The Correspondence of Charles Darwin

Volume 8: 1860

EDITED by FREDERICK BURKHARDT,
DUNCAN M. PORTER, JANET BROWNE and
MARSHA RICHMOND

This volume is dominated by the response to the publication of Darwin's *Origin of Species*. It includes much previously unpublished correspondence, revealing how the Victorians coped with a theory that would revolutionise thinking about the organic world and human ancestry.

The Golem

What Everyone Should Know About Science

HARRY M. COLLINS and TREVOR PINCH

What *really* is science? Using intriguing case studies, ranging from cold fusion to the sex lives of lizards, this book debunks the old view that science is the result of straightforward theorization, observation, and experimentation. Instead it likens science to the Golem, a creature from Jewish mythology, neither good nor bad, powerful yet potentially dangerous.

Cognitive Foundations of Natural History

Towards an Anthropology of Science

SCOTT ATRAN

What is it about human nature that makes our species capable of thinking scientifically?

'... only Atran could have written this book, because only Atran combines the deep understanding of anthropology, biological systematics, history of science, and philosophy to write it.'

Predicting the Future

Edited by LEO HOWE and ALAN WAIN

Written by an outstanding team of authors including Stephen Hawking, Don Cupitt and Ian Stewart, *Predicting the Future* is a fascinating exploration of man's attempts to look ahead throughout history.

Covering a wide range of topics – from visionary theories of the last judgment and the future of the universe to vitally important methods of forecasting in medicine and economics – this book is packed with original and thought-provoking insights into the history of ideas, religion and scientific interpretation.

Membership of the Society, which normally includes a subscription to *The British Journal for the History of Science*, is open to all persons approved by the Council of the Society and elected at an ordinary meeting. The annual subscription for the membership year 1993 is £22.00 (\$45.00) or £11.00 (\$25.00) for associate membership, which includes students at centres of higher education. There is an Introductory Offer for ordinary members who pay £17.00 (\$35.00) for the first year. Applications for membership should be made on a form which is available from the Society's Executive Secretary at the address below. Other sterling rates may apply to overseas members.

Meetings: The Society mounts an ambitious programme of meetings. The pattern is flexible, but includes a three-day summer meeting, usually held at a different British University or Polytechnic each year. About four other meetings, lasting for between one and three days, are held during the year, sometimes devoted to a clearly defined theme or an important anniversary, and often arranged in conjunction with other scholarly societies.

The British Journal for the History of Science is the official organ of the Society. All correspondence on the contents of the *Journal* should be addressed to the Editor, Professor J. H. Brooke, Department of History, University of Lancaster, Lancaster LA1 4YG, England. Books for review should be sent to the Reviews Editor, Dr John Henry, Science Studies Unit, University of Edinburgh, 21 Buccleuch Place, Edinburgh EH8 9LN.

Advertising: Contact the Journals Advertising Manager, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU.

Other publications: BSHS Monograph Series is designed to allow the publication of monographic studies in the history of science quickly and cheaply. All correspondence on the subject of monographs, and any new suggestions for titles, should be sent to the Series Editor, Dr P. Weindling, Wellcome Unit for the History of Medicine, 45-47 Banbury Road, Oxford OX2 6PE, England. Monographs are available to members at a special price, post-free from the Society's Executive Secretary. Non-members may obtain them through bookshops, or post-free from the Executive Secretary. Titles are as follows:

2. *The Letters of Georges Cuvier: A Summary Calendar*. Ed. by Dorinda Outram. 1980. £4.50/\$10.00 (£3.50/\$8.00 to members).
3. *Rationality and Ritual: The Windscale Inquiry and Nuclear Decisions in Britain*. By Brian Wynne. 1982. £7.00/\$15.00 (£5.00/\$11.00 to members).
4. *The Royal Society and Its Fellows 1660-1700: The Morphology of an Early Scientific Institution*. By Michael Hunter. Reprint with additional material (expected mid 1993).
5. *Francis Bacon's Natural Philosophy: A New Source. A Transcription of Manuscript Hardwick 72A with Translation and Commentary*. By Graham Rees, assisted by Christopher Upton. 1984. £7.90/\$17.00 (£5.60/\$12.00 to members).
6. *Archives of the British Chemical Industry, 1750-1914: A Handlist*. By Peter J. T. Morris and Colin A. Russell. Contributing editor John Graham Smith. 1988. £14.50/\$31.00 (£9.00/\$19.00 to members).
7. *Index to the Scientific Correspondence of John William Dawson*. By Susan Sheets-Pyenson. 1992. £20.00/\$44.00 (£12.00/\$26.00 to members).

Each year, the Society publishes a *List of Theses in History of Science* in British universities. This is available free to members, and at £3.00 (\$6.00) to non-members on request to the Executive Secretary. Standing orders are accepted from members or non-members who wish to receive the list regularly.

The Society's *Newsletter*, an informal publication edited by Dr Frank A. J. L. James, RICHST, The Royal Institution, 21 Albemarle Street, London W1X 4BS, appears in January, May and September each year. It is free to members, £6.00 (\$12.00) for institutions and non-members. The Society's Education Section also has a regular *Newsletter*, *Education Forum*, edited by Peter Ellis, 12 Belvedere Street, Ryde, Isle of Wight, PO33 2JW.

Administrative business of the Society is handled by The Executive Secretary, Wing-Commander G. Bennett, 31 High Street, Stanford in the Vale, Faringdon, Oxfordshire SN7 8LH. The Society is registered in England as a Limited Company (No. 562208) and is a Registered Charity (No. 258854).
