College Guidelines

The Library staff have produced another register of College guidelines covering the period 1990 to 1992 which can be obtained from the Publications Department. Index to Statements, Guidelines and Policy Documents of the College 1990-1992. Copies of Index to Statements, Guidelines and Policy Documents 1971-1989 are still available. Price £2.50.

A new booklist

List of Books Suitable for a Psychiatric Library (Supplement 4) 1992 is available. It includes books which received favourable reviews in the British psychiatric press during 1992 and is intended to assist medical librarians and psychiatric clinical tutors with book selection. Available from the College Publications Department, price £2.00.

Audit

Members searching commercial literature databases such as *Medline* and *Excerpta Medica* will know that papers from the *Psychiatric Bulletin* are generally excluded. With this in mind, we have (since 1989) been compiling a cumulative bibliography of papers on audit appearing in this College journal. Updated on a monthly basis, this list is available on request to the Library.
