# JFM ARCHIVE

Journal of  
Fluid Mechanics  
Digital Archive  
1956–1996

*Vital research from  
the definitive source*

The JFM Digital Archive contains every article from the first 40 years of the journal, scanned and digitised to the highest standards.

Please speak to your librarian about gaining access.

# Proceedings of the Edinburgh Mathematical Society

Published for The Edinburgh Mathematical Society

## Editorial Management

The Secretary, *ICMS, Edinburgh, UK*

The Edinburgh Mathematical Society was founded in 1883 and over the years, has evolved into the principal society for the promotion of mathematics research in Scotland. The Society has published its Proceedings since 1884. This journal contains research papers on topics in a broad range of pure and applied mathematics, together with a number of topical book reviews.

# Glasgow Mathematical Journal

Published for The Glasgow Mathematical Journal Trust

## Editor-in-Chief

I. A. B. Strachan, *University of Glasgow, UK*

Glasgow Mathematical Journal publishes original research papers in any branch of pure and applied mathematics. An international journal, its policy is to feature a wide variety of research areas, which in recent issues have included ring theory, group theory, functional analysis, combinatorics, differential equations, differential geometry, number theory, algebraic topology, and the application of such methods in applied mathematics.

# The European Physical Journal - Applied Physics

Marketed and distributed on behalf of ÉDP Sciences

## Editor-in-Chief

B. Drévillon, LPCIM, France

*EPJ-AP* is an international journal devoted to the promotion of the recent progresses in all fields of applied physics. The articles published in *EPJ-AP* span the whole spectrum of applied physics research including semiconductors, organic materials, thin films, nanotechnology, photonics, spintronics, magnetism, plasma, energy generation transfer, metrology, fluids and microfluidics, biophysics and biosensors, surfaces and interfaces.
