

Scientific Change

Edited by A. C. CROMBIE

Symposium on the History of Science held at the University of Oxford

The most distinguished men and women in their own fields – scientists, mathematicians, sociologists, economists, philosophers and historians – gathered together from America, Europe, the U.S.S.R. and Asia, have contributed to a book which covers every aspect of scientific discovery throughout the world from the earliest times to the present day.

'Exceptional both in its range and interest . . . deserves to be widely read and discussed.' *The Times Educational Supplement*

MICHAEL FARADAY

A BIOGRAPHY BY
L. Pearce Williams

The product of years of research and preparation, this book is a major biography of a distinguished British scientist, likely to supersede all that has gone before it and to remain the standard work on its subject for many years to come. It throws considerable fresh light on Faraday both as a man and as a scientist; and introduces and emphasises the often neglected concept of Faraday as a theorist, drawing strength for his ideas from for instance the German philosophers, as well as a brilliant experimentalist.

A THEATRE OF MACHINES

A. G. Keller

An anthology of plates taken from the earliest printed books of mechanical invention dating from 1570-1630, showing how an interest in machines and their potentialities arose in the society of the time.

THE BRITISH SOCIETY FOR THE HISTORY OF SCIENCE

THE objects of the Society are to further the study of the history of science, by holding meetings for the reading and discussion of papers, and by facilitating the publication of relevant material.

The British Journal for the History of Science is the official organ of the Society.

Meetings are held in the Science Museum, Exhibition Road, South Kensington, London, S.W.7, usually in January, February, March, May, June, October and November.

Membership is open to all persons approved by the Council of the Society, and elected at an Ordinary Meeting. The annual subscription is at present £2 10s. and includes a free issue of the Society's Journal, which appears in June and December each year.

Those who wish to join the Society should write to the *Hon. Secretary*, Mr. J. A. Chaldecott, Science Museum, South Kensington, London, S.W.7.

Papers for inclusion in the Journal should be submitted to the *Hon. Editor*, Dr. H. D. Anthony, Melrose, 102 Norcot Road, Tilehurst, Reading, Berks., from whom instructions may be obtained concerning the presentation and documentation of papers. All communications on editorial matters, and books for review, should be addressed to the Hon. Editor.

Particulars regarding advertising in the Journal may be obtained from the *Hon. Treasurer*, Mr. D. Chilton, Science Museum, South Kensington, London, S.W.7.

The British Journal for the History of Science is published by the Society. Four parts constitute one Volume; each part contains approximately 96 pages. The cover of each issue has a consecutive number for ease of collation in subsequent binding, e.g. No. 16 will be numbered: Vol. iv Part iv No. 16, and No. 17 will be: Vol. v Part i No. 17.

Order Forms, with lists of contents of Parts already published, are obtainable from the *Hon. Publications Secretary*, Mr. F. H. C. Butler, Ravensmead, Keston, Kent, to whom Orders for the Journal should be sent.

Whole Cloth Binding Cases lettered in Gold on spine and particulars of binding costs may be obtained from HEADLEY BROTHERS LTD., INVICTA PRESS, ASHFORD, KENT.
