*Bilingualism: Language and Cognition* is an international peer-reviewed journal focusing on bilingualism from a cognitive science perspective. The aims of the journal are to promote research on the bilingual person and to encourage debate in the field. The domains covered are the following: bilingual language competence, perception and production, bilingual language acquisition in children and adults, neurolinguistics of bilingualism (in normal and brain-damaged populations), and non-linguistic cognitive processes in bilinguals. *Bilingualism* carries articles and research notes on all aspects of the bilingual person, and is published three times a year.

## UK COGNITIVE LINGUISTICS ASSOCIATION

The central objectives of the UK-CLA are to develop and promote the multi-disciplinary field of Cognitive Linguistics within the UK, as well as contribute to the research- and event-based synergy currently growing across Europe, and to foster initiatives and exchanges at the wider international level. To this end, the Association organises a biennial UK-based conference in Cognitive Linguistics (see <http://www.uk-cla.org.uk> for details).

A key aspect of the work undertaken by the Association is cooperation with other Cognitive Linguistics Associations, under the auspices of the International Cognitive Linguistics Association. To find out more about the Association and get involved in its activities, please subscribe to the UK-CLA mailing list at <http://www.uk-cla.org.uk>.

The UK-CLA is affiliated to the International Cognitive Linguistics Association and the Linguistics Association of Great Britain.

Membership of the UK-CLA is achieved by subscribing to *Language and Cognition*. Details on how to subscribe to the journal can be found at the journal website <http://journals.cambridge.org/UKCLA>. Subscription is available in the following options: online only, or online plus print. Individual subscription includes automatic electronic access to all back issues.

In addition, the Association strongly supports contacts and cooperation between its members, the development of research projects, curricula and international graduate and doctoral programmes in Cognitive Linguistics, as well as the organisation of conferences, workshops, and other relevant events.
