

Proceedings of the Nutrition Society

Volume 61, 2002 ISSN: 0029-6651

Aims and Scope

Proceedings of the Nutrition Society publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society.

Coverage includes:

- Clinical nutrition and metabolism
- Obesity and body composition
- Infant nutrition
- Diet selection and control of intake
- Nutrition and behaviour
- Reproduction, growth and development
- International and public health nutrition
- Animal nutrition and metabolism
- Molecular aspects of nutrition
- Functional foods
- Macronutrient metabolism
- Micronutrients and antioxidants
- Companion animal nutrition
- Epidemiology

Proceedings of the Nutrition Society is published six times a year by CABI Publishing on behalf of The Nutrition Society.

The journal is available on the Internet at: <http://www.ingenta.com/>

Honorary Editorial Board and Programmes Committee

J J Strain
Chair

C J Seal
Programmes Secretary

G R Goldberg
Proceedings Editor

Group Secretaries

H M Miller
Animal Nutrition and Metabolism

S Fairweather-Tait
Macronutrient Metabolism

S C Langley-Evans
Reproduction and Development

P C Calder
Clinical Nutrition and Metabolism

H McArdle
Micronutrient Metabolism

H Roche
Irish Section Secretary

F Rabiee-Khan
International and Public Health Nutrition

I Kyriazakis
Nutrition and Behaviour

N Hoggard
Scottish Section Secretary

Publications Staff

A S Thiruchelvam
Publications Co-ordinator

K Chan
Publications Assistant

C T Hughes
Sub-editor

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its application to the maintenance of human and animal health.

Honorary Officers of The Society

J Mathers
President

J L Buttriss
Secretary

J J Strain
Treasurer

C J Seal
Programmes Secretary

S New
Communications

K M Younger
Publications

M Wiseman
External Relations

B Margetts
Professional Affairs

Application for membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

The Nutrition Society Home Page is at <http://www.nutsoc.org.uk>

Proceedings of the
Nutrition
Society

Abstracts of Original Communications

63A–170A

Heriot-Watt University, Edinburgh, UK, 26 March 2002

- The stability of food intake between adolescence and adulthood: a 21-year follow-up.
A.M. Craigie, A.A. Lake, C. Wood, M. Gibbons, S. Webster, A.J. Adamson, A.J. Rugg-Gunn & J.C. Mathers 64A
- Aggregation of diets containing fatty and sugary foods and fruit and vegetables within cohabiting couples.
A.A. Lake, A.M. Craigie, C. Wood, M. Gibbons, A.J. Rugg-Gunn, J.C. Mathers & A.J. Adamson 64A
- The development and pilot evaluation of a pregnancy nutrition education intervention programme ('Food For Life') for women aged 16–18 years.
W.L. Wrieden & A. Symon 65A
- Use of the theory of planned behaviour to predict intention of complete denture wearers to eat more fruit and vegetables.
J. Bradbury, J.M. Thomason, N.J.A. Jepson, A.W.G. Walls, P.F. Allen & P.J. Moynihan 65A
- The development and evaluation of a school-based approach to increasing vegetable intake in schoolchildren.
K.L. Barton, A.S. Anderson, A. Woodcock, E. Robertson, P. McCaffrey & L.E.G. Porteous 66A
- A shelf-stable, palatable test meal suitable for use with hydrophilic and lipophilic tracers in ¹³C breath tests.
C. Slater, T. Preston, D.J. Morrison & L.T. Weaver 66A
- Estimation of food intake through chewing analysis in free-grazing animals.
F.F. Bermúdez, J.J. Amor Ranedo & J.P. Barrio 67A
- Melatonin changes the pattern of daily food intake in streptozotocin-induced diabetic rats.
V. Molpeceres, M.V. García-Mediavilla & J.P. Barrio 67A
- Factors influencing the perception of amount in servings of chips with different thicknesses.
S.E. Covington & A. Wise 68A
- Approaches to weight maintenance in a work-site setting.
W.S. Leslie, M.E.J. Lean & C.R. Hankey 68A
- Estimating dietary flavonoid intake: comparison of a semi-quantitative food frequency questionnaire with 4-day weighed diet records in a Scottish population.
J. Kyle, L.F. Masson, D.A. Grubb, G.G. Duthie & G. McNeill 69A

University of Ireland, Galway, Republic of Ireland, 19–21 June 2002

- Polyunsaturated fatty acid modulation of the immune response as assessed by cytokine production.
G.A. Gilmore, J.M.W. Wallace & W.S. Gilmore 71A

