

Not being noticed is our business..

BAHA Classic 300

The updated BAHA has **three main improvements**: The first is the development of a **continuous base tone control** which has flexibility to cover the frequency response range of the four previous models. The second improvement is the adoption of ABS plastic for the hearing aid casing which offers a more **aesthetic moulded design**, greater strength and colour stability.

THE BAHA CLASSIC 300 also comes with a **FIVE YEAR WARRANTY** (UK Only).

Indications for the BAHA

- **Chronic Otitis Media** - with conductive or mixed hearing loss where the use of air conduction devices is contraindicated.
- **Congenital Malformation** - of the external or middle ear where an air conduction hearing aid cannot be used or is contraindicated.
- **Otosclerosis** - in some cases.

...a reliably retained prosthesis

DIAGNOSIS AND TREATMENT OF THE HEARING IMPAIRED CHILD

NEW TWO DAY BASIC COURSE

25th – 27th November 1996

Course Tutor: Dr D Lucas
Consultant in Audiological Medicine

The course is intended for doctors working in Child Health and for trainees in general practice, ENT and Paediatrics and may be of particular interest to those working towards the FRCS.

The lectures and demonstrations are given by consultants and senior registrars in audiological medicine with specific contributions from colleagues in otolaryngology, speech and language therapy, psychology and audiological science.

The course is designed to include information on the identification, causes and management of hearing loss in children, focusing on the pre-school child with sensorineural hearing loss. The development of hearing and speech and language, hearing assessment, the use of hearing aids and the implications for development, behaviour, and education will be covered.

Fee: £295 (including all refreshments)

Applications to be sent to:

FOURTH INTERNATIONAL COPENHAGEN COURSE ON ACOUSTIC NEUROMA SURGERY and CADAVER DISSECTION PRE-COURSE

ENT Department, Gentofte University Hospital
Copenhagen, Denmark

August 31-September 4, 1997

Course Director Mirko Tos

The main goal of the course is to teach the participants how to remove acoustic neuromas of all sizes by
Translabyrinthine approach and
Extended Middle Fossa Approach

CADAVER DISSECTION PRE-COURSE

For a number of participants who wish to exercise translabyrinthine approach and extended middle fossa approach on temporal bones and cadavers, there will be arranged a separate dissection course of two days duration at the Gentofte Hospital on Saturday and Sunday, August 30th and 31st, 1997.

Private Practice Software

Debtor Management a Problem..?
Accountancy Changes Excessive..?
Secretary Deluged with Paperwork..?
Accountancy Software Too Complex or Inflexible..?

Not if you are using Practice Manager..!

The UK's Leading Private Practice Software Package.

- Written specifically and exclusively for private practice, genuinely easy-to-use.
- Fast and accurate billing using the licensed BUPA coding system.
- Fully integrated with commercial word processors, Practice Manager will significantly reduce secretarial workload. No more repeat typing of information!
- Automated, personalised debtor management in minutes as opposed to hours or even days - increases cash-flow and reduces bad debts.
- Individually tailored and configured to closely reflect the professional image you wish to portray on your printed output.
- Professional on-site training, backed by the highest possible level of ongoing support and continued development.

DGL have taken the "Pain" out of computerisation for over 700 Practice Manager users ranging from individual consultants through to major health care groups including BUPA, Nuffield and BMI.

Your private practice can benefit from Practice Manager together with the support, security and backing of DGL - the UK's leading supplier of private practice software.

Take the first step to increasing the efficiency and profitability of your private practice.

Ring today for a FREE no-obligation demonstration or to receive a detailed brochure.
