

Index of Subjects

- Acinetobacter calcoaceticus*, typing of, strains isolated from hospital patients by cell envelope protein profiles, 659
- African swine fever, an updated survey of, in Malawi, 723
- Air, Joseph Lister and infection from the, 569
- Antirabies vaccine, persistence of rabies antibody 5 years after pre-exposure prophylaxis with human diploid cell, and antibody response to a single booster dose, 91
- Aquaria, enteric pathogens in tropical, 635
- Aspergillosis, invasive nosocomial pulmonary: risk factors and hospital building works, 407
- Australia, respiratory tract infections due to *Branhamella catarrhalis*: epidemiological data from Western, 445
- Bluetongue, infection with, and related orbiviruses in the Sudan detected by the study of sentinel calf herds, 533
- Branhamella catarrhalis*, respiratory tract infections due to: epidemiological data from Western Australia, 445
- Campylobacter, a demographic survey of, salmonella and shigella infections in England, 647
- Campylobacters, serogroups of thermophilic, from humans and from non-human sources, Israel 1982–1985, 275
- Campylobacters, survival of thermophilic, on fingertips and their elimination by washing and disinfection, 265
- Candida albicans*, strain differentiation of, by morphotyping, 421
- Candidiasis, four outbreaks of nosocomial systemic, 201
- China, serodiagnosis of leptospirosis in, by the one-point MCA method, 393
- Clostridium botulinum*, a food-poisoning incident caused by, toxin A in Japan, 167
- Clostridium difficile*, comparison of alcohol shock enrichment and selective enrichment for the isolation of, 355
- Cytotoxins, properties of strains of *Escherichia coli* belonging to serogroup O157 with special reference to production of Vero, VT1 and VT2, 613
- Enteric pathogens in tropical aquaria, 635
- Escherichia coli*, calculation of the expected increases of coliform organisms, and *Salmonella typhimurium*, in raw blended mutton tissue, 323
- Escherichia coli*, investigation of the source of haemolytic, infecting weaned pigs, 149
- Escherichia coli*, properties of strains of, belonging to serogroup O157 with special reference to production of Vero cytotoxins VT1 and VT2, 613
- Escherichia coli*, the assessment of two media for the confirmation of, in water samples in single-tube tests, 155
- Food, an evaluation of a commercially available enzyme immunoassay test for the rapid detection of salmonellae in, and environmental samples, 127
- Foot-and-mouth disease virus, enzyme-linked immunosorbent assay (ELISA) for the detection of antibodies against, 733
- Fungal, an epidemiologic study of the, skin flora among the elderly in Alexandria, 213
- Fusobacteria, the isolation of, from tropical ulcers, 361
- Gambia, plasmid content, auxotype and protein-I serovar of gonococci isolated in the, 669
- Gonococci, plasmid content, auxotype and protein-I serovar of, isolated in the Gambia, 669
- Haemophilus influenzae* subtyping by SDS-PAGE of whole-cell polypeptides, 179
- Hepatitis B, prevalence and risk factors of, in Spanish prostitutes, 767
- HIV antigen, circulation of, in blood according to stage of infection, risk group, age and geographic origin, 701
- Hong Kong, incidence of plasmids in multiply-resistant salmonella isolates from diarrhoeal patients in, from 1973–82, 307

- Hong Kong, salmonella serotypes and incidence of multiply-resistant salmonellae isolated from diarrhoeal patients in, from 1973–82, 295
- Hydatid disease, the changing incidence of human, in England and Wales, 693
- Influenza A and B virus IgG and IgM serology by enzyme immunoassays, 55
- Influenza A, a new concept of the epidemic process of, virus, 5
- Influenza A, egg-grown and tissue-culture-grown variants of, (H3N2) virus with special attention to their use as antigens in seroepidemiology, 745
- Influenza A, sequential infection or immunization of ferrets with a series of, (H3N2) strains, 501
- Influenza, what is the true nature of epidemic, virus and how do new epidemic viruses spread, 1
- Israeli, food-borne outbreak of group G streptococcal sore throat in an, military base, 249
- Israel, serogroups of thermophilic campylobacters from humans and from non-human sources, 1982–1985, 275
- Italy, psittacosis in a highly endemic area in, 413
- Klebsiella* spp., comparison of biochemical and serological typing results and antimicrobial susceptibility patterns in the epidemiological investigation of, 625
- Legionella*, cross-reactivity among, species and serogroups, 641
- Legionella pneumophila*: comparison of isolation from water specimens by centrifugation and filtration, 241
- Legionella pneumophila* in a hospital water system following a noscomial outbreak: prevalence, monoclonal antibody subgrouping and effect of control measures, 783
- Legionella pneumophila*: monoclonal antibody typing of clinical and environmental isolates, 235
- Legionella pneumophila*, widespread, contamination of dental stations in a dental school without apparent human infection, 159
- Leptospira interrogans*, a new serovar *mogdeni* of serogroup Tarassovi of, isolated from a sewage plant in England, 373
- Leptospiral, serological prevalence of, infection in domestic animals in West Malaysia, 379
- Leptospiral, serological studies of British, isolates of the Sejroe serogroup. III. The distribution of leptospire of the Sejroe serogroup in the British Isles, 117
- Leptospira, serological studies on British isolates of the Sejroe serogroup of. II. An evaluation of the factor analysis method of identifying leptospire using strains belonging to the Sejroe serogroup, 107
- Leptospirosis, one-point method for serological diagnosis of: a microcapsule agglutination test, 309
- Leptospirosis, serodiagnosis of, in China by the one-point MCA method, 393
- Lister, Joseph, 1827–1912, 567
- Lister, Joseph, and infection from the air, 569
- Lymphoproliferative disease, detection of, virus by an enzyme-linked immunosorbent assay, 711
- Malawai, an updated survey of African swine fever in, 723
- Malaysia, serological prevalence of leptospiral infection in domestic animals in West, 379
- Meningococci, the Stonehouse survey: nasopharyngeal carriage of, and *Neisseria lactamica*, 591
- Meningococcal, an outbreak of, disease in Stonehouse: planning and execution of a large-scale survey, 579
- Measles, an assessment of methods for routine local monitoring of vaccine efficacy, with particular reference to, and pertussis, 485
- Measles antibody levels in children of rural and urban areas of Nigeria following vaccination campaign, 85
- Measles, the levels of, antibodies in Nigerian children aged 0–12 months and its relationship with maternal parity, 547
- Methicillin-resistant, multiply- and, *Staphylococcus aureus* strains isolated in the German Democratic Republic in 1985 and 1986, 603

