

CORRECTIONS

to *Journal of Hygiene*, Vol. 34

Pp. 474–485. Messrs W. Martindale inform us that the Lactic Acid Pessaries reported upon by Dr John R. Baker in the *Journal of Hygiene*, Vol. 34, pp. 474–485, are not recommended by them as a contraceptive. They are made to the order of a clinic. (Editor.)

P. 528, line 26, for “glucose media, and did not affect saccharose and maltose media”
read “glucose and maltose media, and did not affect saccharose media”
