

APPLICATION FOR FFI MEMBERSHIP

Please complete in block letters

Name Title

Address

Membership categories (tick appropriate box)

Standard £27 Concessionary (senior citizen, unwaged, student*) £15

Sponsor £50 Supporter (no *Oryx*) £12 Life £1000

Airmail despatch (see inside cover for standard despatch details) £8.00

*If student please give date you expect to finish studies

METHODS OF PAYMENT

1. CHEQUE/ POSTAL OR MONEY ORDER/ GIRO CREDIT (Currency: £ sterling only)

I enclose £

2. CREDIT CARD (AmEx, Visa, Delta, Switch, Access – only for overseas payments)

Name of card Name of card holder

Card No. Expiry date

3. BANKER'S ORDER Please send to the FFI, not to your bank.

Name Account No. Bank Sort Code - -

Name and address of bank

Please pay for the credit of Fauna and Flora Preservation Society, Account No. 60336130,
Barclays Bank plc (20-12-75), 139/142 North Street, Brighton BN1 1RU

my subscription of £ due on and the same amount on the same day each
year until further notice. Signature

This cancels any previous order in favour of the FFPS.

DEED OF COVENANT

If you pay income tax in the UK you can greatly increase the value of your subscription to the FFI, at no additional cost to yourself, by signing this Deed of Covenant.

I (full name) of

hereby covenant with the Fauna and Flora Preservation Society, whose office is Great Eastern House, Tenison Road, Cambridge CB1 2DU, that for a period of four years from the date hereof, or until my death (whichever shall be the shorter period) I will pay annually to the said Society from the day of (this date should be later than the date of the signature) in every year such a sum as, after deduction of income tax at the standard rate for the time being in force, amounts to £ (please insert the actual amount of your subscription), such a sum to be paid from my general fund of taxed income.

Signed and sealed by me this * day of 19

Signature In the presence of Occupation

(signature of witness, who should not be your spouse)

Address

* The first payment must be received within 1 year from this date.

Global Change Biology

for the latest research at the interface
between current environmental change
and biological systems

Editors

Steve Long, *Chief Editor, University of Essex, UK*
Harry Smith, *Managing Editor, University of Leicester, UK*
Jeff Bale, *University of Birmingham, UK*
Paul Falkowski, *Brookhaven National Laboratory, USA*
Chris Field, *Carnegie Institution, Stanford, USA*
Jim Prosser, *University of Aberdeen, UK*

Contents of Volume 1, Issue 1

Fluxes of carbon dioxide and water vapour over an undisturbed tropical forest in south-west Amazonia

J Grace, J Lloyd, J McIntyre, A Miranda, P Meir, H Miranda, J Moncrieff, J Massheder, I Wright and J Gash

Impact of climate change on grassland production and soil carbon worldwide

W J Parton, J M O Scurlock, D S Ojima, D S Schiel, D O Hall and SCOPEGRAM group members

Climatic severity and the response to temperature elevation of Arctic aphids

A T Strathdee, J S Bale, F C Strathdee, W C Block, S J Coulson, N R Webb and I D Hodgkinson

Simulated climate change: are passive greenhouses a valid microcosm for testing the biological effects of environmental perturbations?

A D Kennedy

Early-season effects of supplemented solar UV-B radiation on seedling emergence, canopy structure, simulated stand photosynthesis and competition for light

P W Barnes, S D Flint and M M Caldwell

Leaf gas exchange and nitrogen dynamics of N₂-fixing, field-grown *Alnus glutinosa* under elevated atmospheric CO₂

C S Vogel and P S Curtis

Global climate models and 'dynamic' vegetation changes

A Henderson-Sellers and K McGuffie

Terrestrial ecosystems and the carbon cycle

D S Schimel

ORYX: NOTES FOR CONTRIBUTORS

General *Oryx* publishes original articles and reports dealing with the conservation of species and habitats world-wide, with particular emphasis on those that are endangered. All submissions are reviewed by at least two referees. It is helpful if authors suggest at least one referee who is qualified to judge the work objectively.

