WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthukumar V Bagavathiannan, Texas A&M, College Station, TX 77843 (2015)

Nathan Boyd, University of Florida, Wimauma, FL 33598 (2021)

Ian Burke, Washington State University, Pullman, WA 99164 (2019)

Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

Bhagirath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

Erin Haramoto, University of Kentucky, Lexington, KY 40506 (2020)

Prashant Jha, Iowa State University, Ames, IA 50011 (2017)

Mithila Jugulam, Kansas State University, Manhattan, KS 66506 (2019)

Vipin Kumar, Kansas State University, Hays, KS 67601 (2020)

Ramon Leon, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

Sara Martin, Ag Canada, Ottawa, Canada (2018)

Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

Hilary Sandler, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

Debalin Sarangi, University of Wyoming, Powell, WY 82435 (2020)

Steven Seefeldt, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

Te-Ming Paul Tseng, Mississippi State University, Mississippi State, MS 39762 (2019)

Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Chenxi Wu, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$443.00; UK £308.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

WEED SCIENCE

Journal of the Weed Science Society of America

Volume 69 Number 4 July 2021

REVIEW

- Diseases of Johnsongrass (*Sorghum halepense*): possible role as a reservoir of pathogens affecting other plants. *Ezekiel Ahn, Louis K. Prom and Clint Magill*..... 393

RESEARCH ARTICLES

- Identification and validation of reference genes for quantitative real-time PCR studies in alligatorweed (*Alternanthera philoxeroides*). *Junliang Yin, Lu Hou, Xinchun Jiang, Jie Yang, Yang He, Xiaokang Zhou, Xiongming Zhu, Andong Gong, Yongxing Zhu and Zhongyi Chen*..... 404
- Environmental cues affecting horseweed (*Conyza canadensis*) growth types and their sensitivity to glyphosate. *John A. Schramski, Christy L. Sprague and Eric L. Patterson*..... 412
- Investigating the resistance levels and mechanisms to penoxsulam and cyhalofop-butyl in barnyardgrass (*Echinochloa crus-galli*) from Ningxia Province, China. *Qian Yang, Xia Yang, Zichang Zhang, Jieping Wang, Weiguo Fu and Yongfeng Li*..... 422
- Effects of a novel combination of two mutated acetolactate synthase (ALS) isozymes on resistance to ALS-inhibiting herbicides in flixweed (*Descurainia sophia*). *Yufang Xu, Lina Xu, Jing Shen, Xuefeng Li and Mingqi Zheng*..... 430
- Independent origins of populations from Dehong State, Yunnan Province, and the multiple introductions and post-introduction admixture sources of mile-a-minute (*Mikania micrantha*) in China. *Mei Ji, Sangzi Ze, Saichun Tang, Lianrong Hu and Junmin Li*..... 439
- Emergence patterns of winter and summer annual weeds in Ethiopian mustard (*Brassica carinata*) cropping system. *Ruby Tiwari, Theresa A. Reinhardt Piskackova, Pratap Devkota, Michael J. Mulvaney, Jason A. Ferrell and Ramon G. Leon*..... 446
- Seed germination ecology of southeastern Australian rigid ryegrass (*Lolium rigidum*) populations. *Michael Thompson, Gulshan Mahajan and Bhagirath S. Chauhan*..... 454
- Germination ecology of four African mustard (*Brassica tournefortii* Gouan) populations in the eastern region of Australia. *Sohraab Singh, Gulshan Mahajan, Rajandeep Singh and Bhagirath S. Chauhan*..... 461
- Seed longevity and germination in response to changing drought and heat conditions on four populations of the invasive weed African lovegrass (*Eragrostis curvula*). *Jason Roberts, Singarayer Florentine, Eddie van Etten and Christopher Turville*..... 468
- Evaluating shade cloth to simulate Palmer amaranth (*Amaranthus palmeri*) competition in sweetpotato. *Levi D. Moore, Katherine M. Jennings, David W. Monks, David L. Jordan, Ramon G. Leon and Michael D. Boyette*..... 478
- Interference of wild oat (*Avena fatua*) and sterile oat (*Avena sterilis* ssp. *ludoviciana*) in wheat. *Gulshan Mahajan and Bhagirath Singh Chauhan*..... 485
- Interaction of 4-hydroxyphenylpyruvate dioxygenase (HPPD) and atrazine alternative photosystem II (PS II) inhibitors for control of multiple herbicide-resistant waterhemp (*Amaranthus tuberculatus*) in corn. *Christian Willemse, Nader Soltani, C. Hooker David, Amit J. Jhala, Darren E. Robinson and Peter H. Sikkema*..... 492
