

## Index of Subjects

### Alcoholism

- Vitamin and mineral nutrition in chronic alcoholics including patients with Korsakoff's psychosis. 45, 469, 1981

### Amino acid digestibility

- The digestibility of amino acids in the small intestine of the sheep. 45, 167, 1981

### Amino acid digestion

- Digestion in the pig between 7 and 35 d of age. 4. The digestion of amino acids in pigs given milk and soya-bean proteins. 45, 347, 1981

### Amino acid imbalance

- The effect of amino acid imbalance on nitrogen retention (biological value) in rats. 45, 175, 1981

### Amino acid utilization

- Digestion in the pig between 7 and 35 d of age. 5. The incorporation of amino acids absorbed in the small intestines into the empty-body gain of pigs given milk or soya-bean proteins. 45, 359, 1981

### Amino acids

- Effect of zinc deficiency on appetite and plasma amino acid concentrations in the rat. 45, 127, 1981

### Antarctic expedition

- Energy intakes on sledging expeditions. 45, 89, 1981

### Artificial rearing

- Digestion in the pig between 7 and 35 d of age. 1. The performance of pigs given milk and soya-bean proteins. 45, 301, 1981  
 Digestion in the pig between 7 and 35 d of age. 2. The digestion of dry matter and the pH of digesta in pigs given milk and soya-bean proteins. 45, 321, 1981  
 Digestion in the pig between 7 and 35 d of age. 3. The digestion of nitrogen in pigs given milk and soya-bean proteins. 45, 337, 1981  
 Digestion in the pig between 7 and 35 d of age. 4. The digestion of amino acids in pigs given milk and soya-bean proteins. 45, 347, 1981  
 Digestion in the pig between 7 and 35 d of age. 5. The incorporation of amino acids absorbed in the small intestines into the empty-body gain of pigs given milk or soya-bean proteins. 45, 359, 1981

### Artificial rumen

- Effects of the antibiotic monensin and an inhibitor of methanogenesis on *in vitro* continuous rumen fermentations. 45, 567, 1981

### Bile trace minerals

- The maximum capacity of the bovine liver to excrete manganese in bile, and the effects of a manganese load on the rate of excretion of copper, iron and zinc in bile. 45, 605, 1981

### Bowel transit time

- Fibre and bowel transit times. 45, 77, 1981

### Breast feeding

- Breast-milk fat concentrations of rural African women. 1. Short-term variations within individuals. 45, 483, 1981

- Breast-milk fat concentrations of rural African women. 2. Long-term variations within a community. 45, 495, 1981

### Breast-milk composition

- Breast-milk fat concentrations of rural African women. 1. Short-term variations within individuals. 45, 483, 1981  
 Breast-milk fat concentrations of rural African women. 2. Long-term variations within a community. 45, 495, 1981

### Breast-milk production

- Breast-milk production in Australian women. 45, 243, 1981

### Cholesterol

- Further studies on the hypocholesterolaemic effect of soya-bean protein in rats. 45, 233, 1981  
 A trial of the effects of soya-bean flour and soya-bean saponins on plasma lipids, faecal bile acids and neutral sterols in hypercholesterolaemic men. 45, 277, 1981

### Copper distribution

- The non-random distribution of copper within the liver of rats. 45, 295, 1981

### Copper metabolism

- Metabolism of zinc and copper in the neonate: accumulation and function of (Zn, Cu)-metallothionein in the liver of the newborn rat. 45, 375, 1981  
 Metabolism of zinc and copper in the neonate: accumulation of Cu in the gastrointestinal tract of the newborn rat. 45, 391, 1981

### Copper supplementation

- A study of the effects of dietary added cupric oxide on the laying, domestic fowl and a comparison with the effects of hydrated copper sulphate. 45, 99, 1981  
 The effects of high dietary supplements of copper sulphate on pantothenic acid metabolism in the chick. 45, 431, 1981

### Copper toxicity

- Effect of different levels of dietary molybdenum on copper and Mo metabolism in sheep fed on high levels of Cu. 45, 203, 1981

### Diabolic acids

- Diabolic acids: occurrence and identification in natural products and their metabolism by simple-stomached and ruminant animals. 45, 159, 1981

### Diet-induced thermogenesis

- Influence of mild cold on 24 h energy expenditure, resting metabolism and diet-induced thermogenesis. 45, 257, 1981

### Dietary fibre

- The diet of individuals: a study of a randomly-chosen cross section of British adults in a Cambridgeshire village. 45, 23, 1981  
 Fibre and bowel transit times. 45, 77, 1981  
 An examination of factors which may affect the water holding capacity of dietary fibre. 45, 83, 1981

- Experimental model for in vivo determination of dietary fibre and its effect on the absorption of nutrients in the small intestine. 45, 283, 1981
- Dietary protein**  
The role of dietary protein in hepatic lipogenesis in the young rat. 45, 529, 1981
- Dietary survey**  
The diet of individuals: a study of a randomly-chosen cross section of British adults in a Cambridgeshire village. 45, 23, 1981  
Energy intakes on sledging expeditions. 45, 89, 1981
- Digesta flow**  
Digestion in the pig between 7 and 35 d of age. 2. The digestion of dry matter and the pH of digesta in pigs given milk and soya-bean proteins. 45, 321, 1981
- Diverticular disease**  
Fibre and bowel transit times. 45, 77, 1981
- Dogs**  
Energy requirements of antarctic sledge dogs. 45, 95, 1981
- Early-weaned piglet**  
Digestion in the pig between 7 and 35 d of age. 1. The performance of pigs given milk and soya-bean proteins. 45, 301, 1981  
Digestion in the pig between 7 and 35 d of age. 2. The digestion of dry matter and the pH of digesta in pigs given milk and soya-bean proteins. 45, 321, 1981  
Digestion in the pig between 7 and 35 d of age. 3. The digestion of nitrogen in pigs given milk and soya-bean proteins. 45, 337, 1981  
Digestion in the pig between 7 and 35 d of age. 4. The digestion of amino acids in pigs given milk and soya-bean proteins. 45, 347, 1981  
Digestion in the pig between 7 and 35 d of age. 5. The incorporation of amino acids absorbed in the small intestines into the empty-body gain of pigs given milk or soya-bean proteins. 45, 359, 1981
- Egg production**  
A study of the effects of dietary added cupric oxide on the laying, domestic fowl and a comparison with the effects of hydrated copper sulphate. 45, 99, 1981
- Energy balance**  
Food intake and energy expenditure of male and female farmers from Upper Volta. 45, 505, 1981
- Energy expenditure**  
Energy expenditure of male farmers in dry and rainy seasons in Upper-Volta. 45, 67, 1981  
Influence of mild cold on 24 h energy expenditure, resting metabolism and diet-induced thermogenesis. 45, 257, 1981
- Energy intake**  
Energy intakes on sledging expeditions. 45, 89, 1981  
Effects of changes in the intakes of protein and non-protein energy on whole-body protein turnover in growing pigs. 45, 539, 1981
- Energy requirements**  
Energy requirements of antarctic sledge dogs. 45, 95, 1981
- Environmental temperature**  
Energy requirements of antarctic sledge dogs. 45, 95, 1981
- Influence of mild cold on 24 h energy expenditure, resting metabolism and diet-induced thermogenesis. 45, 257, 1981
- Fatty acid synthesis**  
The role of dietary protein in hepatic lipogenesis in the young rat. 45, 529, 1981
- Fertility**  
Nutrition-fertility interaction in lactating women of low income groups. 45, 461, 1981
- Fibre structure**  
An examination of factors which may affect the water holding capacity of dietary fibre. 45, 83, 1981
- Fish nutrition**  
Studies on the nutrition of salmonid fish. The magnesium requirement of rainbow trout (*Salmo gairdneri*). 45, 137, 1981
- Flour extraction rate**  
The role of cereals in the aetiology of nutritional rickets: the lesson of the Irish National Nutrition Survey 1943-8. 45, 17, 1981
- Food consumption survey**  
Food intake and energy expenditure of male and female farmers from Upper Volta. 45, 505, 1981
- Food intake**  
Food intake and energy expenditure of male and female farmers from Upper Volta. 45, 505, 1981
- Food restriction**  
The effect of acute dietary restriction on muscle fibre number in weanling rats. 45, 475, 1981
- Gastro-intestinal hormones**  
Factors affecting the voluntary intake of food by sheep. 3. The effect of intravenous infusions of gastrin, cholecystokinin and secretin on motility of the reticulo-rumen intake. 45, 183, 1981
- Genetically obese mice**  
Serum thymic hormone activity on genetically obese mice. 45, 211, 1981
- Glutathione reductase**  
A biochemical evaluation of the erythrocyte glutathione reductase (*EC 1.6.4.2*) test for riboflavin status. 1. Rate and specificity of response in acute deficiency. 45, 37, 1981  
A biochemical evaluation of the erythrocyte glutathione reductase (*EC 1.6.4.2*) test for riboflavin status. 2. Dose-response relationship in chronic marginal deficiency. 45, 53, 1981
- Growth performance**  
Digestion in the pig between 7 and 35 d of age. 1. The performance of pigs given milk and soya-bean proteins. 45, 301, 1981
- Growth retardation**  
The effect of acute dietary restriction on muscle fibre number in weanling rats. 45, 475, 1981  
The influence of perinatal undernutrition of twin-bearing ewes on milk yields and lamb performance and the effects of postnatal nutrition on live weight gain and carcass composition. 45, 579, 1981
- Gut microflora**  
The influence of microorganisms and of stress on the chick's requirement for pantothenic acid. 45, 441, 1981
- Hepatic mineral excretion**  
The maximum capacity of the bovine liver to excrete manganese in bile, and the effects of a manganese

- load on the rate of excretion of copper, iron and zinc in bile. 45, 605, 1981
- Ileostomy**  
Experimental model for in vivo determination of dietary fibre and its effect on the absorption of nutrients in the small intestine. 45, 283, 1981
- Immune response**  
Serum thymic hormone activity on genetically obese mice. 45, 211, 1981
- Irish nutrition survey**  
The role of cereals in the aetiology of nutritional rickets: the lesson of the Irish National Nutrition Survey 1943-8. 45, 17, 1981
- Iron absorption**  
Factors affecting the absorption of iron from Fe(III)EDTA. 45, 215, 1981
- Iron fortification**  
Factors affecting the absorption of iron from Fe(III)EDTA. 45, 215, 1981
- Korsakoff's psychosis**  
Vitamin and mineral nutrition in chronic alcoholics including patients with Korsakoff's psychosis. 45, 469, 1981
- Kynureninase inhibition**  
Inhibition of kynureninase (L-kynurenine hydrolase; EC 3. 7. 1. 3) by oestrone sulphate: an alternative explanation for abnormal results of tryptophan load tests in women receiving oestrogenic steroids. 45, 269, 1981
- Lactation**  
Changes in the concentrations of the minor constituents of goat's milk during starvation and on refeeding of the lactating animal and their relationship to mammary gland metabolism. 45, 149, 1981  
Breast-milk production in Australian women. 45, 243, 1981  
Nutrition-fertility interaction in lactating women of low income groups. 45, 461, 1981  
Breast-milk fat concentrations of rural African women. 1. Short-term variations within individuals. 45, 483, 1981  
Breast-milk fat concentrations of rural African women. 2. Long-term variations within a community. 45, 495, 1981  
The effects of protein degradability and food intake on milk yield and composition in cows in early lactation. 45, 547, 1981
- Lamb fattening**  
The influence of perinatal undernutrition of twin-bearing ewes on milk yields and lamb performance and the effects of postnatal nutrition on live weight gain and carcass composition. 45, 579, 1981
- Laying domestic fowl**  
A study of the effects of dietary added cupric oxide on the laying, domestic fowl and a comparison with the effects of hydrated copper sulphate. 45, 99, 1981
- Lipogenesis**  
The role of dietary protein in hepatic lipogenesis in the young rat. 45, 529, 1981
- Liver**  
Selenium metabolism in the dairy cow: the influence of the liver and the effect of the form of Se salt. 45, 117, 1981
- Liver copper content**  
The non-random distribution of copper within the liver of rats. 45, 295, 1981
- Lysine availability**  
Availability of lysine in vegetable protein concentrates as determined by the slope-ratio assay with growing pigs and rats and by chemical techniques. 45, 401, 1981
- Magnesium requirement**  
Studies on the nutrition of salmonid fish. The magnesium requirement of rainbow trout (*Salmo gairdneri*). 45, 137, 1981
- Maize**  
Degradation of maize protein in rumen contents. Influence of ammonia concentration. 45, 111, 1981
- Malnutrition**  
Reproductive performance in rats with different histories of malnutrition. 45, 251, 1981
- Mammary gland metabolism**  
Changes in the concentrations of the minor constituents of goat's milk during starvation and on refeeding of the lactating animal and their relationship to mammary gland metabolism. 45, 149, 1981
- Manganese excretion**  
The maximum capacity of the bovine liver to excrete manganese in bile, and the effects of a manganese load on the rate of excretion of copper, iron and zinc in bile. 45, 605, 1981
- Meal frequency**  
The effect of meal frequency and protein concentration on the composition of the weight lost by obese subjects. 45, 5, 1981
- Metabolic rate**  
Energy expenditure of male farmers in dry and rainy seasons in Upper-Volta. 45, 67, 1981
- Metallothionein**  
Metabolism of zinc and copper in the neonate: accumulation and function of (Zn, Cu)-metallothionein in the liver of the newborn rat. 45, 375, 1981
- Methanogenesis**  
Effects of the antibiotic monensin and an inhibitor of methanogenesis on in vitro continuous rumen fermentations. 45, 567, 1981
- Microbial protein synthesis**  
Quantitative studies of food protein degradation and the energetic efficiency of microbial protein synthesis in the rumen of sheep given chopped lucerne and rolled barley. 45, 587, 1981
- Mineral metabolism**  
Effect of different levels of dietary molybdenum on copper and Mo metabolism in sheep fed on high levels of Cu. 45, 203, 1981
- Modelling technique**  
Phosphorus kinetics in the sheep. 45, 367, 1981
- Molybdenum supplementation**  
Effect of different levels of dietary molybdenum on copper and Mo metabolism in sheep fed on high levels of Cu. 45, 203, 1981
- Monensin**  
Effects of the antibiotic monensin and an inhibitor of methanogenesis on in vitro continuous rumen fermentations. 45, 567, 1981

