CNS SPECTRUMS

EDITOR-IN-CHIEF: **STEPHEN M. STAHL**

 THE JOURNAL OF THE
**Neuroscience
Education Institute**

 **CAMBRIDGE
UNIVERSITY PRESS**

Want some CME with that?

STAHL

MASTERCLASS

- An online educational program in core areas of psychiatry with interactive readings, short lectures, animations and case studies

- Self-testing and opportunities to claim formal CME credits, all taken at a self-directed speed

- Written and moderated by experts in the field from the Dr. Stahl's Neuroscience Education Institute and the University of Cambridge

For more information, please go to

CNS SPECTRUMS

CONTENTS

BRAINSTORMS

Dazzled by the dominions of dopamine: clinical roles of D3, D2, and D1 receptors

Stephen M. Stahl 305

EDITORIAL

The surprising blindness in modern psychiatry: do guidelines really guide?

Pedro Antônio Schmidt do Prado-Lima 312

ORIGINAL RESEARCH

Pharmacogenetic testing for the guidance of psychiatric treatment: a multicenter retrospective analysis

Jordi Espadaler, Miquel Tuson, Jose Miguel Lopez-Ibor, Francisco Lopez-Ibor and Maria Ines Lopez-Ibor 315

Italian Bipolar II vs I patients have better individual functioning, in spite of overall similar illness severity

Bernardo Dell'Osso, Cristina Dobrea, Laura Cremaschi, Massimiliano Buoli, Shefali Miller, Terence A. Ketter and A. Carlo Altamura 325

Asenapine for the treatment of adults with an acute exacerbation of schizophrenia: results from a randomized, double-blind, fixed-dose, placebo-controlled trial with olanzapine as an active control

Ronald Landbloom, Mary Mackle, Xiao Wu, Linda Kelly, Linda Snow-Adami, Roger S. McIntyre, Maju Mathews and Carla Hundt 333

Effect of agomelatine treatment on C-reactive protein levels in patients with major depressive disorder: an exploratory study in "real-world," everyday clinical practice

Domenico De Berardis, Michele Fornaro, Laura Orsolini, Felice Iasevoli, Carmine Tomasetti, Andrea de Bartolomeis, Nicola Serroni, Ida De Lauretis, Gabriella Girinelli, Monica Mazza, Alessandro Valchera, Alessandro Carano, Federica Vellante, Ilaria Matarazzo, Giampaolo Perna, Giovanni Martinotti and Massimo Di Giannantonio 342

Efficacy, safety, and tolerability of vortioxetine for the treatment of major depressive disorder in patients aged 55 years or older

George G. Nomikos, Dapo Tomori, Wei Zhong, John Affinito and William Palo 348

Posttraumatic stress disorder symptom severity is associated with left hippocampal volume reduction: a meta-analytic study

Michael D. Nelson and Alecia M. Tumpap 363

CORRIGENDA

Remission and recovery associated with lurasidone in the treatment of major depressive disorder with subthreshold hypomanic symptoms (mixed features): post-hoc analysis of a randomized, placebo-controlled study with longer-term extension—CORRIGENDUM

Joseph F. Goldberg, Daisy Ng-Mak, Cynthia Siu, Chien-Chia Chuang, Krithika Rajagopalan and Antony Loebel 373

The following abstracts were presented as posters at the 2016 NEI Psychopharmacology Congress – CORRIGENDUM

Managing Editor

Lisa Arrington, Cambridge University Press (larrington@cambridge.org)

Aims and Scope

CNS Spectrums covers all aspects of the clinical neurosciences, neurotherapeutics and neuropsychopharmacology, particularly those pertinent to the clinician and clinical investigator. The journal features focused, in-depth reviews, perspectives and original research articles. New therapeutics of all types in psychiatry, mental health, and neurology are emphasized, especially first in man studies, proof of concept studies and translational basic neuroscience studies. Subject coverage spans the full spectrum of neuropsychiatry, focusing on those crossing traditional boundaries between neurology and psychiatry.

Submitting Manuscripts to *CNS Spectrums*

All submissions to *CNS Spectrums* should be prepared in accordance with the instructions for authors and in the style of the Journal. Manuscripts should be submitted through the dedicated *CNS Spectrums* ScholarOne Manuscripts website: <http://mc.manuscriptcentral.com/cnsspectr>

CNS Spectrums will consider and encourage the following types of articles for publication: **Reviews**—The review article is a comprehensive article summarizing and synthesizing the literature on various topics presented in a scholarly and clinically relevant fashion; **Perspectives**—The perspective article is a type of review that is a short, focused summary of a single recent advance, a sort of spotlight on the topic, which could be for example, a single point hypothesis or a novel model. It can stimulate debate and new research. **Meta-guidelines**—A meta-guideline is a “guideline of guidelines” put together by several leading figures in a field in which there are multiple competing guidelines that require synthesis and updating; **Original Research**—Reports the results of a clinical study and contains original research; the journal will also include **Brainstorms** and **Editorials** that shall be commissioned or written by the Editor-in-Chief.

Instructions for Contributors

The Instructions for Contributors are available on the Cambridge Journals Online web site at: <http://journals.cambridge.org/CNSifc>

Indexing

CNS Spectrums is indexed by *Index Medicus*/MEDLINE and Web of Science (Thomson Reuters) as well as appearing in the annual Journal Citation Report. Introduced in 1996, the journal was acquired in whole by Cambridge University Press in November of 2011.

Subscriptions

Institutional print and electronic: £598/\$948; Institutional electronic only: £454/\$726.
