VERIFY WITH CONFIDENCE

HEALTHMARK'S CLEARLY
VISIBLE, OBJECTIVE TESTS OF
CLEANING METHODS

SCREEN WITH THE **NOW! TEST**

Rapid Indicator of Gram-Negative bacteria

Simply flush the lumen or swab the elevator mechanism of a flexible endoscope, such as a duodenoscope, and follow the procedure for gram-negative bacteria detection in less than 12 hours.

AUDIT WITH THE **FLEXIBLE ENDOSCOPE SAMPLING KIT**

For testing of duodenoscopes in compliance with FDA guidelines

After flushing and brushing the lumen and elevator mechanism of a duodenoscope, simply follow the procedure to have the sample solution & brush heads quickly sent to Nelson Laboratories, the leader in independent testing of flexible endoscopes.

MONITOR WITH **PROFORMANCE™ CLEANING VERIFICATION TOOLS**

Perform weekly testing of all assets of the cleaning process

Challenge the cleaning efficacy of the ultrasonic bath with SonoCheck™, the automated washer with TOSI®, pulse-flow lumen washers with LumCheck™, endoscope washers with FlexiCheck™ and more!

CONTENTS

Commentary

- 913** Research agenda for transmission prevention within the Veterans Health Administration, 2024–2028
Matthew Smith, Chris Crnich, Curtis Donskey, Charlesnika T. Evans, Martin Evans, Michihiko Goto, Bernardino Guerrero, Kalpana Gupta, Anthony Harris, Natalie Hicks, Karim Khader, Stephen Kralovic, Linda McKinley, Michael Rubin, Nasia Safdar, Marin L. Schweizer, Suzanne Tovar, Geneva Wilson, Trina Zabarsky and Eli N. Perencevich
- 923** Research agenda for antibiotic stewardship within the Veterans' Health Administration, 2024–2028
Daniel J. Livorsi, Westyn Branch-Elliman, Dimitri Drekonja, Kelly L. Echevarria, Margaret A. Fitzpatrick, Matthew Bidwell Goetz, Christopher J. Graber, Makoto M. Jones, Allison A. Kelly, Karl Madaras-Kelly, Daniel J. Morgan, Vanessa W. Stevens, Katie Suda, Barbara W. Trautner, Michael J. Ward and Robin L.P. Jump

Review

- 930** Expanding the use of mathematical modeling in healthcare epidemiology and infection prevention and control
Rebecca Grant, Michael Rubin, Mohamed Abbas, Didier Pittet, Arjun Srinivasan, John A. Jernigan, Michael Bell, Matthew Samore, Stephan Harbarth, Rachel B. Slayton and behalf of the 2023 IPC Think Tank participants

Original Articles

- 936** Repeat tracheal aspirate cultures in pediatric intensive care patients: Frequency, resistance, and antimicrobial use
Edward Lyon, Jennifer Goldman, Brian Lee, Margaret Campbell, Rangaraj Selvarangan and Elizabeth Monsees
- 943** Impact of a tracheal aspirate culture diagnostic test stewardship intervention in a tertiary care PICU
Kathleen Chiotos, Giyoung Lee, Guy Sydney, Charlotte Woods-Hill, Heather Wolfe, Hannah R. Stinson, Joseph Piccione, Jennifer Blumenthal, Garrett Keim, Yun Li, Danielle Traynor, Aaditya Dudhia, Ashlee Doll, Rebecca Harris and Jeffrey Gerber
- 952** Comparative epidemiology of hospital-onset bloodstream infections (HOBSIs) and central line-associated bloodstream infections (CLABSIs) across a three-hospital health system
Jay Krishnan, Erin B. Gettler, Melissa Campbell, Ibukunoluwa C. Kalu, Jessica Seidelman, Becky Smith and Sarah Lewis
- 959** Disinfection of central venous access device needleless connectors: A human factors analysis
Frank A. Drews, Richard A. Martinello, Joan N. Hebden, Keith H. St. John and David A. Pegues
- 965** Use of whole genomic sequencing to detect New Delhi metallo- β -lactamase (NDM)-producing *Escherichia coli* outbreak associated with endoscopic procedures
Geehan Suleyman, Anita Shallal, Abigail Ruby, Eman Chami, Jenny Gubler, Sara McNamara, Arianna Miles-Jay, Robert Tibbetts and George Alangaden

