, Thiamin
- Vitamin B<sub>12</sub>, organ distribution and biological half-life, effect of deficiency induced by all-fruit diet, folate metabolism, fruit bat (*Rousettus aegyptiacus*) 397
- Vitamin D, association between intake and 'risk' factors affecting diet, man 517
- Vitamin E, content of sorghum grain, effect on sodium requirements and growth, steer 1
- Volatile fatty acids, production by rumen micro-organisms, effect of high-fat diet, sheep 25
- Volatile fatty acids, rumen, effect of dietary and intraruminal hydrochloric acid and intraruminal sodium bicarbonate, grass-meal diet, sheep 221
- Volatile fatty acids, rumen, effect of dietary hydrochloric acid and calcined magnesite, grass-meal diet, sheep 233
- Weight loss, effect of age of onset of obesity, man 201
- Zinc, flow rate, digestive tract, effect of diet, sheep 73
- Zinc, intestinal absorption and secretion, whole-body retention, effect of dietary phytate, rat 243