- Mineral waters, the bacteriological quality of bottled natural, 439
- Molluscum contagiosum: characterization of viral DNA and clinical features, 563
- Mozambique, Rift Valley fever: a sero-epidemiological survey among pregnant women in, 517
- Multiple tube method, most probable numbers of organisms: revised tables for the, 471
- Mumps, the epidemiology of, in the UK: a preliminary study of virus transmission, herd immunity and the potential impact of immunization, 65
- Mutton, calculation of the expected increases of coliform organisms, *Escherichia coli* and *Salmonella typhimurium*, in raw blended, tissue, 323
- Mycoplasma pneumoniae*, the specific IgM response to, infection: interpretation and application to early diagnosis, 685
- Neisseria gonorrhoeae*, analysis of penicillinase-producing, isolates in Madrid (Spain) from 1983–85, 455
- Neisseria lactamica*, the Stonehouse survey: nasopharyngeal carriage of meningococci and, 591
- Neisseria meningitidis*, isolation of, strains with increase of penicillin minimal inhibitory concentrations, 463
- Nephropathia epidemica: incidence of clinical cases and antibody prevalence in an endemic area of Sweden, 559
- Nigeria, measles antibody levels in children of rural and urban areas of, following vaccination campaign, 85
- Nigeria, the bacteriological quality of traditional water sources in north-eastern Imo State, 429
- Nigerian, the levels of measles antibodies in, children aged 0–12 months and its relationship with parity, 547
- Orbiviruses, infection with bluetongue and related, in the Sudan detected by the study of sentinel calf herds, 533
- Pertussis, an assessment of methods for routine local monitoring of vaccine efficacy, with particular reference to measles and, 485
- Pertussis, how are the sub-units, vaccines to be evaluated, 477
- Pigs, investigation of the source of haemolytic *Escherichia coli* infecting weaned, 149
- Poliomyelitis, paralytic, in England & Wales, 1970–84, 97
- Prostitutes, prevalence and risk factors of hepatitis B in Spanish, 767
- Psittacosis in a highly endemic area in Italy, 413
- Rabies, persistence of, antibody 5 years after pre-exposure prophylaxis with human diploid cell antirabies vaccine and antibody response to a single booster dose, 91
- Rabies vaccine, purified chick embryo cell: economical multisite intradermal regimen for post-exposure prophylaxis, 755
- Respiratory viral infections, surveillance of, by rapid immunofluorescence diagnosis, with emphasis on virus interference, 523
- Rift Valley fever: a sero-epidemiological survey among pregnant women in Mozambique, 517
- Salmonella, a demographic survey of campylobacter, and shigella infections in England, 647
- Salmonella*, comparison of procedures based upon Rappaport-Vassiliadis medium with those using Muller-Kauffmann medium containing Teepol for the isolation of, sp., 143
- Salmonella dublin*, molecular relationship among, isolates identified at the Center for Enterobacteriaceae of Palermo during the years 1971–85, 283
- Salmonellae, an evaluation of a commercially available enzyme immunoassay test for the rapid detection of, in food and environmental samples, 127
- Salmonella enteritidis*, a phage-typing scheme for, 291
- Salmonella, incidence of plasmids in multiply-resistant, isolates from diarrhoeal patients in Hong Kong from 1973–82, 307
- Salmonella serotypes and incidence of multiply-resistant salmoellae isolated from diarrhoeal patients in Hong Kong from 1973–82, 295

- Salmonella typhimurium*, calculation of the expected increases of coliform organisms, *Escherichia coli* and, in raw blended mutton tissue, 323
- Salmonella typhimurium*, old and new techniques together resolve a problem of infection by, 137
- Scombrototoxic fish poisoning in Britain: features of over 250 suspected incidents from 1976 to 1986, 775
- Shigella, a demographic survey of campylobacter, salmonella and, infections in England, 647
- Skin, an epidemiologic study of the fungal, flora among the elderly in Alexandria, 213
- Spain, analysis of penicillinase-producing *Neisseria gonorrhoeae* isolates in Madrid, from 1983-85, 455
- Staphylococcus aureus*, characterization of non-typable strains of, from cases of hospital infection, 191
- Streptococcal, food-borne outbreak of group G, sore throat in an Israeli military base, 249
- Staphylococcal food poisoning on a cruise ship, 349
- Streptococcal, group L beta-haemolytic, infection in meat handlers: another streptococcal zoonosis? 257
- Staphylococci, an estimate for the source of coagulase-negative, in blood cultures, 333
- Staphylococcus aureus*, multiply- and methicillin-resistant, strains isolated in the German Democratic Republic in 1985 and 1986, 603
- Staphylococcus aureus*, pattern of antibiotic and heavy-metal ion resistance in recent hospital isolates of, 343
- Sudan, infection with bluetongue and related orbiviruses in the, detected by the study of sentinel calf herds, 533
- Sweden, nephropathia epidemica: incidence of clinical cases and antibody prevalence in an endemic area of, 559
- Tetanus and its complications: intensive care and management experience in 150 Indian patients, 675
- Tubercle, bovine, bacilli and disease in animals and man, 221
- Tuberculin test, observations on the incidence of herds with non-visible lesioned, reactors in south-west England, 173
- Water, *Legionella pneumophila*: comparison of isolation from, specimens by centrifugation and filtration, 241
- Water, the assessment of two media for the confirmation of *Escherichia coli* in, samples in single-tube tests, 155
- Water, the bacteriological quality of traditional, sources in north-eastern Imo State, Nigeria, 429
- Waters, the bacteriological quality of bottled natural mineral, 439
- West Nile, antigenic relationship of, strains by titre ratios calculated from cross-neutralization test results, 551