- 973** Evidence of transmission of New Delhi metallo- β -lactamase-producing *Klebsiella pneumoniae* through a gastrointestinal endoscope without an elevator channel
Ann Fan Yang, Adrienne Sherman, Elizabeth Nazarian, Wolfgang Haas, Jason Mehr, Michele Pedrani, Thomas Kirn, Steven Brant, Susan E. Boruchoff, Keith S. Kaye and John P. Mills
- 979** A multi-center validation of the electronic health record admission source and discharge location fields against the clinical notes for identifying inpatients with long-term care facility exposure
Katherine E. Goodman, Monica Taneja, Laurence S. Magder, Eili Y. Klein, Mark Sutherland, Scott Sorongon, Pranita D. Tamma, Philip Resnik and Anthony D. Harris
- 985** Predictors of SARS-CoV-2 transmission in congregate living settings: a multicenter prospective study
Jerome A. Leis, Christina K. Chan, Charlie Tan, James Callahan, Victoria Serapion, Brigitte Pascual, Wayne Lee, Jaclyn O'Brien, Neethu R. Thomas, Heather Candon, Matthew Crittenden, Alex Kiss, Adrienne K Chan, Marianna Ofner and Jeff E. Powis

Concise Communications

- 991** Bacterial contamination of surgical gloves during clean orthopedic surgery
Jee Young Lee, Sang Hee Yun, Jae Won Kang and Gyu Min Kong
- 994** Surveillance of carbapenem-resistant *Klebsiella pneumoniae* and *Escherichia coli* in perianal swab samples
Gül Çalışkan, Hale Eren, Funda Aslan, Nergis Tezgeç, Habibe İmer, Esmâ Souleiman, Ülkü Tüzemen, Uğur Önal, Esra Kazak, Yasemin Heper, Emel Yılmaz, Cüneyt Özakin and Halis Akalın
- 998** An evaluation of outcomes and hospital readmissions among individuals with candidemia using statewide surveillance
Elizabeth Suschana, Maria A. Correa, James Meek and David B. Banach
- 1003** Healthcare personnel with laboratory-confirmed mpox in California during the 2022 outbreak
Allison E. Bailey, Shua J. Chai, Robert E. Snyder, David P. Bui, Linda S. Lewis, Kayla Saadeh, J. Bradford Bertumen, Erin Epton and Jane D. Siegel
- 1006** Separating the rash from the chaff: novel clinical decision support deployed during the mpox outbreak
Jacob E. Lazarus, Chloe V. Green, Michelle S. Jerry, Lindsay Germaine, Dustin S. McEvoy, Caitlin M. Dugdale, Kristen M. Hysell, Rebecca L. Craig, Molly L. Paras, Howard M. Heller, Kevin L. Ard, John S. Albin, Hang Lee and Erica S. Shenoy
- 1009** Population and hospital-level COVID-19 measures are associated with increased risk of hospital-onset COVID-19
Emily Schmitz, Laura Anderson, Gabrielle Hatas, Linda Stevens, Fauzia Osman, Marin Schweizer, Nasia Safdar and Daniel Shirley
- 1012** Control of SARS-CoV-2 infection in skilled nursing facilities in Detroit, Michigan: a model for emerging infectious diseases
Seema Joshi, Samia Arshad, Abigail Lindsay, Jessica Heinonen, Helina Misikir, John Zervos, Tyler Prentiss, Jelena Verkler, Mariia Numi, Bonnie Czander, Randy E. David, Michael Mossing, Paul E. Kilgore, Najibah Rehman and Marcus Zervos

Research Briefs

- 1015** Preventing unnecessary urine cultures at a Veteran's affairs healthcare system
Chad D. Nix, William B. Messer, Amy Boda, Kimberly T. MacKay, Jennifer Holmquist, La'Tonzia L. Adams, Eric Gladwin and Christopher D. Pfeiffer
- 1017** Testing residual chloramine levels in tap water across sink locations in a US academic hospital setting
Katie Gravagna, Sharon C. Thompson, Emily Sickbert-Bennett and David J. Weber for the CDC Prevention Epicenters Program

Letters to the Editors

- 1019** Clinical laboratory equipment manufacturers' lack of guidance for high consequence pathogen response is a critical weakness
Aurora B. Le, Claire E. Figi, Jocelyn J. Herstein, Peter C. Iwen, Sean A. Buehler, John J. Lowe and Shawn G. Gibbs
- 1021** Nail polish used by healthcare personnel does not increase the rate of healthcare-associated infections
Goran Augustin and Katarina Augustin
- 1022** Letter in reply to: Nail polish used by healthcare personnel does not increase the rate of healthcare-associated infections
Janet B. Glowicz, Emily Landon and Katherine D. Ellingson

Subscriptions

The individual subscription prices for 2024 are: Print & Online: \$353; Online Only: \$284. Individuals have the option to order directly from Cambridge University Press. Institutional print + electronic and e-only subscriptions are available from Cambridge University Press and include unlimited online access; rates are tiered according to an institution's type and research output and may be reviewed at the journal's homepage on Cambridge Core: cambridge.org/ICHE.