- Muscle fibre number**  
The effect of acute dietary restriction on muscle fibre number in weanling rats. 45, 475, 1981
- Muscle protein breakdown**  
The urinary excretion of *N*<sup>2</sup>-methyl histidine by cattle: validation as an index of muscle protein breakdown. 45, 411, 1981  
The inadequacy of urinary *N*<sup>2</sup>-methyl histidine excretion in the pig as a measure of muscle protein breakdown. 45, 423, 1981
- Newborn rat**  
Metabolism of zinc and copper in the neonate: accumulation and function of (Zn, Cu)-metallothionein in the liver of the newborn rat. 45, 375, 1981  
Metabolism of zinc and copper in the neonate: accumulation of Cu in the gastrointestinal tract of the newborn rat. 45, 391, 1981
- Nitrogen flow**  
Digestion in the pig between 7 and 35 d of age. 3. The digestion of nitrogen in pigs given milk and soya-bean proteins. 45, 337, 1981
- Nitrogen retention**  
The effect of amino acid imbalance on nitrogen retention (biological value) in rats. 45, 175, 1981
- N*<sup>2</sup>-methyl histidine**  
The inadequacy of urinary *N*<sup>2</sup>-methyl histidine excretion in the pig as a measure of muscle protein breakdown. 45, 423, 1981
- N*<sup>2</sup>-Methyl histidine**  
The urinary excretion of *N*<sup>2</sup>-methyl histidine by cattle: validation as an index of muscle protein breakdown. 45, 411, 1981
- Nucleic acid metabolism**  
Metabolism of the nucleic acids of rumen bacteria by preruminant and ruminant lambs. 45, 517, 1981
- Nutrient absorption**  
Experimental model for in vivo determination of dietary fibre and its effect on the absorption of nutrients in the small intestine. 45, 283, 1981
- Nutritional requirement assessment**  
Energy expenditure of male farmers in dry and rainy seasons in Upper-Volta. 45, 67, 1981
- Nutritional rickets**  
The role of cereals in the aetiology of nutritional rickets: the lesson of the Irish National Nutrition Survey 1943-8. 45, 17, 1981
- Nutritional status**  
Vitamin and mineral nutrition in chronic alcoholics including patients with Korsakoff's psychosis. 45, 469, 1981
- Obesity**  
The effect of meal frequency and protein concentration on the composition of the weight lost by obese subjects. 45, 5, 1981
- Oestrogens**  
Inhibition of hynureninase (L-hynurenine hydrolase; EC 3.7.1.3) by oestrone sulphate: an alternative explanation for abnormal results of tryptophan load tests in women receiving oestrogenic steroids. 45, 269, 1981
- Pantothenic acid**  
The effects of high dietary supplements of copper sulphate on pantothenic acid metabolism in the chick. 45, 431, 1981
- The influence of microorganisms and of stress on the chick's requirement for pantothenic acid. 45, 441, 1981
- Parasite infestation**  
Metabolic changes in cattle due to the specific effect of the tick, *Boophilus microplus*. 45, 557, 1981
- Phosphorus kinetics**  
Phosphorus kinetics in the sheep. 45, 367, 1981
- Portal streaming**  
The non-random distribution of copper within the liver of rats. 45, 295, 1981
- Preruminant lamb**  
Metabolism of the nucleic acids of rumen bacteria by preruminant and ruminant lambs. 45, 517, 1981
- Protein degradability**  
The effects of protein degradability and food intake on milk yield and composition in cows in early lactation. 45, 547, 1981
- Protein degradation**  
Degradation of maize protein in rumen contents. Influence of ammonia concentration. 45, 111, 1981  
Quantitative studies of food protein degradation and the energetic efficiency of microbial protein synthesis in the rumen of sheep given chopped lucerne and rolled barley. 45, 587, 1981
- Protein intake**  
Effects of changes in the intakes of protein and non-protein energy on whole-body protein turnover in growing pigs. 45, 539, 1981
- Protein metabolism**  
The urinary excretion of *N*<sup>2</sup>-methyl histidine by cattle: validation as an index of muscle protein breakdown. 45, 411, 1981  
The inadequacy of urinary *N*<sup>2</sup>-methyl histidine excretion in the pig as a measure of muscle protein breakdown. 45, 423, 1981
- Protein source**  
Digestion in the pig between 7 and 35 d of age. 1. The performance of pigs given milk and soya-bean proteins. 45, 301, 1981  
Digestion in the pig between 7 and 35 d of age. 2. The digestion of dry matter and the pH of digesta in pigs given milk and soya-bean proteins. 45, 321, 1981  
Digestion in the pig between 7 and 35 d of age. 3. The digestion of nitrogen in pigs given milk and soya-bean proteins. 45, 337, 1981  
Digestion in the pig between 7 and 35 d of age. 4. The digestion of amino acids in pigs given milk and soya-bean proteins. 45, 347, 1981  
Digestion in the pig between 7 and 35 d of age. 5. The incorporation of amino acids absorbed in the small intestines into the empty-body gain of pigs given milk or soya-bean proteins. 45, 359, 1981
- Protein turnover**  
Effects of changes in the intakes of protein and non-protein energy on whole-body protein turnover in growing pigs. 45, 539, 1981
- Proteinase inhibitors**  
Proteinase inhibitors and other biochemical criteria in infants and primary schoolchildren from urban and rural environments. 45, 451, 1981
- Protein-energy malnutrition**  
Effect of intramuscular vitamin A injection on plasma