Serum vitamin D and parathyroid hormone concentrations in a group of 50 to 70-year-old Irish women. <i>T.R. Hill, M.M. O'Brien, M. Kiely, A. Flynn & K.D. Cashman</i>	71A
Evaluation of dipeptidyl peptidase-IV in type 2 diabetic patients under different glycaemic control. <i>N. Duffy, A.M. McKillop, J.R. Lindsey, F.P.M. O'Harte, P.M. Bell & P.R. Flatt</i>	72A
Reported intakes and assessment of iron and folate stores among Dublin schoolchildren. <i>A.C. Griffin, M.A.T. Flynn & K.M. Younger</i>	72A
Plasma homocysteine is not related to aortic pulse wave velocity in healthy young adults. <i>J.V. Woodside, A. M. Gallagher, C.A. Boreham, L.J. Murray, J.J. Strain, H. McNulty, P.J. Robson, M. Savage & I.S. Young</i>	73A
Ascorbic acid supplementation reduces blood pressure and arterial stiffness in patients with type 2 diabetes. <i>I.S. Young, B.A. Mullan & D.R. McCance</i>	73A
Nutritional intakes of Qatari women during and after Ramadan. <i>A. Al-Romaihi, M. Moloney & E.P. McNamara</i>	74A
Identification of twenty-six risk factors affecting nutritional intake and a mini nutritional assessment of patients in a long-stay psychiatric hospital. <i>M. O'Donnell, M. McNicholas & P. Finegan</i>	74A
Setting up a peer-led nutrition education program in a rural setting: identifying the pitfalls and strengths. <i>C. Gray & M. Clancy</i>	75A
Irish dietitians' views on tube feeding. <i>S. Healy & E.P. McNamara</i>	75A
Energy and protein intakes, and subjective global assessment of peritoneal dialysis patients. <i>O. Griffin, G. Houlihan & M. Moloney</i>	76A
Protein and energy intakes and subjective global assessment of haemodialysis patients. <i>O. Slevin, G. Houlihan & M. Maloney</i>	76A
Modulatory effects of α - and γ -tocopherol on oxysterol-induced cytotoxicity in two human cell lines. <i>A.J. O'Sullivan & N.M. O'Brien</i>	77A
Content of the phytosterols β -sitosterol, campesterol and stigmasterol in commercially available vegetable oils. <i>D.M. Fahy, K. Galvin & N.M. O'Brien</i>	77A
The alteration of cellular glutathione content in oxysterol-induced apoptosis. <i>L. Ryan, Y.C. O'Callaghan & N.M. O'Brien</i>	78A
The effect of β -sitosterol oxidation products on cell viability in two human cell lines. <i>L.S. Maguire, M.A. Konoplyannikov & N.M. O'Brien</i>	78A
Effects of an algal extract containing astaxanthin on UVA-irradiated human skin fibroblasts in culture. <i>N.L. Lyons & N.M. O'Brien</i>	79A
Development of an <i>in vitro</i> model to estimate the bioavailability of carotenoids. <i>S.M. O'Sullivan & N.M. O'Brien</i>	79A
The effect of various types of nutritional education on the nutritional knowledge of senior inter-county Gaelic Athletic Association hurlers. <i>C. Breen, E. McNamara & H.M. Roche</i>	80A
Nutritional intake, knowledge and supplement use of competitive Irish cyclists. <i>E. O'Sullivan, P. Doran & E.P. McNamara</i>	80A
Risk perception in expert and non-expert groups. <i>A. Mullen, J. Lambe & M.J. Gibney</i>	81A
Consumer choice of chicken. <i>O.B. Kennedy, B.J. Stewart-Knox, P.C. Mitchell & D.I. Thurnham</i>	81A

Effects of oral physiology on the release of aroma from model food systems using two model mouth simulators.	
<i>M.D. Geary, S.M. van Ruth, E.H. Lavin, C.M. Delahunty & T.E. Acree</i>	82A
Some like it hot: influence of chemical irritation on flavour and texture perception.	
<i>C.G. Forde & C.M. Delahunty</i>	82A
Birth weight, breast-feeding and body fatness in Northern Irish adolescents: the Young Hearts project.	
<i>S.M. McElhone, J. Twisk, P.J. Robson, L. Murray & C.A.G. Boreham</i>	83A
Energy and macronutrient intakes reported by adolescents in Northern Ireland: comparison of 1990 and 2000 data.	
<i>O.A. Ward, P.J. Robson, G.W. Cran & C.A.G. Boreham</i>	83A
Energy and nutrient intakes among healthy overweight volunteers, maintained on low-sucrose (5% energy) and sucrose-containing (10% energy), weight-reducing diets.	
<i>M. Finn & M. Moloney</i>	84A
Tracking of energy and macronutrient intakes from adolescence to young adulthood: the Young Hearts project, Northern Ireland.	
<i>A.M. Gallagher, P.J. Robson, A.J. Long, G.W. Cran, J.J. Strain, L.J. Murray, J.M. Savage & C.A.G. Boreham</i>	84A
Compliance, acceptability and carbohydrate knowledge in healthy overweight volunteers, maintained on low-sucrose (5% energy) and sucrose-containing (10% energy), weight-reducing diets.	
<i>R.T. Hannon & M. Moloney</i>	85A
Intakes of saturated, monounsaturated and polyunsaturated fat in Irish adults: findings of the North/South Ireland Food Consumption Survey.	
<i>A.J. Wallace, S.N. McCarthy & M.J. Gibney</i>	85A
The impact of ready to eat breakfast cereals (RTEBCs) on the level of inadequacy of micronutrients and non-compliance with dietary recommendations in Irish adults.	
<i>M.A. Galvin, M. Kiely & A. Flynn</i>	86A
Characteristics of nutritional supplement users versus non-users.	
<i>E.N. Newman, E.M. Hannon, M. Kiely & A. Flynn</i>	86A
Cereal intake in Ireland and its potential use for food-based dietary guidelines.	
<i>S.J. Burke, S.N. McCarthy, N.A. O'Dwyer, A.J. Wallace & M.J. Gibney</i>	87A
Where are we eating? Analysis of the number of eating occasions at various locations, with emphasis on the food service sector.	
<i>N.A. O'Dwyer, S.N. McCarthy, S.J. Burke, A.J. Wallace & M.J. Gibney</i>	87A
Adolescents talking about food and health: a focus group approach.	
<i>M. Morrissey, M.C. McKinley, C. Lowis, P.J. Robson, A. Moran & M.B.E. Livingstone</i>	88A
Relationship between carbonated soft drink intake and bone mineral density in Northern Irish adolescents: the Young Hearts project.	
<i>C.P. McGartland, P.J. Robson, L. Murray, J.M. Savage & C.A.G. Boreham</i>	88A
Social class influences on energy and macronutrient intakes reported by 12-year-old boys and girls participating in the Northern Ireland Young Hearts project: 1990 compared with 2000.	
<i>M.R. O'Neill, P.J. Robson & C.A.G. Boreham</i>	89A
The effect of inter-generational social and regional circumstances on dietary intake patterns of British adults: results from the 1946 Birth Cohort.	
<i>G.D. Mishra, A.A. Paul, D.C. Greenberg, M.E.J. Wadsworth & C. Bolton-Smith</i>	89A
Food poverty in rural Ireland.	
<i>J. Harrington & S. Friel</i>	90A
Health and lifestyle inequalities: the emerging Ireland.	
<i>S. Friel, C.C. Kelleher & G. Nolan</i>	90A
Mean percentage body fat in relation to socio-demographic, lifestyle factors and physical activity in Irish adults.	
<i>C.M. Murphy, M.A. Galvin, M. Kiely & A. Flynn</i>	91A

