CNS SPECTRUMS

EDITOR-IN-CHIEF: **STEPHEN M. STAHL**

The journal of the
**Neuroscience
Education Institute**

**CAMBRIDGE
UNIVERSITY PRESS**

2016 NEI SYNAPSE—NEW!

March 4-6, 2016 | Hyatt on the Hudson, Jersey City, NJ
(across from lower Manhattan)

Don't miss this!

Learn about cutting-edge diagnostic strategies, the latest therapeutic approaches, and the integration of advanced neuroscience into clinical practice.

**LEARN MORE AT
NEI.GLOBAL/SYNAPSE**

Earn up to 15 CME credits!

Hear top neuroscience experts discuss how the latest advances in neurogenetics, imaging, and neuropharmacology can be applied to the clinical treatment of:

- Neurodevelopmental disorders
- Movement disorders
- Dementia
- Psychiatric symptoms of neurologic disorders
- Traumatic brain injuries
- And more!

2016 NEI Psychopharmacology Congress

November 3-6, 2016 | The Broadmoor, Colorado Springs, CO

Sign-up soon!

Registration will sell out.

Receive valuable education on differential diagnostic strategies, effective management options for resistant patients, and the new scientific evidence that is most likely to affect your clinical practice.

**LEARN MORE AT
NEI.GLOBAL/CONGRESS**

Earn up to 24 CME credits!

Our expert speakers will address advanced strategies for diagnosing and treating a range of mental illnesses, including:

- Anxiety disorders
- Bipolar disorder
- Complicated comorbidities
- Mixed depression
- Posttraumatic stress disorder
- Schizophrenia
- Substance Abuse
- Additional topics

CNS SPECTRUMS

CONTENTS

BRAINSTORMS

Mechanism of action of brexpiprazole: comparison with aripiprazole

Stephen M. Stahl 1

EDITORIAL

Kick-Off Editorial for 2016: Thanks to Our Reviewers

Stephen M. Stahl 7

Hypoactive Sexual Desire Disorder: Separating Fact from Fiction

Anita H. Clayton and Dennis H. Kim 9

REVIEW ARTICLE

Ameliorating treatment-refractory depression with intranasal ketamine: potential NMDA receptor actions in the pain circuitry representing mental anguish

Lewis A. Opler, Mark G. A. Opler and Amy F. T. Arnsten 12

ORIGINAL RESEARCH

The impact of periventricular white matter lesions in patients with bipolar disorder type I

Gianluca Serafini, Maurizio Pompili, Marco Innamorati, Nicoletta Girardi, Leonardo Strusi, Mario Amore, Leo Sher, Xenia Gonda, Zoltan Rihmer and Paolo Girardi 23

Dissociable brain correlates for depression, anxiety, dissociation, and somatization in depersonalization-derealization disorder

Erwin Lemche, Simon A. Surguladze, Michael J. Brammer, Mary L. Phillips, Mauricio Sierra, Anthony S. David, Steven C. R. Williams and Vincent P. Giampietro 35

Patient-centered assessment of cognitive symptoms of depression

Sheri E. Fehnel, Barbara H. Forsyth, Dana B. DiBenedetti, Natalya Danchenko, Clément François and Thomas Brevig 43

Relationship between olfactory function and social cognition in euthymic bipolar patients

Guillermo Lahera, Salvador Ruiz-Murugarren, Alberto Fernández-Liria, Jerónimo Saiz-Ruiz, Benjamin E. Buck and David L. Penn 53

Psychotropic prescribing in seriously violent men with schizophrenia or personality disorder in a UK high security hospital

Keir Stone-Brown, Mahmood Najji, Alex Francioni, Kyle Myers, Harsh Samarendra, Haseeb Mushtaq-Chaudhry, Stephen Heslop, Samrat Sengupta, Callum C. Ross, Fintan Larkin and Mrigendra Das 60

Separation anxiety disorder from the perspective of DSM-5: clinical investigation among subjects with panic disorder and associations with mood disorders spectrum

Camilla Gesi, Marianna Abelli, Alessandra Cardini, Lisa Lari, Luca Di Paolo, Derrick Silove and Stefano Pini 70

ABSTRACTS

2015 NEI Psychopharmacology Congress 77

Editor-in-Chief

Stephen M. Stahl, Adjunct Professor of Psychiatry at the University of California San Diego, USA;
Honorary Visiting Senior Fellow at the University of Cambridge, UK.

Field Editors

Joseph F. Goldberg, Icahn School of Medicine at Mount Sinai, USA
Thomas E. Schlaepfer, University Hospital Bonn, Germany
Frank I. Tarazi, Harvard Medical School, USA
Carlos A. Zarate, National Institute of Mental Health, USA

