

BULLETIN Volume **11 (1974)**

of the Australian Mathematical Society

Number 3

D. W. Barnes and G. P. Monro	<i>A simple model for a weak system of arithmetic</i>	321
A. Brown	<i>Solution of a linear difference equation</i>	325
J. H. Loxton and A. J. van der Poorten	<i>A note on simultaneous polynomial approximation of exponential functions</i>	333
C. Wayne Mastin	<i>Convergence and applications of reproducing kernels for classes of discrete harmonic functions</i>	339
V. S. Ramamurthi	<i>A note on regular modules</i>	359
William H. Gustafson	<i>Torsionfree modules and classes of orders</i>	365
C. S. Withers	<i>Mercer's theorem and Fredholm resolvents</i>	373
K. L. McAvaney	<i>A note on limbless trees</i>	381
B. G. Pachpatte	<i>On perturbed stochastic discrete systems</i>	385
S. J. Leese	<i>Multifunctions of Souslin type</i>	395
R. J. Gazik, D. C. Kent, and G. D. Richardson	<i>Regular completions of uniform convergence spaces</i>	413
Jonathan S. Golan	<i>A characterization of left semiartinian rings</i>	425
Anne P. Grams	<i>The distribution of prime ideals of a Dedekind domain</i>	429
B. B. Panda and O. P. Kapoor	<i>On equidistant sets in normed linear spaces</i>	443
J. P. L. Hardy	<i>The free topological group on a cell complex</i>	455
Abstracts of Australasian Ph.D. theses		
Allan J. Fenwick	<i>Optimum processors for some sonar detection problems</i>	465
Elizabeth A. Ormerod	<i>Some abelian-by-nilpotent varieties of p-groups</i>	467
James E. Falk	<i>A theoretical study of the electronic structure of some organic polymers</i>	470
A. B. Evans	<i>On newtonian and relativistic cosmology</i>	471
A. J. Rahilly	<i>Finite generalized Hall planes and their collineation groups</i>	473
George Havas	<i>Computational approaches to combinatorial group theory</i>	475
Annette J. Dobson	<i>Numerical taxonomy for languages</i>	477
Shaharir bin Mohamad Zain	<i>A reformulation of Schwinger's action principle via Gâteaux variations</i>	479

Bull. Austral. Math. Soc. Vol. 11 (1974) No. 3, pp. 321-480

THE UNIVERSITY OF QUEENSLAND PRESS
ST LUCIA, QUEENSLAND 4067

Registered in Australia for transmission by post as a periodical (category C)

THE AUSTRALIAN MATHEMATICAL SOCIETY

President: H. S. Green University of Adelaide
Secretary: W. Pye Melbourne State College,
757 Swanston Street,
Carlton, Victoria 3053, Australia
Treasurer: V. G. Hart Department of Mathematics,
University of Queensland
St Lucia, Queensland 4067, Australia.
(These officers serve until May 1975)

Membership and correspondence

Applications for membership, notices of change of address or title or position, and other correspondence, except as noted below, should be sent to the Secretary (address above). Subscriptions and correspondence related to accounts should be sent to the Treasurer (address above). Correspondence about the distribution of the Society's JOURNAL, BULLETIN, and GAZETTE and orders for back numbers, should be sent to the Business Manager, whose address is the same as the Treasurer's (above).

Publications

The JOURNAL of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics) and Series B (Applied Mathematics). The Editors are:

(A) Professor J. N. Crossley Department of Mathematics, Monash University, Clayton, Victoria 3168, Australia,	(B) Professor J. J. Mahony, Department of Mathematics, University of Western Australia, Nedlands, WA 6009, Australia.
--	--

The BULLETIN of the Australian Mathematical Society began publication in 1969. Two volumes of three numbers each are published annually. Manuscripts for publication should be sent to the Editor:

Professor B. H. Neumann,
Department of Mathematics,
Institute of Advanced Studies,
Australian National University,
POB4, Canberra, ACT 2600, Australia,

or to the Associate Editor, Dr L. G. Kovács, at the same address.

The Australian Mathematical Society GAZETTE started publication in 1974, and carries news items, mathematical articles of general interest, and articles on tertiary mathematics teaching. Manuscripts for publication should be sent to the Editor at the

School of Mathematics,
University of New South Wales,
Kensington, NSW 2033, Australia.