Evaluation of the <i>in vitro</i> antioxidant activity of wheat milling fractions.	
<i>R.K. Beattie, R.W. Welch, A.M. Lee, J.J. Strain, K. O'Sullivan & G.M. Campbell</i>	91A
Evaluation of the <i>in vitro</i> antioxidant activity of oat products as influenced by source and milling conditions.	
<i>A.M. Lee, R.W. Welch, R.K. Beattie & J.J. Strain</i>	92A
Folate analysis of composite meals.	
<i>K. Pentieva, J.A. Kidd, D.J. McKillop, J.J. Strain, J.M. Scott & H. McNulty</i>	92A
Homocysteine in renal transplant patients is affected by immunosuppressive regimens.	
<i>J.A. Troughton, R. Cunningham, J.V. Woodside, A.P. Maxwell & I.S. Young</i>	93A
Plasma homocysteine is a reliable functional indicator of folate status.	
<i>M. Ward, J.J. Strain, J. McPartlin, J.M. Scott & H. McNulty</i>	93A
Setting up a cardiovascular, dietetic clinic service in primary care.	
<i>V. O'Connor & M. O'Donnell</i>	94A
An audit of patients leaving an oncology hospital on home enteral feeding.	
<i>L. Maxwell, N. O'Sullivan, & E.P. McNamara</i>	94A
Healthy eating policy development in primary schools – the learning process.	
<i>L. Kirby & M. O'Donnell</i>	95A
Setting up a peer-led nutrition project for disadvantaged groups in Galway City.	
<i>M. Hurley & M. O'Donnell</i>	95A
The Happy Heart Catering Award 1998–2001.	
<i>A. O'Shea, O. Carolan & N. Eldin</i>	96A
Dietary energy and macronutrient intake among Bangladeshis in East London.	
<i>J.W. Rahman & V. Costarelli</i>	96A
Scepticism of claimed benefits predicts rejection of reduced fat food products.	
<i>B. Stewart-Knox, J. Hamilton & B. Bunting</i>	97A

University of Leeds, Leeds, UK, 2–5 July 2002

Effects of forage legumes on the fatty acid composition of beef.	
<i>N.D. Scollan, M. Enser, R.I. Richardson & J.D. Wood</i>	99A
The fatty acid composition of muscle and liver of lambs fed concentrates alone or with grass silage.	
<i>E. Kasapidou, J.D. Wood, L.A. Sinclair, R.G. Wilkinson & M. Enser</i>	99A
The effects of breed and diet on the fatty acid content of the phospholipid fraction of bovine <i>longissimus dorsi</i> .	
<i>H.E. Warren, M. Enser, K. Hallett, J.D. Wood & N.D. Scollan</i>	100A
Development by chicks of selection against foods containing lithium chloride or diluted with wheat, or both.	
<i>D. Li & J.M. Forbes</i>	100A
The effect of the biological selenium status on the oxidative stability of sheep meat.	
<i>E. Kasapidou, J.D. Wood, B.G. Merrell, S.N. Brown & M. Enser</i>	101A
The individual and combined effect of thymol and carvacrol on coccidia-infected broiler chickens.	
<i>F. Ibrir, H.M.R. Greathead & J.M. Forbes</i>	101A
Effects of quebracho tannins on nutrient utilisation of chickpeas by sheep.	
<i>M.H.L. Bento, T. Acamovic & J.M.F. Abreu</i>	102A
Influence of grass silage fermentation and concentrate composition on the fatty acid composition of bovine muscle.	
<i>A.P. Moloney, D. McGilloway & C. Stanton</i>	102A
<i>In-vitro</i> evidence for plant enzyme mediated lipolysis in the rumen.	
<i>M.R.F. Lee, M.K. Theodorou, T.T. Chow, M. Enser & N.D. Scollan</i>	103A