- levels of vitamin A and retinol-binding protein in malnourished children. 45, 229, 1981
- Proteinase inhibitors and other biochemical criteria in infants and primary schoolchildren from urban and rural environments. 45, 451, 1981
- Rainbow trout**  
Studies on the nutrition of salmonid fish. The magnesium requirement of rainbow trout (*Salmo gairdneri*). 45, 137, 1981
- Reproductive performance**  
Reproductive performance in rats with different histories of malnutrition. 45, 251, 1981
- Reticulo-rumen motility**  
Factors affecting the voluntary intake of food by sheep. 3. The effect of intravenous infusions of gastrin, cholecystokinin and secretin on motility of the reticulo-rumen intake. 45, 183, 1981
- Retinol-binding protein**  
Effect of intramuscular vitamin A injection on plasma levels of vitamin A and retinol-binding protein in malnourished children. 45, 229, 1981
- Riboflavin status test**  
A biochemical evaluation of the erythrocyte glutathione reductase (EC 1.6.4.2) test for riboflavin status. 1. Rate and specificity of response in acute deficiency. 45, 37, 1981  
A biochemical evaluation of the erythrocyte glutathione reductase (EC 1.6.4.2) test for riboflavin status. 2. Dose-response relationship in chronic marginal deficiency. 45, 53, 1981
- Rumen ammonia**  
Degradation of maize protein in rumen contents. Influence of ammonia concentration. 45, 111, 1981
- Rumen bacteria**  
Metabolism of the nucleic acids of rumen bacteria by preruminant and ruminant lambs. 45, 517, 1981
- Rumen fermentation**  
Effects of the antibiotic monensin and an inhibitor of methanogenesis on in vitro continuous rumen fermentations. 45, 567, 1981
- Rumen microbial growth**  
Quantitative studies of food protein degradation and the energetic efficiency of microbial protein synthesis in the rumen of sheep given chopped lucerne and rolled barley. 45, 587, 1981
- Saponins**  
A trial of the effects of soya-bean flour and soya-bean saponins on plasma lipids, faecal bile acids and neutral sterols in hypercholesterolaemic men. 45, 277, 1981
- Selenium metabolism**  
Selenium metabolism in the dairy cow: the influence of the liver and the effect of the form of Se salt. 45, 117, 1981
- Serum proteins**  
Proteinase inhibitors and other biochemical criteria in infants and primary schoolchildren from urban and rural environments. 45, 451, 1981
- Serum thymic hormone**  
Serum thymic hormone activity on genetically obese mice. 45, 211, 1981
- Slope-ratio assay**  
Availability of lysine in vegetable protein concentrates as determined by the slope-ratio assay with growing pigs and rats and by chemical techniques. 45, 401, 1981
- Small intestine**  
The digestibility of amino acids in the small intestine of the sheep. 45, 167, 1981  
