The JOURNAL is the official organ of the Association for Symbolic Logic, an international organization for furthering research in symbolic logic and exchange of ideas among mathematicians, philosophers, and others interested in this field.

Individual membership in the Association is open to anyone interested in its work. Annual dues for members are $40, or $20 for students. Dues include subscription to the current volume of the JOURNAL. For their personal use, members may purchase back volumes at a discount. Persons wishing to subscribe to the JOURNAL for their individual use without becoming Association members should write to the Secretary-Treasurer.

Institutional membership in the Association is available to any academic institution or department. Annual institutional dues are $300 for 1991 and $325 for 1992.
