MURRAY'S HANDY CLASSICAL MAPS

Edited by G. B. GRUNDY, M.A., D.Litt.

FELLOW AND TUTOR OF CORPUS CHRISTI COLLEGE, OXFORD

These Maps are now recognized as the best and most convenient in existence for the use of scholars and students at the Universities and upper classes of schools.

The old method of engraving and hatching the mountain ranges has been exchanged for that of colouring the contours with flat brown and green tints, which is acknowledged to be the best and most intelligible way of denoting the configuration of the land. A SEPARATE INDEX IS INCLUDED WITH EACH MAP.

The Maps in this series are distinct from those in Murray's Classical Atlas, and are considerably larger.

ATHENÆUM.—“*These maps of Mr. Murray's are far better than anything which has yet been attempted in the direction of teaching the physical features of ancient geography, and they deserve all attention from students and schoolmasters.*”
