FORTHCOMING PAPERS

The next issue of the British Journal of Nutrition will appear in July 1977. It is hoped to publish in it the following papers:

Papers of direct relevance to CLINICAL AND HUMAN NUTRITION

Metabolic studies in rats of 75Se incorporated in vivo into fish muscle. By Margaret Richold, Marion F. Robinson and R. D. H. Stewart

Serum proteinase inhibitors and other serum proteins in protein-energy malnutrition. By F. P. Schelp, P. Migasena, P. Pongpaew, W. H. P. Schreurs and V. Supawan

Reasons why hypoalbuminaemia may or may not appear in proein-energy malnutrition. By W. A. COWARD, R. G. WHITHEAD and P. G. LUNN

Effect of dietary protein level on some key enzymes of the tryptophan-NAD pathway. By U. SATYANA-RAYANA and B. S. NARASINGA RAO

Daily intakes of managanese, copper, zinc and cadmium by New Zealand women. By Barbara E. Guthrie and Marion F. Robinson

Papers on GENERAL NUTRITION

Use of the constant infusion technique for measuring rates of protein synthesis in the New Zealand White rabbit. By G. A. Nicholas, G. E. Lobley and C. I. Harris

Polyamine synthesis in various tissues of the young rat during undernutrition. By P. A. McAnulty and J. P. G. Williams

Distribution of copper and zinc in the liver of the developing sheep foetus. By I. Bremner, R. B. Williams and B. W. Young

The effect of dietary copper sulphate on laying performance, nutrient intake and tissue copper and iron levels of the mature, laying, domestic fowl. By N. Jackson

Determination of rumen microbial growth in vitro from ³²P-labelled phosphate incorporation. By C. J. VAN NEVEL and D. I. DEMEYER

The effect of dietary calcium on the activity of 25-hydroxycholecalciferol-l-hydroxylase and Ca absorption in vitamin D-replete chicks. By R. Swaminathan, Barbara A. S. Chadwick and A. D. Care

The effect of various forms of gastro-intestinal cannulation on digestive measurements in sheep. By J. C. MacRae and S. Wilson

The production of renal calcinosis by magnesium deficiency in rainbow trout, Salmo gairdneri By C. B. Cowey, D. Knox, J. W. Adron, S. George and B. Pirie

The British Journal of Nutrition

Volume 37 No. 3 May 1977

CONTENTS

Papers of direct relevance to CLINICAL AND HUMAN NUTRITION	
Fractional catabolic rates of myosin and actin estimated by urinary excretion of N7-methyl-histidine: the effect of dietary protein level on catabolic rates under conditions of restricted food intake. By N. NISHIZAWA, M. SHIMBO, S. HAREYAMA and R. FUNABIKI	15-353
Adsorption of 'fortification' iron. Bioavailability in man of different samples of reduced Fe and prediction of the effects of Fe fortification. By E. Björn-Rasmussen, L. Hallberg and L. Rossander	75–388
Human protein requirements: evaluation of the 1973 FAO/WHO safe level of protein intake for young men at high energy intakes. By C. Garza, N. S. Scrimshaw and V. R. Young .	3-420
Increased thirst and hunger in adult rats undernourished as infants: an alternative explanation By J. L. SMART and J. DOBBING	21-430
A quantitative study into the role of infection in determining nutritional status in Gambian village children. By M. G. M. ROWLAND, T. J. COLE and R. G. WHITEHEAD	11-450
An animal model to study iron availability from human diets. By B. S. Narasinga Rao, J. Siva Prasad and C. Vijaya Sarathy	1-456
Papers on GENERAL NUTRITION	
Nutritive value of mixed proteins. 1. In cereal-based diets for poultry. By A. A. WOODHAM and P. S. DEANS	9-308
Nutritive value of mixed proteins, 2. As determined by net protein utilization and protein efficiency ratio tests. By A. A. WOODHAM and E. M. W. CLARKE	9-319
The vitamin B ₆ status of pigs given a diet containing linseed meal. By H. N. BISHARA and H. F. WALKER	1-331
Measurement of the rate of flow of dry matter in digesta passing through the duodenum of sheep. By J. D. Oldham and J. R. Ling	3-343
The energy cost of fat and protein deposition in the rat. By J. D. Pullar and A. J. F. Webster 35	5-363
Carbohydrate digestion by the domestic cat (Felis catus). By J. G. Morris, J. Trudell and T. Pencovic	5-373
Degradation of the nucleic acids in mixed rumen bacteria on incubation with different media. By R. C. SMITH and R. H. SMITH	9-394
Responses to post-ruminal infusions of glucose and casein in lactating goats. By S. S. E. RANAWANA and R. C. KELLAWAY	5-402
Studies on lipid digestion in the preruminant calf. 2. A comparison of the products of lipolysis of milk fat by salivary and pancreatic lipases in vitro. By J. D. EDWARDS-WEBB and S. Y. THOMPSON	1-440
SHORT PAPER	
Selenium concentrations and glutathione peroxidase activities in whole blood of New Zealand residents. By Christine D. Thomson, Heather M. Rea, Veronica M. Doesburg and Marion F. Robinson	7_460