Colour of subcutaneous adipose tissue and <i>longissimus dorsi</i> muscle of heifers fed grass, grass silage or concentrate-based diets. <i>P.G. Dunne, A.P. Moloney, F.J. Monahan & F.P. O'Mara</i>	103A
Use of distortions of the jaws and the skull during eating and ruminating to measure strength of chewing in sheep fed roughage and concentrate diets. <i>W.L. Grovum, J.J. Thomason, W.W. Bignell & A.G. Deswysen</i>	104A
A study of gas pressure receptors in the reticulorumen which may evoke eructation in sheep. <i>W.L. Grovum & W.M. Shaik Mossadeq</i>	104A
Reducing dietary fat intake: strategies employed by subjects in the UK Women's Cohort Study. <i>C. Golding, J. Cade, S. Kirk, C. Lawton & D. Greenwood</i>	105A
The stability of nutrient intake between adolescence and adulthood: a 21-year follow-up. <i>A.M. Craigie, A.A. Lake, C. Wood, M. Gibbons, S. Webster, A.J. Adamson, A.J. Rugg-Gunn & J.C. Mathers</i>	105A
Parental change in starch and fat intake after a "starchy food" intervention. <i>P.J. Curtis, S. Webster, A.J. Adamson & J.C. Mathers</i>	106A
Promoting dietary change in primary school children: parental perspectives. <i>K.H. Hart, L.V. Ryder, L.A. Bennett, J.A. Bishop & H. Truby</i>	106A
Trends of overweight and obesity in 11–12-year-old adolescents between 1980 and 2000, measured using different BMI cut-offs. <i>E.S. Fletcher, A.J. Adamson, A.F. Hackett & A.J. Rugg-Gunn</i>	107A
Low folate status, high alcohol intake and genomic DNA hypomethylation predict the risk of colorectal adenoma and cancer: a case control study. <i>M. Pufulete, R. Al-Ghnanien, A.J.M. Leather, P.W. Emery & T.A.B. Sanders</i>	107A
The influence of the lipoprotein lipase S447X and HindIII polymorphisms on the association between habitual dietary saturated fat intake and lipid levels. <i>L.F. Masson, A. Cumming, C. Tuya & G. McNeill</i>	108A
Changes in blood, plasma and red cell volume after ingestion of hypotonic and hypertonic solutions. <i>S.J. Merson, S.M. Shirreffs, J.B. Leiper & R.J. Maughan</i>	108A
Effect of daily caffeine consumption on fluid balance. <i>C.L. Miller & R.J. Maughan</i>	109A
Branched chain amino acids and prolonged exercise capacity in a warm environment. <i>P. Watson, A.T. Strachan, S.M. Shirreffs & R.J. Maughan</i>	109A
Altered plasma phosphatidylcholine <i>n</i> -3 polyunsaturated fatty acid concentrations in male colectomy patients. <i>A.N.J. May, D.H.L. Ng, G.C. Burdge, P.C. Calder, M.A. Stroud & S.A. Wootton</i>	110A
Association between salivary antioxidant status and periodontal disease. <i>D.V. Sculley & S.C. Langley-Evans</i>	110A
Dietary intake and bone mass in the mothers of gymnasts and controls: preliminary analysis of the extent of genetic influences on peak bone mass development. <i>J.A. Nurmi, J.A. Bishop, P. Taylor, C. Cooper & S.A. New</i>	111A
Dietary patterns and alkaline phosphatase in the elderly in the UK. <i>M. Safarian, B.M. Margetts & A.A. Jackson</i>	111A
Indices of bone health and lifestyle characteristics in premenopausal and postmenopausal Saudi Arabian women. <i>S.O. Khoja, J.A. Khan, A.-R.A. Maimani & S.A. New</i>	112A
Investigation into the role of dietary phenolics in the acute modification of glucose tolerance and gastrointestinal hormone secretion in volunteers. <i>K.L. Johnston, M.N. Clifford & L.M. Morgan</i>	112A
The glycaemic index of a meal replacement formula diet. <i>A. Norouzy, A.R. Leeds & P.W. Emery</i>	113A
Effect of osmolality on gastric emptying of carbohydrate solutions. <i>C.H. Simpson, S.M. Shirreffs, J.B. Leiper & R.J. Maughan</i>	113A

Higher intakes of zinc are positively associated with indices of bone health in perimenopausal and early postmenopausal Scottish women. <i>H.M. Macdonald, S.A. New, W.D. Fraser & D.M. Reid</i>	114A
Alcohol intake: an example of how to handle missing dietary questionnaire information. <i>U.A. Nur, D.C. Greenwood, J.E. Cade & N.T. Longford</i>	114A
Missing data in standard food composition tables. <i>C. Whitham, M. Standing, J. Pollard, D. Greenwood & J. Thomas</i>	115A
The prevalence of overweight and obesity in children aged 4–12 years in Gibraltar, using the International Obesity Taskforce standard definition. <i>S.F.L. Kirk & M. McLeod</i>	115A
Frequency of confectionery consumption from vending machines and other purchase providers: associations with dietary and lifestyle habits in British schoolchildren. <i>S.A. New & M.B.E. Livingstone</i>	116A
Waist : Height ratios in British children aged 5–16 years: a suggestion for a simple public health message – ‘keep your waist circumference to less than half your height’. <i>H.D. McCarthy & M. Ashwell</i>	116A
Role of cheese in the diet of children aged 4–18 years: further analysis of the National Dietary and Nutritional Survey. <i>T.A.B. Sanders & A. Parke</i>	117A
Ability of the UK Women’s Cohort Study food frequency questionnaire to rank dietary intakes: a preliminary validation study. <i>M. Spence, J.E. Cade, V.J. Burley & D.C. Greenwood</i>	117A
Association between food variety and selected socio-demographic and lifestyle characteristics in adults in the West of Scotland. <i>M. Ebrahimi-Mameghani, J.A. Scott & G. Der</i>	118A
Impact of whole grain breakfast consumption on daily nutrient intakes. <i>A.T. Smith, S. Kuznesof, D.P. Richardson & C.J. Seal</i>	118A
Predictors of plasma selenium in participants of the UK Women’s Cohort Study. <i>G.R. McArt, J.E. Cade, V.J. Burley & D.C. Greenwood</i>	119A
Effect of maternal nutrient restriction during late-gestation on growth hormone (GH) and prolactin (PRL) receptor abundance in neonatal lambs. <i>M. Hyatt, J. Bispham, J. Dandrea, D. Walker, M.E. Symonds & T. Stephenson</i>	119A
Maternal nutrient restriction during early to mid-gestation and programming of kidney development of juvenile offspring in sheep. <i>G. Gopalakrishnan, I.W. Seetho, G. Robinson, A. Mostyn, S. Pearce, J. Dandrea, V. Wilson, M.M. Ramsay, T. Stephenson & M.E. Symonds</i>	120A
Supplementing a maternal low protein diet with folic acid in the rat corrects the high blood pressure effect in the offspring. <i>R.L. Dunn, G. Burdge & A.A. Jackson</i>	120A
Maternal nutrient restriction between early- to mid-gestation has differential effects on hepatic class 1 cytokine receptor mRNA abundance in mid- and late-gestation ovine fetuses. <i>M. Hyatt, J. Bispham, J. Dandrea, D. Walker, T. Stephenson & M.E. Symonds</i>	121A
Fetal exposure to a maternal low-protein diet and the immune system. <i>S.C. Langley-Evans, P.J. Buttery & D. Wakelin</i>	121A
Assessment of biological variability in plasma metabolite and insulin concentrations after an overnight fast in humans. <i>B.A. Fielding, F. Karpe, V. Ilic, S.M. Coppack, V. Lawrence & K.N. Frayn</i>	122A
Effect of two methods of hypohydration on rehydration and exercise performance: a comparison with the euhydrated state. <i>D.T. Archer & S.M. Shirreffs</i>	122A

