

## ANNOUNCEMENT

# New Society

---

We announce the formation of the newly established Hispanic Neuropsychological Society (HNS). The Hispanic Neuropsychological Society seeks to work collaboratively with already established neuropsychological divisions and organizations in order to promote competent and culturally appropriate practice of neuropsychology with Hispanic populations.

HNS intends to collect and disseminate information on current available tests and nonnative data specific to Hispanics. HNS will be publishing a newsletter twice a year. The current officers of HNS are:

- Marcel O. Pontón, Ph.D., President (University of California, Los Angeles)

- Patricia Pérez-Arce, Ph.D., Vice-President (University of California, San Francisco)
- Rubén J. Echemendía, Ph.D., Secretary/Treasurer (Pennsylvania State University).

For more information please write or call:
