

# JOURNAL OF K-THEORY

## Instructions for Contributors

### Submission of Manuscripts

Authors planning to submit papers are asked to prepare, if possible, their manuscript using LaTeX or AMS-LaTeX. Manuscripts should be submitted as a PDF attachment to an e-mail sent to any editor, or to the Managing Editor, Professor A. Bak (bak@math.uni-bielefeld.de). If your article is accepted, you will be asked to supply the LaTeX source code including the graphics, any author defined macros and all style files.

### Layout of Manuscripts

Manuscripts should have a short abstract, followed by an introduction which includes references to important related work found elsewhere. The remainder of the paper should be divided into sections, each having a title. Accepted papers should have key words and Mathematics Subject Classification (2010) codes placed immediately after the abstract.

Manuscripts may be prepared in English, French, or German. English is the preferred language.

### Proofs

The corresponding author receives one set of proofs for correction. If excessive alterations to the original manuscript are requested after the paper has been typeset, the authors will be charged for the cost of resetting.

### Online Posting Rights

Authors will receive a definitive PDF file of their contribution as published at Cambridge Journals Online. They may post it on their personal or departmental web page, provided that the posting includes a prominent statement of the full biographical details, a copyright notice in the name of the copyright holder, Independent Scholarly Online & Print Publishing (ISOPP), and a link to the online edition of the journal at Cambridge Journals Online.

Paper from  
responsible sources  
**FSC® C007785**

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information

# Journal of K-Theory

Volume 8 Issue 3

## Contents

---

- The analytic index of elliptic pseudodifferential operators on a singular foliation** 363  
*Iakovos Androulidakis and Georges Skandalis*
- An index theorem of Callias type for pseudodifferential operators** 387  
*Chris Kottke*
- Cohomological obstruction theory for Brauer classes and the period-index problem** 419  
*Benjamin Antieau*
- Brauer group of a moduli space of parabolic vector bundles over a curve** 437  
*Indranil Biswas and Arijit Dey*
- Revisiting Nori's question and homotopy invariance of Euler class groups** 451  
*Mrinal Kanti Das*
- A derived equivalence for a degree 6 del Pezzo surface over an arbitrary field** 481  
*M. Blunk, S.J. Sierra and S. Paul Smith*
- Localizing subcategories in the Bootstrap category of separable  $C^*$ -algebras** 493  
*Ivo Dell'Ambrogio*
- Recollement of homotopy categories and Cohen-Macaulay modules** 507  
*Osamu Iyama, Kiriko Kato and Jun-Ichi Miyachi*

Cover design and colour scheme by A. Bak
