Bulletin of *Entomological Research*

journals.cambridge.org/ber

Aims and Scope

The aims of *Bulletin of Entomological Research* are to further our global knowledge of entomology through the generalisation of research findings rather than providing more entomological exceptions. *Bulletin* publishes high-quality and original research papers, 'critiques' and review articles concerning insects, mites, ticks or other arthropods of economic importance in agriculture, forestry, stored products, biological control, medicine, animal health and natural resource management. The scope of papers addresses the biology, ecology, behaviour, physiology and systematics of individuals and populations. This includes the interactions between species (plants, hosts for parasites, natural enemies and whole communities), novel methodological developments, including molecular biology, in an applied context. *Bulletin* does not publish the results of pesticide testing or traditional taxonomic revisions.

Bulletin of Entomological Research is published bimonthly by
Cambridge University Press

Editor-in-Chief

Professor Bill Symondson

School of Biosciences, Cardiff University, Cardiff CF10 3TL, UK

Research Papers

- M.C. Liendo, F. Devescovi, G.E. Bachmann, M.E. Utgés, S. Abraham, M.T.Vera, S.B. Lanzavecchia, J.P. Bouvet, P. Gómez-Cendra, J. Hendrichs, P.E.A. Teal, J.L. Cladera and D.F. Segura**
Precocious sexual signalling and mating in *Anastrepha fraterculus* (Diptera: Tephritidae) sterile males achieved through juvenile hormone treatment and protein supplements 1
- X. Martini, A.F.G. Dixon and J.-L. Hemptinne**
The effect of relatedness on the response of *Adalia bipunctata* L. to oviposition deterring cues 14
- G. Juma, M. Thiongo, L. Dutaur, K. Rharrabe, F. Marion-Poll, B. Le Ru, G. Magoma, J.-F. Silvain and P.-A. Calatayud**
Two sugar isomers influence host plant acceptance by a cereal caterpillar pest 20
- Q.-P. Ren, Z. Fan, X.-M. Zhou, G.-F. Jiang, Y.-T. Wang and Y.-X. Liu**
Identification and characterization of anonymous nuclear markers for the double-striped cockroach, *Blattella bisignata* 29
- E.G. Kakani, M. Trakala, E. Drosopoulou, P. Mavragani-Tsipidou and K.D. Mathiopoulos**
Genomic structure, organization and localization of the acetylcholinesterase locus of the olive fruit fly, *Bactrocera oleae* 36
- M. Škaljac, K. Žanie, S. Hrnčie, S. Radonje, T. Perovic and M. Ghanim**
Diversity and localization of bacterial symbionts in three whitefly species (Hemiptera: Aleyrodidae) from the east coast of the Adriatic Sea 48
- M. de Villiers, V. Hattingh and D.J. Kriticos**
Combining field phenological observations with distribution data to model the potential distribution of the fruit fly *Ceratitis rosa* Karsch (Diptera: Tephritidae) 60
- V. Caron, M. Norgate, F.J. Ede, T. Nyman and P. Sunnucks**
Novel microsatellite DNA markers indicate strict parthenogenesis and few genotypes in the invasive willow sawfly *Nematus oligospilus* 74
- K.L. Silva-Brandão, L.C. Almeida, S.S. Moraes and F.L. Cônsoli**
Using population genetic methods to identify the origin of an invasive population and to diagnose cryptic subspecies of *Telchin licus* (Lepidoptera: Castniidae) 89
- Y. Velásquez, T. Ivorra, A. Grzywacz, A. Martínez-Sánchez, C. Magaña, A. García-Rojo and S. Rojo**
Larval morphology, development and forensic importance of *Synthesiomyia nudiseta* (Diptera: Muscidae) in Europe: a rare species or just overlooked? 98
- H.D. Loxdale, S. Vorwerk and A. Forneck**
The unstable 'clone': evidence from monitoring AFLP-based mutations for short-term clonal genetic variation in two asexual lineages of the grain aphid, *Sitobion avenae* (F.) 111
- H. Čičková, M. Kozánek and P. Takáč**
Improvement of survival of the house fly (*Musca domestica* L.) larvae under mass-rearing conditions 119

Bulletin of Entomological Research is an international journal published bimonthly by Cambridge University Press in February, April, June, August, October and December.

Subscription information:

The subscription rates for Volume 103, 2013 (6 issues):
Print and electronic access: £1098 (UK), (USA, Canada and Mexico US \$1868)
Electronic-only price: £836 (UK), (USA, Canada and Mexico US \$1423)
Print only: £1040 (UK), (USA, Canada and Mexico US \$1664)
The online edition is available at www.journals.cambridge.org/ber with free table of contents alert (upon registration).

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back Volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

US Postmasters: please send address corrections to Bulletin of Entomological Research

Information for Authors

Manuscripts should be submitted online at <http://www.editorialmanager.com/ber>. New users should register before submitting a manuscript. Further information about submission is available from the publisher at the given address and is printed on the inside back cover.

Offprints: The author (or main author) of an accepted paper will receive a free PDF of their paper. Paper offprints are available for a fee and should be ordered at proof stage. No page charges are levied by this journal.

Copying: This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organisations in the USA who are registered with the CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of USA copyright law) subject to payment to the CCC of the per copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-4853/2013/\$16.00. Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions. *For all other use*, permission must be sought from Cambridge or the American Branch of Cambridge University Press.
