

JOURNAL of the AUSTRALIAN MATHEMATICAL SOCIETY

Series B — Applied Mathematics

Volume 40 Part 4
APRIL 1999

Splash formation at the nose of a smoothly curved body in a stream E. O. Tuck and S. T. Simakov	421
Wavelet multipliers and signals Z. He and M. W. Wong	437
Fully nonlinear flow over successive obstacles: hydraulic fall and super-critical flows Shaun R. Belward	447
On the square-root method for continuous-time algebraic Riccati equations Linzhang Lu and C. E. M. Pearce	459
Mahony's intriguing stiff equations Robert E. O'Malley, Jr.	469
On the numerical solution of the diffusion equation subject to the specification of mass A. B. Gumel	475
The inverse fractional matching problem Jianzhong Zhang, Zhenhong Liu and Zhongfan Ma	484
Observability-enhanced proportional navigation guidance with bearings-only measurements Mingyan Li and Cheng-Chew Lim	497
Second-order time discretization with finite-element method for partial integro-differential equations with a weakly singular kernel Chang Ho Kim and U Jin Choi	513
Synthesis of layered shells from a finite set of viscoelastic materials E. A. Bondarev, V. A. Budugaeva and E. L. Gusev	525
On some inequalities for entropies of discrete probability distributions Cvetan Jardas, Josip Pečarić, Rajko Roki and Nikola Sarapa	535
A nonmonotonic trust region method for constrained optimization problems Jianzhong Zhang and Detong Zhu	542
Models and algorithms for multiple criteria linear cost network programs X. Q. Yang and C. J. Goh	568

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Series B is published in volumes comprising four quarterly parts. Information about Series A and other publications of the Society may be found on the inside back cover.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are especially welcomed. All papers should include some indication of applicability, and an introduction that can be understood by non-specialist readers from the whole applied mathematical community.

Editor of the Journal, Series B

C. E. M. PEARCE, Applied Mathematics Department, University of Adelaide, Australia, 5005.

Associate Editors

A. P. BASSOM
Department of Mathematics
University of Exeter
North Park Road
Exeter, Devon EX4QE
United Kingdom

A. J. BRACKEN
Department of Mathematics

Assistant Editors

J. P. DENIER, A. GILL, E. PEARCE, Y. STOKES and J. A. K. STOTT, Applied Mathematics Department, The University of Adelaide, Australia, 5005.

Manuscripts (three copies) for publication should be sent to the editor or to an appropriate associate editor at the address given above. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere.

Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Irrespective of the number of authors, 50 free offprints of each copy are provided; additional offprints may be ordered at the expense of the authors.

Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.

Journal of the Australian Mathematical Society, Series B—Applied Mathematics (ISSN 0334-2700) is published quarterly for A\$240 (Members A\$34) per annum by the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia. Send address change notices to Dr A. Howe, Journal of the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia.
