

# Parasitology

Editors: **F. E. G. Cox**, Professor of Parasite Immunology, King's College, London; **C. Arme**, Professor of Zoology, University of Keele

**Parasitology** is an important journal covering the complete spectrum of parasitology. It is the first established specialist journal in this subject, and publishes its **100th** volume in 1990. Definitive papers on all aspects of pure and applied parasitology are published.

**Coverage includes:**

- molecular biology
- immunology
- genetics
- physiology
- ecology
- application of new techniques
- epidemiological studies
- advances in the understanding of life cycles
- chemotherapy

**Extra Issues**

Each year the proceedings of the symposia of the *British Society for Parasitology* are published as an extra issue and included in the subscription price. In 1990 the symposium is on 'The Evolutionary Biology of Parasitism'.

**Subscriptions 1990, Volumes 100 and 101:** February, March, June, August, October and December, plus symposium issue: £139 for UK subscribers; £149 for subscribers elsewhere; airmail £37 per year extra  
ISSN 0031-1820
