The Kingdom of Jordan

By *RAPHAEL PATAI*

Small, poor in resources, and torn by political strife, Jordan is nonetheless a strategically pro-Western outpost in the troubled Middle East. Yet up to now, very little information has been available about this nation and her people. *The Kingdom of Jordan* is the first book in English to give a full description of all aspects of Jordan's life: the land, the people, their history, politics, economy, society, and culture. It contains a detailed account of recent political developments, including last year's crucial events, and gives a clear picture of the role Jordan is playing in the present power struggle between the Soviets and the West in the Middle East.

326 pages. Illustrated. \$5

The Berlin Blockade

A Study in Cold War Politics

By *W. PHILLIPS DAVISON*

This dramatic story of the Berlin Blockade affords the reader a close-up view of many of the most important elements of the cold war: Soviet diplomacy, communist techniques of propaganda and terror, the lumbering process of Allied decision-making, and the strength and weaknesses of the Western coalition. The author shows how the Soviets skillfully initiated and maintained the crisis and how the Allies met the challenge with the ingenious air-lift. Most important, he shows why the people of Berlin resisted so stubbornly and how they were able to hold out during the long blockade winter. *A RAND Corporation Research Study.*

446 pages. Illustrated. \$7.50

The King's Two Bodies

A Study in Medieval Political Theology

By *ERNST H. KANTOROWICZ*

A detailed analysis of the legal fiction of "The King's Two Bodies"—the body politic and the body natural—as developed by the English jurists of the Tudor period. Professor Kantorowicz traces the historical problem posed by this concept back to the Middle Ages and demonstrates, by placing the concept in its proper setting of medieval thought, how the early-modern Western monarchies gradually began to develop a political theology based on the assumption of a perpetual continuity of the state. 548 pages. \$10