Please direct subscription inquiries and requests for back issues to Customer Services at Cambridge University Press, e-mail: subscriptions_newyork@cambridge.org (USA, Canada, and Mexico) or journals@cambridge.org (outside of USA, Canada, and Mexico).

Postmaster: Send address changes to *Infection Control & Hospital Epidemiology*, Cambridge University Press, One Liberty Plaza, New York, NY 10006 USA.

About the cover:

Title: *In Our Hands*, 2023

Beginning with volume 43 (January 2022), the cover of *Infection Control & Hospital Epidemiology* (ICHE) will feature art inspired by or reflective of topics within the scope of the journal and their impact on patients, healthcare personnel and our society. These topics include healthcare-associated infections, antimicrobial resistance, and healthcare epidemiology. The intent is to feature original artwork that has been created by individuals who have a personal connection to one or more of these topics through their clinical work, research, or experience as a patient or an affected patient's family member, friend or advocate. The goal is to provide readers with a visual reminder of the human impact of the topics addressed in the journal and the importance of the work being done by those who read or contribute to ICHE and by all who are trying to make healthcare safer through the elimination of healthcare-associated infections.

For more information about the ICHE cover and how to submit artwork for consideration for a future cover, please visit the ICHE website: <https://www.cambridge.org/core/journals/infection-control-and-hospital-epidemiology/front-covers>

Artist: Michael Calderwood, MD, MPH

Medium: Acrylic paints on canvas

Dr. Calderwood spoke to ICHE about his artwork.

What was the inspiration for this artwork? Over the years, there have been many campaigns to improve hand hygiene in health care facilities (e.g., “Clean Hands Save Lives,” “My Health is in Your Hands,” “Speak up for Clean Hands”). During the past few years, though, the concept of the hand has taken on other meanings, as those in the healthcare community have lent a hand across a myriad of settings, have held the hand of patients, family, friends, and fellow healthcare workers who were suffering, and have stood hand-in-hand in facing the unknown, overcoming obstacles, and navigating the path forward. A hand held in an upward position, as shown in the painting, is also a means of saying “stop” or more specifically “prevent” as written on the palm. Whether it be in areas of HAI prevention, antimicrobial stewardship, outbreak investigation, diagnostic stewardship, or one of the many other topics covered within the pages of ICHE, the idea of prevention is one where safe and effective patient care is front and center in everything that we do. We are strongest when we work together toward a better future, recognizing that we each have something to teach, and we each have something to learn. As for the colors chosen in my art, many of our infection prevention strategies are targeted at infections involving blood, urine, wounds, stool, and water. You will see these each depicted, melding into a singular patina reminding us once again to wash our hands, as clean hands really do save lives.

What is your personnel connection to the content of ICHE? I am an active member of the Society for Healthcare Epidemiology of America (SHEA), having served on multiple committees, including the Publications Committee. I am both an author and a reviewer for ICHE. Recently, I was lead author on the 2022 update of the surgical site infection prevention section of the Compendium of Strategies to Prevent Healthcare-Associated Infections in Acute Care Hospitals. I have served in leadership roles in hospital epidemiology and antimicrobial stewardship, and I currently oversee both disciplines in my role as Chief Quality Officer at Dartmouth Hitchcock Medical Center.

Dr. Calderwood is the Chief Quality Officer for Dartmouth Hitchcock Medical Center in Lebanon, New Hampshire, USA. He is an Associate Professor of Medicine at the Geisel School of Medicine at Dartmouth and a staff physician in Infectious Disease & International Health.

Cover image: *In Our Hands*, 2023

Faculty Position:

Attending Infectious Diseases Physician & Medical Director of Infection Control

Massachusetts General Hospital, Department of Medicine, Division of Infectious Diseases
Mass General Brigham, Massachusetts General Hospital, Infection Control

The Massachusetts General Hospital (MGH) Division of Infectious Diseases, Harvard Medical School, and Mass General Brigham (MGB) Infection Control are seeking clinical faculty member/s interested in a career as an academic clinician and infection prevention and control. The position is for an Attending Infectious Diseases (ID) physician (0.5 FTE) and Site Medical Director for MGH Infection Control (IC) (0.5 FTE).

Applications are accepted through Taleo, where a detailed job description is available

https://partners.taleo.net/careersection/ex/jobdetail.ftl?job=3305894&tz=GMT-04%3A00&tzname=America%2FNew_York.

The deadline for applications is November 15, 2024, and will be accepted on a rolling basis. Questions can be addressed to Alyssa Bradford (abradford4@mgb.org).

We are an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
