***Antiquity* is an international, peer-reviewed journal of archaeological research that aims to communicate the most significant discoveries, theory, method and cultural resource issues rapidly and in plain language to practising archaeologists everywhere.**

Antiquity is included in the Cambridge Journals Online service at <http://journals.cambridge.org/AQY>. Additional and free-to-access material may be found at <http://antiquity.ac.uk>

Antiquity was founded in 1927 by O.G.S. Crawford and is owned by the Antiquity Trust, a registered charity. The trustees of the Antiquity Trust are **Graeme Barker, Amy Bogaard, Robin Coningham, Barry Cunliffe, Roberta Gilchrist, Anthony Harding, Carl Heron, Martin Millett, Nicky Milner, Stephanie Moser and Cameron Petrie.**

The Directors of Antiquity Publications Ltd, owned by the Antiquity Trust and responsible for producing *Antiquity* are **Chris Gosden, Sue Hamilton, Nicky Milner, Cameron Petrie, Mike Pitts, Marie Louise Stig Sørensen and Robert Witcher.**

Antiquity remains neutral with regard to jurisdictional claims in maps supplied by authors.

Cover. Results of a terrestrial laser scanning survey of intertidal structures in the Léguer Estuary, Brittany, France. The images show an axonometric view of the stone-paved trackway leading to the fishweir at Petit Taureau: (top) a terrestrial laser scanning DEM, with photographic imagery draped over it, and (bottom) with the intensity of return draped over it. The intensity of return shows the sand (in yellow and red) burying the lower part of the trackway where it enters the tidal frame (image by M. Lobb; for further details, see the full article by Lobb et al. in this issue on 'An estuarine tidescape of production: terrestrial laser scanning of fixed fishing structures and a tide mill in the Léguer Estuary, Brittany').
