Cover Artwork

First Bloom, Transparent Watercolor by Jan Feyzi

Jan Feyzi was always interested in drawing and painting as a child, but decided to pursue a career in Biostatistics, working as a statistician analyzing clinical trial data. Over the years, she felt the need to re-ignite her love of art and took classes and workshops whenever time allowed. Now retired, she devotes her time to making art and enjoys painting in both her studio and *en plein air*. Jan currently resides in Fitchburg (Wisconsin USA) and her work can be found at: <http://www.janfeyzi.com>.

Aims and Scope: The mission of *Prehospital and Disaster Medicine* (PDM) is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster health, and public health and safety. PDM provides an international forum for the reporting and discussion of scientific studies, both quantitative and qualitative, that have relevance to the above practices. The major objectives are: (1) the improvement of the types and quality of the care delivered to patients with perceived medical emergencies and to victims of multi-casualty accidents or disasters, including the public health and safety aspects of such events; and (2) the prevention and/or mitigation of the occurrence of such events and of the effects of these events upon the human population and environment.
