Editor

Nicholas V. C. Polunin, University of Newcastle, UK

Environmental Conservation is one of the longest-standing, most highly-cited of the interdisciplinary environmental science journals. It includes research papers, reports, comments, subject reviews, and book reviews addressing environmental policy, practice, and natural and social science of environmental concern at the global level, informed by rigorous local level case studies. The journal's scope is very broad, including issues in human institutions, ecosystem change, resource utilisation, terrestrial biomes, aquatic systems, and coastal and land use management. Selected papers are made freely available online as part of *EC Perspectives*.

Editors

David W. H. Walton, British Antarctic Survey, Cambridge, UK
Alan P. M. Vaughan, British Antarctic Survey, Cambridge, UK
Christina L. Hulbe, Portland State University, USA

Antarctic Science provides a truly international forum for the broad spread of studies that increasingly characterize scientific research in the Antarctic. These, together with an Editorial discussing broader aspects of science, provide a rich mixture of items to interest researchers in all areas of science.

THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

TERMS OF MEMBERSHIP FOR 2010

Annual members, receiving the Journal – online only, per annum	£55.00*
Annual members, receiving the Journal – print only, per annum	£95.00*
Annual members, receiving the Journal – print and online, per annum	£115.00*
Annual members, without the Journal, per annum	£35.00*
Corporate members, receiving the Journal – print only, per annum	£400.00
Corporate members, receiving the Journal – print and online, per annum	£425.00
Student members, with the Journal – online only, per annum (non-voting)	£30.00
Student members, with the Journal – print only, per annum (non-voting)	£45.00
Student members, without the Journal, per annum (non-voting)	£20.00

The Association is a registered charity and was founded in 1884 to promote accurate researches leading to the advancement of zoological and botanical science and to increase our knowledge of the food, life, conditions and habits of British fish. The work of the Association is controlled by the Council elected annually by its subscribing members.

The Marine Biological Association, under the direction of its Council, has undertaken research in all branches of marine science and many of the results have been published in this Journal. An account of the history of the first hundred years of the Association and Journal may be found in Volume 67 (pp. 463 and 465). Summaries of the activities and research of the Association are given annually in the Report of the Council, sent to members in April, and to other subscribers with a later issue of the *JMBA*.

Since its foundation the Association has been supported by grants from Research Councils and by subscriptions and donations from private members, universities, learned societies, the Fishmongers' Company and other public bodies.

The Plymouth Laboratory was opened in June 1888 and, since that date, considerable additions have been made to the buildings, including a library, resource centre, extensive laboratory accommodation and seawater facilities.

In 1988 an agreement was reached between the MBA Council and the Natural Environment Research Council (NERC) to merge a large part of the Plymouth Laboratory with the NERC's Institute for Marine Science which had been in Plymouth since 1971. This new institute was called the Plymouth Marine Laboratory (PML) based at both Citadel Hill and West Hoe sites. In 2001 the MBA and PML re-established separate identities funded by Grants-in-aid from NERC. The Association and the research programme are based entirely at the Citadel Hill Laboratory. The building is shared with SAHFOS (Sir Alister Hardy Foundation for Ocean Science). The research organizations are part of the Plymouth Partnership

which includes PML, the University of Plymouth and the NMA (National Marine Aquarium). Active collaboration and shared resources mutually enhance the marine research programmes of the participants.

The Marine Biological Association retains the lease of the building on Citadel Hill and continues as a very active scientific learned society with a large international membership. The MBA manages a research programme carried out by research fellows (partly funded by NERC) together with scientific visitors, publishes an International Journal, Annual Report, Newsletters and organizes scientific meetings.

Subscriptions can be paid by cash/cheque, direct debit from a UK bank account or credit card. *Subscriptions are reduced by £5 per annum if paying by direct debit.

Members of the Association have the following rights and privileges: they elect the Officers and Council annually; they are entitled to receive the Journal of the Association at the members' rate; they receive the biannual Newsletter; they have the option to apply to the Director for research facilities at the laboratory; and they have access to the resources in the library at Plymouth during working hours. Corporate members have significant additional rights and privileges, details of which can be supplied on request. Student members do not have voting rights. The Commissioners of Inland Revenue have approved the Association for the purposes of Section 16, Finance Act, 1958, and that the whole of the annual subscriptions paid by a member who qualifies for relief under the section will be allowable as a deduction from his emoluments assessable to income tax.

All correspondence should be addressed to: The Membership Secretary, Marine Biological Association, The Laboratory, Citadel Hill, Plymouth, PL1 2PB, UK (Tel: +44 (0) 1752 633207; Fax: +44 (0) 1752 633102; e-mail: membership@mba.ac.uk).