Does the dietary <i>n</i> -6 : <i>n</i> -3 polyunsaturated fatty acid ratio modulate the hypolipidaemic effects of fish oil supplementation in British Sikhs?	
<i>L.M. Brady, S. Lesauvage, S. Lovegrove, A.M. Minihane, C.M. Williams & J.A. Lovegrove</i>	123A
<i>n</i> -3 PUFA supplementation improves insulin sensitivity in a group of overweight women with an inflammatory phenotype.	
<i>L.M. Browning, J.D. Krebs, M.A. O'Connell, G.D. Mishra, & S.A. Jebb</i>	123A
Differences in intestinal glucose absorption, and insulin and GIP secretion in volunteers following consumption of isogenic onions differing in flavonoid contents.	
<i>K.L. Johnston, M.N. Clifford, E.W.G. Schylen, C. Kik, A.G. Bovy & L.M. Morgan</i>	124A
Influence of the structure of stearic acid rich triacylglycerols on postprandial chylomicron triacylglycerol composition and structure.	
<i>T.A.B. Sanders & S.E.E. Berry</i>	124A
Lack of association between measures of adiposity and fasting triacylglycerol levels in British Sikhs.	
<i>J.A. Lovegrove, S.V.M. Lesauvage, S.S. Lovegrove, B.A. Griffin, A.M. Minihane & C.M. Williams</i>	125A
Estimation of the mean intakes of fourteen classes of dietary phenolics in a population of young British women aged 20–30 years.	
<i>S.L. Gosnay, J.A. Bishop, S.A. New, J. Catterick & M.N. Clifford</i>	125A
Randomized controlled trial of stanol ester-fortified milk on plasma lipids.	
<i>T.A.B. Sanders, K. Gleason, N. Jones & H. Theobald</i>	126A
Changes in phospholipid profiles in response to dietary advice to consume a low-fat or Mediterranean-type diet.	
<i>E.K. Lund, M.A. Taylor, L. Rapoport, I.T. Johnson & J. Wardle</i>	126A
Effect of barley β -glucan on plasma cholesterol may depend on apolipoprotein E4 genotype – results from a pilot study.	
<i>G. Lietz, J.C. Mathers & C.J. Seal</i>	127A
Influence of dietary α -linolenic acid and fish-oil on markers of cardiovascular risk in subjects with an atherogenic lipoprotein phenotype.	
<i>B.A. Griffin, P.A. Wilkinson, C. Leach, N. Hosein, G. Miller & D.J. Millward</i>	127A
Relative rates of long chain conversion of ^{13}C α -linolenic acid in adult men fed high α -linolenic acid or high linoleic acid diets.	
<i>N.M. Hussein, P.A. Wilkinson, C. Leach, G.C. Burdge, S.A. Wootton, B.A. Griffin & J.D. Millward</i>	128A
The effect of short-term weight loss on the systemic acute markers of inflammation in the overweight Turkish male.	
<i>H.T. Besler</i>	128A
Gastrointestinal handling of vitamin A in cystic fibrosis patients.	
<i>P.R. Afolabi, A.L. Cawood, J.M. Jackson, J.L. Murphy, M. Carroll, G. Connett & S.A. Wootton</i>	129A
Diet in the first and third trimesters of pregnancy in relation to babies' weight, ponderal index and head circumference at birth.	
<i>S.C. Langley-Evans & A.J. Langley-Evans</i>	129A
Diet and pregnancy outcomes in vegetarian and non-vegetarian women.	
<i>S.C. Langley-Evans & A.J. Langley-Evans</i>	130A
Nutrient intake in early pregnancy.	
<i>B. Al-Rasasi, J. Coad & J. Morgan</i>	130A
Evidence of increased age-related renal injury in rats exposed to maternal low protein diets <i>in utero</i> .	
<i>M.C. Marchand, R. Dunn, A. Aihie Sayer, S.C. Langley-Evans & C. Cooper</i>	131A
Fetal ontogeny of mitochondrial abundance for cytochrome <i>c</i> and voltage-dependent anion channel (VDAC) in the kidney, liver and lung in the sheep.	
<i>D.P. Yakubu, I.W. Seetho, A. Mostyn, J. Dandrea, V. Wilson, M.E. Symonds & T. Stephenson</i>	131A

