The original article was published with some errors in equations 1 and 2.

The correct Eq.1 is:

$$CE = \sum_{i=1}^n \left(\frac{F_i + F_{i+1}}{2} \right) \times (t_{i+1} - t_i) \times 24$$

The correct Eq.2 is:

$$GWP = \text{cumulative CH}_4 \text{ emission} \times 34 + \text{cumulative N}_2\text{O emission} \times 265$$

The publishers apologise for this error.
