

## Provocative Books in Law and Social Science

### **SOCIAL SCIENCE, SOCIAL POLICY, AND THE LAW**

PATRICIA EWICK, ROBERT A. KAGAN,  
AUSTIN SARAT, EDITORS

With the expansion of legal rights in the 1960s, the law and social science were bound together by an optimistic belief that legal interventions, if fully informed by social science, could become an effective instrument of social improvement. This book explores this new relationship between social science and the law, taking the lead in showing how they can form a productive partnership.

### **Local Justice in America**

Jon Elster, editor

### **LOCAL JUSTICE IN AMERICA**

JON ELSTER, EDITOR

This volume explores how selections are made in college admissions, kidney transplants, employee layoffs, and legalized immigration, revealing the unique nature of the American value system.

### **TRUST GOVERNANCE**

### **TRUST AND GOVERNANCE**

VALERIE BRAITHWAITE,  
MARGARET LEVI, EDITORS

"A significant contribution to the issue of trust in the state. The value of this book is that it presents a true dialogue, with all the major conflicting perspectives represented. It will certainly attract the attention of social scientists in a variety of disciplines who are working on some aspect of institutional theory." —Gary Miller, Washington

# *Supreme Court Economic Review*

*Supreme Court Economic Review* is a unique interdisciplinary series that applies economic and legal scholarship to the work of the Supreme Court of the United States. Contributions typically provide an economic analysis of the events that generated the Court's cases, of its functioning as an organization, of the reasoning the Court employs in reaching its decisions, and of the impact these verdicts have on society. Hoping to stimulate interest in the economic dimension of the Supreme Court and to explore solutions to the complex problems it addresses, *SCER* goes further than other periodicals in truly merging law and economics. Its focus on the Supreme Court makes the *SCER* an outlet for law and economics analysis that is not available elsewhere.

# Culture and the Law

## **Eco-pragmatism**

**Daniel A. Farber**

"A superb integration of theory and practice, *Eco-pragmatism* should be read by everyone interested in environmental protection and environmental law. Of particular importance is Farber's argument on behalf of an 'environmental baseline'—one would give the benefit of the doubt to environmental protection, but also allow a place for consideration of costs. There is an especially illuminating discussion of duties to future generations as well. All in all, a first-rate book." —Cass Sunstein, The University of Chicago Law School

**Cloth \$23.00**

## **The Cultural Study of Law**

*Reconstructing Legal Scholarship*

**Paul W. Kahn**

"*The Cultural Study of Law* is a manifesto for a new way of thinking about law. While many practitioners and judges like to complain that academic law has grown too academic, Kahn's complaint runs in the opposite direction, that it is too steeped in practice and thus deprives us of some exciting vistas which the cultural study of law holds out. There is some work in law that strikes a similar note, but nothing that marches down this road with the resolution, depth, and panache of this book." —Leo Katz, author of *Bad Acts and Guilty Minds* and *Ill-Gotten Gains*

**Cloth \$27.50**

## **Speaking Respect, Respecting Speech**

**Richard L. Abel**

"Courageous and innovative, *Speaking Respect, Respecting Speech* successfully threads the needle, skirting the excesses of Puritan overregulation of odious speech while refusing to minimize the injuries that racial insult, hardcore pornography, and religious blasphemy can inflict."

—Richard Delgado, coauthor of *Must We Defend Nazis? Hate Speech, Pornography, and the New First Amendment*

— Linda Kerber, Professor of History, University of Iowa