Deputy Editor

Thomas L. Schwartz, SUNY Upstate Medical University at Syracuse, USA

Editorial Board

Dennis S. Charney, Mount Sinai School of Medicine, USA
Maria Conceição do Rosario, University of São Paulo Medical School, Brazil
Jeffrey L. Cummings, Cleveland Clinic, USA
Thilo Deckersbach, Harvard Medical School, USA
Koen Demyttenaere, University Psychiatric Center KuLeuven, Belgium
Karen D. Ersche, University of Cambridge, UK
Robert L. Findling, The Johns Hopkins Hospital, USA
Patrick R. Finley, University of California, San Francisco, USA
Mark S. George, Medical University of South Carolina, USA
Ira D. Glick, Stanford University, USA
Joseph F. Goldberg, Icahn School of Medicine at Mount Sinai, USA
Eric Hollander, Albert Einstein College of Medicine and Montefiore Medical Center, USA
Daphne Holt, Harvard Medical School, USA
Peter B. Jones, University of Cambridge, UK
Andres M. Kanner, University of Miami, USA
Antony D. Loebel, New York University School of Medicine, USA
Donatella Marazziti, University of Pisa, Italy
Herbert Y. Meltzer, Northwestern University, USA
Philip Mitchell, University of New South Wales, Australia
Jun Nakamura, University of Occupational and Environmental Health, Japan
Humberto Nicolini, National Institutes of Health, Minister of Health, México
Andrew A. Nierenberg, Harvard Medical School, USA
Stefano Pallanti, University of Florence, Italy
Katharine A. Phillips, Brown University, USA
Diego A. Pizzagalli, Harvard Medical School, USA
Mark H. Pollack, Rush University Medical Center, USA
Mark H. Rapaport, Emory University, USA
Irismar Reis de Oliveira, Universidade Federal da Bahia, Brazil
Trevor W. Robbins, University of Cambridge, UK
Peter P. Roy-Byrne, University of Washington School of Medicine, USA
Barbara J. Sahakian, University of Cambridge, UK
Gerard Sanacora, Yale University School of Medicine, USA
Alan F. Schatzberg, Stanford University School of Medicine, USA
Thomas E. Schlaepfer, University of Bonn, Germany
Thomas L. Schwartz, SUNY Upstate Medical University in Syracuse, USA
Jordan W. Smoller, Harvard Medical School, USA
Dan J. Stein, University of Cape Town (UCT), South Africa
Stephen Strakowski, University of Cincinnati, USA
T. Scott Stroup, Columbia University, USA
Frank I. Tarazi, Harvard Medical School, USA
Michael E. Thase, University of Pennsylvania, USA
Michael Trimble, National Hospital for Neurology, Queen Square, London
Madhukar H. Trivedi, University of Texas Southwestern Medical Center, USA
Karen Dineen Wagner, The University of Texas Medical Branch, USA
Katherine D. Warburton, California Department of State Hospitals, USA
Stephen R. Wisniewski, University of Pittsburgh, USA
Shigeto Yamawaki, Hiroshima University, Japan
Carlos A. Zarate, Jr., National Institute of Mental Health, USA
Joseph Zohar, Tel Aviv University, Israel

Managing Editor

Lisa Arrington, Cambridge University Press (larrington@cambridge.org)

Cover Image: The image on the cover shows a hypothetical model whereby glutamate is released from an intracortical pyramidal neuron and binds to an NMDA receptor on a GABA-ergic interneuron. GABA is then released and binds to receptors on the axon of another glutamate pyramidal neuron. This inhibits the neuron, thus reducing the release of cortical glutamate. The GABA interneuron and its NMDA synapse from the first neuron to the second is the hypothetical site of glutamate dysfunction in schizophrenia.

Aims and Scope

CNS Spectrums aims to be the premiere journal covering all aspects of clinical neurosciences, neurotherapeutics and neuropsychopharmacology. From 2012 the journal will primarily focus on the publication of authoritative, cross-disciplinary review and opinion material publishing advances and controversial issues with pertinence to the clinician. In particular we aim to publish reviews and articles in translational neuroscience, biological psychiatry and neuropsychopharmacology that explain clinically relevant neuroscience discoveries in a way that makes these findings accessible and understandable to clinicians and clinical investigators. We will emphasize new therapeutics of all types in clinical neurosciences, mental health, psychiatry, and neurology, especially first in man studies and proof of concept studies. Our focus will be not just drugs, but novel psychotherapies and neurostimulation therapeutics as well. *CNS Spectrums* will in addition, continue to publish original research and commentaries that focus on emergent areas of research. Subject coverage shall span the full spectrum of neuropsychiatry focusing on translational issues and those crossing traditional boundaries between neurology and psychiatry.

Submitting Manuscripts to *CNS Spectrums*

All submissions to *CNS Spectrums* should be prepared in accordance with the instructions for authors and in the style of the Journal. Manuscripts should be submitted through the dedicated *CNS Spectrums* ScholarOne Manuscripts website: <http://mc.manuscriptcentral.com/cnsspectr>

CNS Spectrums will consider and encourage the following types of articles for publication: **Review Article**—Comprehensive article summarizing and synthesizing the literature on various topics presented in a scholarly and clinically relevant fashion; **Original Research**—Reports the results of a clinical study and contains original research; **Opinion**—Address a current topic of high interest, which has substantial evidence but has not yet been established; **Commentary**—An article that is written in reaction to previously published articles; usually encouraging a level of debate; the journal will also include **Brainstorms** and **Editorials** that shall be commissioned or written by the Editor-in-Chief.

Instructions for Contributors

The Instructions for Contributors are available on the Cambridge Journals Online web site at: <http://journals.cambridge.org/CNSifc>

Indexing

CNS Spectrums is indexed by *Index Medicus*/MEDLINE and Web of Science (Thomson Reuters) as well as appearing in the annual Journal Citation Report. Introduced in 1996, the journal was acquired in whole by Cambridge University Press in November of 2011.

Subscriptions

Institutional print and electronic: £544/\$862; Institutional electronic only: £413/\$660.
