

WEED SCIENCE

JOURNAL OF THE WEED SCIENCE SOCIETY OF AMERICA

VOLUME 29

SEPTEMBER 1981

NUMBER 5

—CONTENTS—

- 521 Response of Dwarf Wheat (*Triticum aestivum*) and Four Weed Species to Herbicides. O. P. Kataria and Vijay Kumar
- 525 Fringed Sagebrush (*Artemisia frigida*) Control in Western Nebraska. Robert G. Wilson and James Stubbendieck
- 530 Germination of Broom Snakeweed (*Gutierrezia sarothrae*) and Threadleaf Snakeweed (*G. microcephalum*) Seed. H. S. Mayeux, Jr. and Laura Leotta
- 535 Forage and Livestock Production Following Oak (*Quercus* spp.) Control with Tebuthiuron. Charles J. Scifres, Jerry W. Stuth, Donald R. Kirby, and Raymond F. Angell
- 540 Weevil (*Notaris bimaculatus*) Feeding Reduces Effectiveness of Glyphosate on Quackgrass (*Agropyron repens*). Philip H. Westra, Donald L. Wyse, and Edwin F. Cook
- 548 Salinity Effects with EPTC and CDEC in Tomato (*Lycopersicon esculentum*) and Lettuce (*Lactuca sativa*). S. Acosta-Nunez and Floyd M. Ashton
- 553 Smutgrass (*Sporobolus poiretii*) Control in Bahiagrass (*Paspalum notatum*) Pastures. B. J. Brecke
- 556 Absorption, Translocation, and Exudation of Glyphosate, Fosamine, and Amitrole in Field Horsetail (*Equisetum arvense*). David Coupland and Dwight V. Peabody
- 561 Dissipation and Leaching of Metriflufen under Field and Controlled Conditions. Noell K. Rogers and Ronald E. Talbert
- 566 Antagonistic Effects of MCPA on Wild Oat (*Avena fatua*) Control with Diclofop. Wayne A. Olson and John D. Nalewaja
- 571 Inhibition of δ -Aminolevulinic Acid Synthesis by Glyphosate. Lynn M. Kitchen, William W. Witt, and Charles E. Rieck
- 577 Germination of Exhumed Weed Seed in Nebraska. Orvin C. Burnside, Charles R. Fenster, Larry L. Evetts, and Robert F. Mumm
- 586 Control of Horsenettle (*Solanum carolinense*) Fleshy Roots in Pastures. R. Michael Gorrell, S. Wayne Bingham, and Chester L. Foy
- 590 Mineral Content of Tomato (*Lycopersicon esculentum*) and Four Competing Weed Species. Douglas C. Sanders, Allen S. Grayson, and Thomas J. Monaco
- 594 Studies on Indigo Witchweed, the American Strain of *Striga gesnerioides* (Scrophulariaceae). Lytton J. Musselman and Chris Parker
- 597 Diclofop and MCPA Influence on Coleoptile Growth. Wayne Olson, John D. Nalewaja, Galen L. Schroeder, and Murray E. Duysen
- 601 Synergistic Interactions of Tebuthiuron with EPTC + R-25788 and Butylate + R-25788 in Corn (*Zea mays*). Kriton K. Hatzios

Contents continued—inside front cover

Contents continued from front cover

- 605 Effect of DBCP on Fluchloralin Persistence. Fayte Brewer, Ronald E. Talbert, and Terry L. Lavy
- 610 Influence of Shading by Soybeans (*Glycine max*) on Weed Suppression. T. R. Murphy and B. J. Gossett
- 615 Weed Control in Established Dryland Alfalfa (*Medicago sativa*). Robert G. Wilson, Jr.
- 619 Response of Seedlings of Three Perennial Grasses to Dalapon, Amitrole, and Glyphosate. Richard D. Comes, Louis Y. Marquis, and Allen D. Kelley
- 622 Sustaining Members
-