Comparison of adipose tissue deposition between singleton, twin and triplet lambs at one month of age.	
<i>S. Pearce, J. Dandrea, M.E. Symonds & T. Stephenson</i>	132A
Red cell folate status of nulliparous women in the first trimester of pregnancy.	
<i>Z.M. Brooke, G.A. Rees & W. Doyle</i>	132A
Thiamin status of nulliparous women in the first trimester of pregnancy and the relationship to birth outcomes.	
<i>G.A. Rees, Z.M. Brooke & W. Doyle</i>	133A
Effects of irregular meal pattern on energy expenditure.	
<i>H. Farshchi, M.A. Taylor & I.A. Macdonald</i>	133A
Birth and infant characteristics as indicators of atopy in childhood.	
<i>L.J. Carrington & S.C. Langley-Evans</i>	134A
Alpha-linolenic acid does not reproduce the effects of the very long chain <i>n</i> -3 polyunsaturated fatty acids on fasting blood lipids.	
<i>Y.E. Finnegan, A.M. Minihane, E.C. Leigh-Firbank & C.M. Williams</i>	134A
Lymphocytes exposed to oxidized LDL produce mediators which induce an inflammatory response in macrophages.	
<i>E. Nova, M.D. Mesa & P. Yaqoob</i>	135A
The second-meal effect for plasma lipids: observations following oesophago-gastro-duodenoscopy (OGD).	
<i>M.D. Robertson, M. Parkes, B.F. Warren, K.G. Jackson, D.P. Jewell & K.N. Frayn</i>	135A
Elevated blood cholesterol levels with different measures of body size.	
<i>E. Elliott, J.E. Cade, V.J. Burley & D.C. Greenwood</i>	136A
Influence of the apoC3 -2854T>G polymorphism on plasma lipid levels: effect of gender and age.	
<i>A.M. Minihane, Y.E. Finnegan, P. Talmud & C.M. Williams</i>	136A
Low selenium status is associated with the development of the pregnancy disease pre-eclampsia in UK women.	
<i>M.P. Rayman, P. Bode & C.W.G. Redman</i>	137A
Estimation of haem iron intake from a food frequency questionnaire.	
<i>B.A. Bratley, V.J. Burley, D.C. Greenwood, J. Barrett & J.E. Cade</i>	137A
Development of a new cut-off point to distinguish between high-fat and medium-fat consumers using the Dietary Instrument for Nutrition Education questionnaire.	
<i>S.L. Jackson, C. Golding, D.C. Greenwood, J.E. Cade & S.E. Hirst</i>	138A
Postnatal ontogeny of insulin-like growth factor (IGF)-II and the receptors for insulin-like growth factor-I and -II in ovine perirenal adipose tissue.	
<i>J. Bispham, L. Clarke, M.E. Symonds & T. Stephenson</i>	138A
Substrate metabolism in the hindlimb of fetal sheep during adverse intrauterine conditions and subsequent hypoxaemia.	
<i>D.S. Gardner, A.L. Fowden & D.A. Giussani</i>	139A
Changes in food intake in free-living adults after changing to different types of vegetarian diets.	
<i>R.L. Reid, A.F. Hackett & D. Billington</i>	139A
An evaluation of a community dental health education project to promote healthy eating.	
<i>A.F. Hackett, M. Gibbon & A.K. Mercer</i>	140A
Characteristics of women with high and low eating frequency: dietary analysis of the UK Women's Cohort Study.	
<i>V.J. Burley, D.C. Greenwood & J.E. Cade</i>	140A
Tracking of waist circumference and body mass index in young British children.	
<i>K.V. Jarrett, H.D. McCarthy, I. Rogers, P.M. Emmett & the Alspac Study Team</i>	141A
The relationship between the nutritional and psychological status of pregnant adolescents and non-adolescents in Brazil.	
<i>P.H.C. Rondó, M.R. Souza, F. Nogueira & M. Taga</i>	141A