Experimental model for in vivo determination of dietary fibre and its effect on the absorption of nutrients in the small intestine. 45, 283, 1981
- Soya bean**  
A trial of the effects of soya-bean flour and soya-bean saponins on plasma lipids, faecal bile acids and neutral sterols in hypercholesterolaemic men. 45, 277, 1981
- Soya-bean protein**  
Further studies on the hypocholesterolaemic effect of soya-bean protein in rats. 45, 233, 1981
- Starvation**  
Changes in the concentrations of the minor constituents of goat's milk during starvation and on refeeding of the lactating animal and their relationship to mammary gland metabolism. 45, 149, 1981
- Stress**  
The influence of microorganisms and of stress on the chick's requirement for pantothenic acid. 45, 441, 1981
- Tick infestation**  
Metabolic changes in cattle due to the specific effect of the tick, *Boophilus microplus*. 45, 557, 1981
- Tryptophan load test**  
Inhibition of hynureninase (L-hynurenine hydrolase; EC 3.7.1.3) by oestrone sulphate: an alternative explanation for abnormal results of tryptophan load tests in women receiving oestrogenic steroids. 45, 269, 1981
- Undernutrition**  
Nutrition-fertility interaction in lactating women of low income groups. 45, 461, 1981  
The influence of perinatal undernutrition of twin-bearing ewes on milk yields and lamb performance and the effects of postnatal nutrition on live weight gain and carcass composition. 45, 579, 1981
- Vegetable protein concentrates**  
Availability of lysine in vegetable protein concentrates as determined by the slope-ratio assay with growing pigs and rats and by chemical techniques. 45, 401, 1981
- Vitamin A supplementation**  
Effect of intramuscular vitamin A injection on plasma levels of vitamin A and retinol-binding protein in malnourished children. 45, 229, 1981
- Voluntary food intake**  
Factors affecting the voluntary intake of food by sheep. 3. The effect of intravenous infusions of gastrin, cholecystokinin and secretin on motility of the reticulo-rumen intake. 45, 183, 1981
- Water holding capacity**  
An examination of factors which may affect the water holding capacity of dietary fibre. 45, 83, 1981
- Weight loss**  
The effect of meal frequency and protein concentration on the composition of the weight lost by obese subjects. 45, 5, 1981

**Zinc deficiency**

Effect of zinc deficiency on appetite and plasma amino acid concentrations in the rat.

45, 127, 1981

**Zinc metabolism**

Metabolism of zinc and copper in the neonate:

accumulation and function of (Zn, Cu)-metallothionein in the liver of the newborn rat.

45, 375, 1981

Metabolism of zinc and copper in the neonate: accumulation of Cu in the gastrointestinal tract of the newborn rat.

45, 391, 1981