Submissions should be sent to the Editor, FFI, Great Eastern House, Tenison Road, Cambridge CB1 2DT, UK.

After acceptance papers may be edited to enhance clarity. Where major changes have been made edited manuscripts are returned to authors before type-setting. Page proofs are sent to all authors for approval before going to press. Contributors receive two free copies of the journal and will be entitled to buy additional copies at £2.00 each, post free. Offprints may be ordered at cost price.

Contributions should be concise but informative, normally in English. Articles should be as short as possible, preferably under 3000 words, and very short articles are acceptable.

Manuscripts should be typed on one side only and double-spaced on A4 paper (208×298 mm). The left-hand margin must be at least 40 mm wide. Two copies should be submitted and authors are also invited to submit papers on disk (IBM compatible or Apple format).

Footnotes should be avoided but, if necessary, should be indicated with asterisks in the text. The author's name and postal address should follow any acknowledgements and references at the end of the article.

References in the text should give the author's name with the year of publication in parentheses. The reference list should be in alphabetical

order and include the full article title.

References should be given according to the abbreviations in the *World List of Scientific Periodicals*. Thus:

Aveling, C. and Harcourt, A.H. 1984. A census of the Virunga gorillas. *Oryx*, **18**, 8–13.

Hartshorn, M.G. 1983. Wildlife conservation in Central America. In *Tropical Rain Forest: Ecology and Management* (eds S. L. Sutton, T. C. Whitmore and A. C. Chadwick), pp. 421–423. Blackwell Scientific Publications, Oxford.

Illustrations are welcomed and ideally should be glossy, black-and-white whole-plate prints. Good colour slides are acceptable if black-and-white photographs are not available.

Line drawings and maps should be in black ink on strong white or translucent paper. Lettering on maps and figures should be sent on a separate copy of the figure along with the unlabelled original.

Captions for figures should be typed consecutively on a separate sheet.

Tables. Each table should be self-explanatory and typed on a separate sheet with an appropriate caption.

Scientific names should be underlined and not placed in parentheses. Species' names should follow a checklist, which should be mentioned in a covering letter where there is a risk of confusion.

The first time a species is mentioned its scientific name should be given. English names should be in lower case throughout except where they incorporate a proper name.

Editorial 151

- The FFPS changes name and address • In this issue

Savannah Perspective 152

- The (dis)information age

News and Views 154

- Agate replaces rhino horn in Yemen's new dagger handles
- Cubatão – an important Brazilian mangrove swamp under threat
- Pelicans fail to nest as normal at Kaziranga National Park in 1994
- Correction: Elephants – four years after the ivory trade ban

Briefly 158

Managing wildlife successfully in Zimbabwe

Graham Child 171

Applications of human behavioural ecology to sustainable wildlife conservation and use programmes in developing nations

Joel T. Heinen 178

Ecological importance and invertebrate conservation

T. R. New and A. L. Yen 187

Habitat fragmentation and primate conservation in the Atlantic Forest of eastern Minas Gerais, Brazil

Stephen F. Ferrari and Vânia H. Diego 192

Changes in otter numbers in Shetland between 1988 and 1993

Jim Conroy and Hans Kruuk 197

Tropical forest primates and logging: long-term coexistence?

Andrew Grieser Johns and Bettina Grieser Johns 205

Short Communications

The Ambangulu Forest, West Usambara Mountains, Tanzania: a threatened Eastern Arc forest

Steven M. Goodman, William T. Stanley, William D. Newmark and Kim M. Howell 212

Sighting of the western gentle lemur *Haplemur griseus occidentalis* in north-west Madagascar

Deborah J. Curtis, Alphonse Zaramody and Olivier D. Rabetsimalona 215

Cover

Japanese macaques *Macaca fuscata* in hot springs, Shiga Highlands, Japan
