## 5TH AIRCRAFT STRUCTURAL DESIGN CONFERENCE

MANCHESTER / 4 - 6 OCTOBER 2016

This conference will provide a platform for the presentation of new ideas, computerised design methods & algorithms for the design & development of civil & military aircraft, both manned and unmanned, over the course of the next decade.

A call for papers is now open and the deadline for submitting abstracts is 15 April 2016.

# Journal of Fluid Mechanics

**Editor**

M. G. Worster, University of Cambridge, UK

*Journal of Fluid Mechanics* is the leading international journal in the field and is essential reading for all those concerned with developments in fluid mechanics. It publishes authoritative articles covering theoretical, computational and experimental investigations of all aspects of the mechanics of fluids. Each issue contains papers on both the fundamental aspects of fluid mechanics, and their applications to other fields such as aeronautics, astrophysics, physiology, chemical and mechanical engineering, hydraulics, meteorology, oceanography, geology, acoustics and combustion.
