# TEAR OFF THE MASKS

Identity and Imposture in Twentieth-Century Russia

**Sheila Fitzpatrick**

When revolutions happen, they change the rules of everyday life—both the codified rules concerning the social and legal classifications of citizens and the unwritten rules about how individuals present themselves to others. This occurred in Russia after the Bolshevik Revolution of 1917, which laid the foundations of the Soviet state, and again in 1991, when that state collapsed. *Tear Off the Masks!* is about the remaking of identities in these times of upheaval.

Engaging in style and replete with colorful detail and characters drawn from a wealth of sources, this thoroughly researched work offers unique insight into the elusive forms of self-presentation, masking, and unmasking that made up Soviet citizenship and continue to resonate in the post-Soviet world.

***“Tear off the Masks! is so appealingly written, full of wit and occasional humor, that it could serve as a model of the historian’s craft.”***—Lewis Siegelbaum, Michigan State University, author of *Stalinism as a Way of Life*

***“Tear off the Masks! will be indispensable to students of Soviet history and valuable to scholars as well.”***—Catriona Kelly, University of Oxford, author of *Refining Russia*