CONTENTS

POPULATIONS, ASSEMBLAGES AND COMMUNITIES

BUENO, M. & FLORES, A.A.V. Tidal-amplitude rhythms of larval release: variable departure from presumed optimal timing among populations of the mottled shore crab	859
BESSA, F., BAETA, A., MARTINHO, F., MARQUES, S. & PARDAL, M.A. Seasonal and temporal variations in population dynamics of <i>Carcinus maenas</i> (L.): the effect of an extreme drought event in a southern European estuary	867
GARRAFFONI, A.R.S., YOKOYAMA, L.Q. & AMARAL, A.C.Z. Allometry and population structure of <i>Nicolea uspiana</i> (Polychaeta: Terebellidae)	877
COPPA, S., GUALA, I., DE LUCIA, G.A., MASSARO, G. & BRESSAN, M. Density and distribution patterns of the endangered species <i>Pinna nobilis</i> within a <i>Posidonia oceanica</i> meadow in the Gulf of Oristano (Italy)	885
KAZANIDIS, G., ANTONIADOU, C., LOLAS, A.P., NEOFITOU, N., VAFIDIS, D., CHINTIROGLOU, C. & NEOFITOU, C. Population dynamics and reproduction of <i>Holothuria tubulosa</i> (Holothuroidea: Echinodermata) in the Aegean Sea	895
YEUNG, C., YANG M.-S., & MCCONNAUGHEY, R.A. Polychaete assemblages in the south-eastern Bering Sea: linkage with groundfish distribution and diet	903
LASAGNA, R., ALBERTELLI, G., MORRI, C. & BIANCHI, C.N. <i>Acropora</i> abundance and size in the Maldives six years after the 1998 mass mortality: patterns across reef typologies and depths	919
SHEN, P.P., ZHOU, H. & GU, J.D. Patterns of polychaete communities in relation to environmental perturbations in a subtropical wetland of Hong Kong	923
ARRIGHETTI, F. & PENCHASZADEH, P.E. Macrobenthos–sediment relationships in a sandy bottom community off Mar del Plata, Argentina	933
SATHEESH, S. & WESLEY, S.G. Influence of substratum colour on the recruitment of macrofouling communities	941

COMMENSALS AND PARASITES

KINOSHITA, K., ITANI, G. & UCHINO, T. Burrow morphology and associated animals of the mud shrimp <i>Upogebia yokoyai</i> (Crustacea: Thalassinidea: Upogebiiidae)	947
SUÁREZ-MORALES, E., SCARDUA, M.P. & DA SILVA, P.M. Occurrence and histopathological effects of <i>Monstrilla</i> sp. (Copepoda: Monstrilloida) and other parasites in the brown mussel <i>Perna perna</i> from Brazil	953

DIET, FEEDING AND REPRODUCTION

BIGATTI, G., SACRISTÁN, H., RODRÍGUEZ, M.C., STORTZ, C.A. & PENCHASZADEH, P.E. Diet, prey narcotization and biochemical composition of salivary gland secretions of the volutid snail <i>Odontocymbiola magellanica</i>	959
SAMPSON, L., GALVÁN-MAGAÑA, F., DE SILVA-DÁVILA, R., AGUIÑIGA-GARCÍA, S. & O'SULLIVAN, J.B. Diet and trophic position of the devil rays <i>Mobula thurstoni</i> and <i>Mobula japanica</i> as inferred from stable isotope analysis	969
MARKAIDA, U. & SOSA-NISHIZAKI, O. Food and feeding habits of the blue shark <i>Prionace glauca</i> caught off Ensenada, Baja California, Mexico, with a review on its feeding	977
TEIXEIRA, C.M. & CABRAL, H.N. Comparative analysis of the diet, growth and reproduction of the soles, <i>Solea solea</i> and <i>Solea senegalensis</i> , occurring in sympatry along the Portuguese coast	995
CARRIÓN-CORTEZ, J.A., ZÁRATE, P. & SEMINOFF, J.A. Feeding ecology of the green sea turtle (<i>Chelonia mydas</i>) in the Galapagos Islands	1005
HENDERSON, A.C. & ARKHIPKIN, A.I. Maturity index validation in the white-spotted skate <i>Bathyraja albomaculata</i> , from the Falkland Islands	1015

PHYSIOLOGY AND BEHAVIOUR

BROWN, A., HEILMAYER, O. & THATJE, S. Metabolic rate and growth in the temperate bivalve <i>Mercenaria mercenaria</i> at a biogeographic limit, from the English Channel	1019
JORDAN, L., MCHINN, A. & THOMPSON, P. Diurnal changes of photoadaptive pigments in microphytobenthos	1025
LEENEY, R.H., BRODERICK, A.C., MILLS, C., SAYER, S., WITT, M.J. & GODLEY, B.J. Abundance, distribution and haul-out behaviour of grey seals (<i>Halichoerus grypus</i>) in Cornwall and the Isles of Scilly, UK	1033

TAXONOMY

RAMOS, J., SAN MARTÍN, G. & SIKORSKI, A. Syllidae (Polychaeta) from the Arctic and sub-Arctic regions	1041
LÓPEZ, E. First record of the Levantine species <i>Scoloplos haasi</i> (Orbiniidae: Scolecida: Annelida) from the Mediterranean coast of Spain	1051
LÖRZ, A.N., KILGALLEN, N.M. & THIEL, M. Algal-dwelling Eophliantidae (Amphipoda): description of a new species and key to the world species, with notes on their biogeography	1055
HIROSE, M., TOCHIKUBO, T. & HIROSE, E. Taxonomic significance of tunic spicules in photosymbiotic ascidians: a quantitative and molecular evaluation	1065
