Privacy

Concealing the Eighteenth-Century Self

Patricia Meyer Spacks

“Privacy at a glance means oneself at home. We traditionally defend privacy as enabling a personal coherence and an authenticity readily lost amid the multiple identities that we fabricate for the public realm. Patricia Spacks’s revelatory new book describes a privacy in which the self is at home but receives the world, so that its sincerity is more complex than the social sophistication in which it conceals itself. Elegantly and wittily, Spacks teases out of novels and diaries, and the writings of poets and pornographers, an account of privacy that will transform the current understanding of the self in society.”

Metaromanticism

Aesthetics, Literature, Theory

Paul Hamilton

“*Metaromanticism* offers a searching commentary on key Romantic thinkers to locate them historically and map out the relevance of Romantic thought for contemporary debates about aesthetics. Hamilton’s view of metaromanticism holds out the promise of an aesthetics that continually acknowledges the contribution of local politics to a heterological politics, and indicates the place of aesthetic activity in enabling society to have the capacity for accommodating mixed allegiances. This book is essential reading for anyone who thought that Romantic aesthetics had played out its political hand.”—Frances Ferguson, The Johns Hopkins University

Dido’s Daughters

Literacy, Gender, and Empire in Early Modern England and France

Margaret W. Ferguson

“This is a book of unique vision and breadth. There are very few scholars of the early modern period who possess the combination of traditional erudition and theoretical expertise that Margaret Ferguson does. The sweeping, learned analysis in *Dido’s Daughters* will provide an entirely new perspective on the complex dynamics among gender, literacy, and modernization.”

T. S. Eliot and the Cultural Divide

David E. Chinitz

“A major scholarly contribution to the study of T. S. Eliot, modern literature, and twentieth-century American and English culture. In delineating Eliot’s engagement with popular forms from his earliest poetry to his late plays, Chinitz provides an astonishing new narrative of Eliot’s life and career. It is quite amazing that biographers have overlooked so much of the love of popular culture that Chinitz shows to be at the heart of Eliot’s creative life.”

Blood Talk

American Race Melodrama and the Culture of the Occult

Susan Gillman

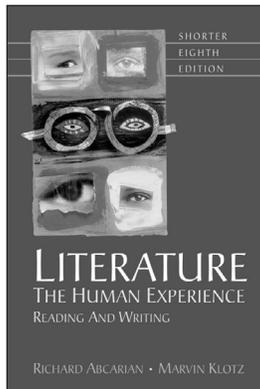

“If the reader has ever puzzled over an adequate generic name for the Du Boisian oeuvre—for example, in its mix of styles and motives—then ‘occult history,’ Susan Gillman’s term for it, may well resolve the matter. *Blood Talk* is a superbly unsettling book because it is sending the traffic in theories of race, nation, family, and the narratives of melodrama in a wholly different and radically new direction. There is little here that we know already, or more exactly, little in the way of the customary shape of our knowing and therefore much to learn.”

Speaking of Literature (CD)

bedfordstmartins.com/charters

Packed with a rich selection of stories, poems, and plays — and authors' comments about them — this introduction to literature emphasizes how writers discuss their work, actively inviting students into the conversation and engaging them in the many ways to read, think, and write about literature.

“I use author commentaries to raise issues of intention vs. other kinds of meaning, critical commentaries as springboards for arguments, and other kinds of commentaries to provide social, historical, and intellectual contexts. These are wonderfully useful!”

— Wes Chapman, *Illinois Wesleyan University*

“For both my students and me, this collection strikes a good balance between compactness and comprehension: reasonable size, but with plenty of choices. I also appreciate the balance between contemporary and historical texts, and the high percentage of women and minority writers.”

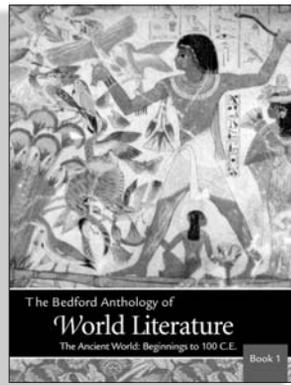

— Carolyn Siger, *University of Minnesota*

It's the first anthology to acknowledge the wide geographical and chronological range of material students are being asked to cover in the world literature course — and then do something about it.

- **Six paperback books** — available in two packages or as individual texts — correspond to the six periods most commonly taught. Each book features a striking two-color design that showcases the literature, highlights pedagogical features, and sets off the many maps and illustrations to best effect.
- **Superb collection of complete longer works, plays, prose, and poems** represents the best literature of all time available in English or English translations from around the globe. Unique “In the World” clusters emphasize social and historical contexts.
- **Practical and accessible editorial apparatus** helps students understand what they read and allows them to place literature in a larger context. Resources inside the anthology include Time and Place boxes, Bibliographies, Connections questions, and a Glossary of Literary and Historical Terms. An extensive Instructor's Manual and a rich Web site, World Literature Online, provide additional support.
