COMPOSITES ENGINEERING

An International Journal

Editor-in-Chief: **David Hul**, *University of New Orleans, USA*

The international journal *Composites Engineering* serves as a forum for the publication of original papers in the broad area of composite materials and engineering structures.

The journal is seeking submissions from authors on theoretical and experimental investigation of composite structures and materials.

The journal will specifically deal with the design and manufacturing of composite materials as intended for and used in engineering structures and their performance under high temperatures, high stresses and corrosive environments. Letters to the Editor, reviews and announcements of forthcoming conferences are invited.

Subscription Information

1992: Volume 2 (8 Issues) ISSN: 0961-9526

One and two-year subscription prices available on application.

Pergamon Press has a broad range of journals in the area of Materials Research (some of which are listed below). For a free sample copy of any journal listed please check the appropriate box and fill in your address details. Then return a photocopy of this section to the below address or to the **Pergamon Exhibit, Stand No. 207** at the **MRS Fall Meeting in Boston, 3-5 December 1991**.

- Acta Metallurgica et Materialia (00221)
- Canadian Metallurgical Quarterly (00345)
- Carbon (00258)
- Cement and Concrete Research (00352)
- Composites Engineering (00984) **NEW**
- Corrosion Science (00260)
- Engineering Fracture Mechanics (00322)
- European Polymer Journal (00294)
- Materials and Society (00519)
- Materials Research Bulletin (00313)
- Plastics and Rubber Materials Disc (00971)
- Progress in Materials Science (00414)
- Scripta Metallurgica et Materialia (00222)