Development of a dietary assessment tool for children (the PEARS project), for the Department of Health.	
<i>J.E. Cade, L. Frear, K. Lawson, D. Greenwood, J.D. Thomas, P. Sahota & M. Rudolf</i>	142A
The impact of social class on a healthy diet: analysis from the UK Women's Cohort Study.	
<i>Y. Bravo Vergel, D.C. Greenwood & J.E. Cade</i>	142A
Underlying structure to dietary information from food frequency questionnaires: example from the UK Women's Cohort Study.	
<i>D.C. Greenwood, V.J. Burley & J.E. Cade</i>	143A
What are the main sources of fat in supermarket shopping? An analysis of the contribution food groups make to fat purchased at supermarkets and foods eaten at home.	
<i>J.K. Ransley, J.K. Donnelly, H. Botham, T.N. Khara, H. Arnot, J.E. Cade & D.C. Greenwood</i>	143A
Differences in food intake of children within separate weight categories.	
<i>P. Sahota, J. Cade & M.C.J. Rudolf</i>	144A
Regulation of divalent metal transporter expression by non-haem iron in intestinal epithelial cells.	
<i>D.M. Johnson, K.J. Boxall, J.P. Tennant & P.A. Sharp</i>	144A
Mercury in fish is an important source of environmental exposure in Brazil.	
<i>J.A. Moreton & C.J. Doré</i>	145A
Effect of fructooligosaccharides, <i>Bifidobacterium longum</i> and <i>Lactobacillus acidophilus</i> on iron deficiency anaemia recovery in rats.	
<i>L.M. Ybarra, M.R. Silva, G. Dias, N.M.B. Costa & C.L.L.F. Ferreira</i>	145A
Dietary phylloquinone (vitamin K ₁) intake: comparison between adolescents living in Cambridge and a national British sample.	
<i>C.W. Thane, C.J. Prynne, F. Ginty, C. Bolton-Smith, S.J. Stear, S.C. Jones & A. Prentice</i>	146A
The effect of polyphenols on iron availability: a comparison of <i>in vitro</i> methods.	
<i>Y. Shishikura, P. Kajda and S. Khokhar</i>	146A
Ownership and use of domestic kitchen appliances related to cooking methods and macronutrient intake.	
<i>A. Efsthathiou</i>	147A
Isoflavones affect antioxidant status <i>in vitro</i> but not <i>in vivo</i> .	
<i>R.M.B. McLaughlin, J.V. Woodside, J. McEneny, M.J. Campbell, A.J.C. Leatham & I.S. Young</i>	147A
A comparison of the effect of soy isoflavonoids and fish oil on cell proliferation, apoptosis and expression of oestrogen receptor α and β in the mammary gland and colon of the rat.	
<i>F. Kramer, E.K. Lund, V. Breinholt & I.T. Johnson</i>	148A
Associations between dietary intake and bone mineral density in young British women.	
<i>D.J. Pattison, J. Catterick, R.T. Webb, J.A. Bishop, A.D. Woolf & S.A. New</i>	148A
Dietary intake and sources of phylloquinone (vitamin K ₁): regional differences in a national sample of British adults.	
<i>C.W. Thane & C. Bolton-Smith</i>	149A
A comparison of the estimated vitamin K ₁ intake in older people from Cambridge, UK and Shenyang, PR China.	
<i>L. Yan, A. O'Neill, B. Zhou, D.C. Greenberg, C.J. Prynne, C. Bolton-Smith & A. Prentice</i>	149A
An evaluation of a brief educational intervention to improve the management of obesity in primary care: the BiO Project.	
<i>H. Moore, D. Greenwood, J. Griffiths, M. Henderson, K. Hesketh, S. Woolgar & A. Adamson</i>	150A
Dietary intake in post-myocardial infarction patients: self perception in relation to total fat intake.	
<i>W.S. Leslie, D. Connelly, M.E.J. Lean & C.R. Hankey</i>	150A
The Mediterranean diet score: a useful means of evaluating and comparing differing dietary patterns?	
<i>C.R. Hankey, V. Dilis, J.A. Scott, W.S. Leslie & M.E.J. Lean</i>	151A

- Association of dietary variety with nutrient intake and body mass in women: results from the UK Women's Cohort Study.
J.E. Cade, V.J. Burley & D.C. Greenwood 151A
- Interaction between changes in physical access and other factors influencing consumption of fruits and vegetables in a food desert.
D.L. Warm, B.M. Margetts & N. Wrigley 152A

University of Aberdeen, Aberdeen, UK, 23–24 July 2002

- Objectively measured habitual physical activity and inactivity in a representative sample of 3–4-year-old children.
D.M. Jackson, J.J. Reilly, L.A. Kelly, C. Montgomery, S. Grant & J.Y. Paton 154A
- Systematic review of exercise and the long-term outcomes of the treatment for obesity.
T.J. Brown, A. Avenell, J. Broom, W.C.S. Smith, R. Jung, M.K. Campbell & A.M. Grant 154A
- Seasonal variation in energy metabolism and body composition in Dutch men and women.
G. Plasqui & K.R. Westerterp 155A
- Physical activity costs in obese and non-obese adolescents.
S. Lazer, M. Vermorel, A. Bitar, M. Meyer & Y. Boirie 155A
- Energy expenditure is better measured directly than by recall or diaries.
G.W. Horgan, Z. Fuller, L. O'Reilly & J. Stubbs 156A
- Lack of short-term energy compensation for imposed exercise in 9–10-year-old girls.
M.S. Moore, C.J. Dodd, J.R. Welsman & N. Armstrong 156A
- Does a community-based practical food skills intervention (CookWell) assist dietary change?
K. Valentine, P.J. Longbottom, W.L. Wrieden, A.S. Anderson & E. Dowler 157A
- The impact of a community-based practical food skills intervention (CookWell) on assisting dietary change: qualitative findings.
W.L. Wrieden, M. Stead, M. Caraher, P.J. Longbottom, K. Valentine & A.S. Anderson 157A
- A Yerba maté based supplement, MetRx BetaPHos, increases postprandial energy expenditure.
Y. Van Gasteren, L.V.D. Burgt, R. Raggars & C. Verduyn 158A
- The influence of moderate red wine consumption on antioxidant status and on indices of oxidative stress relevant to coronary heart disease in healthy volunteers.
C. Tsang, S. Higgins, G. Duthie, M.E.J. Lean & A. Crozier 158A
- Total body water = $7.4 \times \text{height cubed}$: a simple formula to aid quality control and economic tracer use in studies of body composition and total energy expenditure in children and adults.
C. Slater & T. Preston 159A
- Association between cognitive restraint and food intake in a sample of Portuguese university students.
P. Moreira, D. Sampaio & M.D.V. Almeida 159A
- Changes in total energy expenditure in a representative sample of young children: cross-sectional and longitudinal analysis.
C. Montgomery, L. Kelly, D.M. Jackson, J.J. Reilly, S. Grant & J.Y. Paton 160A
- Early regulation of hypothalamic arcuate nucleus CART gene expression by photoperiod in Siberian hamsters.
J.G. Mercer, C. Ellis, K.M. Moar, T.J. Logie, P.J. Morgan & C.L. Adam 160A
- The diuretic effect of moderate amounts of ethanol in hydrated and hypohydrated humans.
J.B. Leiper, J. Bremner, J. Burns, S.M. Shirreffs & R.J. Maughan 161A
- Association between macronutrient intake in adolescence, maternal background and dietary beliefs.
P.J. Longbottom, A.S. Anderson, A.C. Wilson, J.S. Forsyth & S.A. Greene 161A
- Estimated percentage body fat and other anthropometric measurements in patients with chronic fatigue syndrome.
C. Kelly & L. Wood 162A

