

Tables

5.1	Classifying border change events in terms of state births and deaths.	<i>page</i> 119
5.2	Classifying ethnic border change events in terms of state births and deaths.	120
5.3	Number of ethnic border change events as a share of all events in Europe, 1816–2017.	128
5.4	Number of ethnic border change events as a share of all events worldwide, 1886–2017.	128
S4.1	OLS models of territorial change at the country level, 1490–1890.	277
S4.2	Cox proportional hazard models of state death, 1490–1790.	279
S4.3	OLS model of gains state A and losses state B, dyadic level, 1490–1790.	281
S5.1	Cox proportional hazard models of territorial losses and gains, Europe 1816–2017.	286
S5.2	Cox proportional hazard models of territorial losses and gains, World 1886–2017.	286
S5.3	Cox proportional hazard models of border-change events, Europe 1816–2017.	288
S5.4	Cox proportional hazard models of border-change events, World 1886–2017.	288
S7.1	OLS models of ethnic civil-war onset, Europe 1816–2017.	298
S7.2	OLS models of territorial claim onset, Europe 1816–2001.	299
S7.3	Dyadic MID initiation, Europe 1816–2014.	300
S7.4	OLS models of civil-war onset, global sample 1946–2017/1946–2002.	302
S7.5	OLS models of territorial claim onset, global sample 1945–2001.	303
S7.6	OLS models of MID initiation, global sample 1945–2014.	304
S7.7	OLS models of ethnic rebel support, global sample 1945–2017.	305

S8.1	OLS models of civil war onset in ethnic group segments, 1816–2017.	311
S8.2	OLS models of ethnic territorial claims in directed dyads, 1816–2001.	313
S8.3	OLS models of fatal MID initiation in directed country dyads, 1816–2014.	314
S8.4	OLS models of golden ages and interstate conflict: timing.	316
S9.1	Railroads and separatism (1816–1945).	322
S9.2	Separatism: linear interaction models.	323
S9.3	Network structure and causal mechanisms.	325
S9.4	Instrumenting railroad access.	327
S10.1	Ethnic cleansing 1886–2020 (OLS): TEK links and past home rule.	332