Assessment of two bio-impedance analysers for measuring body fat composition: effects of biological variation. <i>M. Ghayour, G. Ferns & A. Taylor</i>	162A
Assessment of two types of dietary advice given by community dietitians in a clinical setting. <i>S. Drummond, T. Kirk, J. Jackson, J. Hendry, S. Panton & F. Gray</i>	163A
'Healthy Helpings': helping patients to control their weight. <i>L. Davidson, M.H. Reid & M.G. Awramenko</i>	163A
The evaluation of a hand-held computerised visual analogue scale rating system for appetite. <i>E. Crawford, J.R. Stephen, S. Whybrow & R.J. Stubbs</i>	164A
The effects of cage size and activity on mice selected long-term divergently on fatness. <i>L. Bünger & V. Cvejanovic</i>	164A
The effect of different types of exercise on urinary testosterone levels. <i>E.A.S. Al-Dujaili, M. Carboni & A. deLooy</i>	165A
Ovine model of obesity: evidence for seasonal and dose-dependent changes in hypothalamic sensitivity to leptin. <i>C.L. Adam, P.A. Findlay, M.A. Morrison, N. Raver & D.W. Miller</i>	165A
Effects of 7 days of detraining on serum leptin and hunger-satiety measures in endurance-trained men. <i>F. Tsofliou, D. Malkova, C. McAllister, Y.P. Pitsiladis, M. Wallace, M.E.J. Lean & J.M.R. Gill</i>	166A
Alterations in nutrient partitioning: a consequence of a high-energy (HE) diet. <i>Z.A. Archer, D.V. Rayner & J.G. Mercer</i>	166A
Insulin resistance and environmental risk factors in females with high and low risk of developing type-2 diabetes. <i>S. Higgins, J.M.R. Gill, R. Janilionyte, M.J. Caslake, C.J. Packard, M.E.J. Lean & D. Malkova</i>	167A
Metabolic response to short-term overfeeding. <i>A.M.C.P. Joosen, A.H.F. Bakker & K.R. Westerterp</i>	167A
Anti-obesity effect of <i>Dioscorea nipponica</i> Makino powder in rats. <i>C.-S. Kwon, S.-H. Kim, J.H. Kim, K.H. Son & J.-S. Kim</i>	168A
Weight gain in perimenopausal and early postmenopausal women: a result of decrease in physical activity level rather than change in dietary energy intake? <i>H.M. Macdonald, S.A. New & D.M. Reid</i>	168A
Health and lifestyle variables that predict body mass index and body fat distribution in a nationally representative sample of Irish adults. <i>S.N. McCarthy, P. Robson, A. Flynn & M.J. Gibney</i>	169A
Moderate and vigorous physical activity may benefit the metabolic syndrome cluster of cardiovascular risk factors. <i>K.L. Rennie, N. McCarthy, S. Yazdgerdi, J.N. Morris, M. Hillsdon, M. Marmot & E. Brunner</i>	169A
Physical activity and energy expenditure during army basic training. <i>M.P. Rayson, D.A. Wilkinson, E. Valk & A.M. Nevill</i>	170A

Publishing Director: David Nicholson

Special sales:

This journal accepts advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. Please contact David Nicholson at the Wallingford address for further details.

Subscription information:

The *Proceedings of the Nutrition Society* is an international journal published by CABI Publishing (a division of CAB International) on behalf of The Nutrition Society as six issues per year. Symposium papers are published in February, May, August and November; Original Communications are published in two separate issues, OCA and OCB.

Annual subscription rates:

Volume 61, 2002 (6 issues):
Internet/print package: £310.00/\$520.00 Americas only/
€495 EU only
Internet only: £285.00/\$480.00 Americas only/€455 EU
only
Print only: £295.00/\$495.00 Americas only/€470 EU only

Japanese Agent: Maruzen Company Ltd, PO Box 5050,
Tokyo International, 100-31, Japan.

Back volumes are available. Please contact CABI Publishing for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Despatch: deliveries outside the UK are by ASP Print-flow Aircarrier unless other arrangements are made. Customers requiring airmail delivery should indicate clearly their requirements and add an additional 10 % to the relevant subscription price.

US POSTMASTERS: please send address corrections to CABI Publishing at the Wallingford address.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutsoc.org.uk/publications/directions.htm> (an abbreviated Notes for Authors can be found inside the back cover).

Offprints: The authors (or main author) of an accepted paper will receive 50 free offprints of their paper and a voucher copy of the issue in which their paper has been published. Additional offprints are available for a fee and should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of July 2000 the copyright of all articles submitted to the *Proceedings of the Nutrition Society* is retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK.
