

## Index of Subjects

- Aeromonas* spp., toxin production, adherence and protein expression by clinical, isolates in broth and human pooled ileostomy fluid, 235
- AIDS, municipal drinking water and cryptosporidiosis among persons with, in Los Angeles County, 313
- Akabane, the distribution of, virus in the Middle East, 175
- Anthrax, information on which to base assessments of risk from environments contaminated with, spores, 479
- Astovirus, identification of, serotypes from children treated at the Hospitals for Sick Children, London 1981–93, 153
- Bacillus cereus*, contamination of hospital linen by, 297
- Bovine leukaemia virus, epidemiological evaluation of a monoclonal ELISA detecting antibodies against, in serum pools, 563
- Campylobacter jejuni*, flagellin gene polymorphism analysis of, infecting man and other hosts and comparison with biotyping and somatic antigen serotyping, 221
- Capripox, western blot analysis of virus-specific antibody responses for, and contagious pustular dermatitis viral infections in sheep, 377
- Clostridium botulinum*, the production of, type A, B and D toxin in rotting carcasses, 335
- Clostridium difficile*-associated diarrhoea: epidemiological data from Western Australia, 13
- Clostridium difficile*, identification of outbreak-associated and other strains of, by numerical analysis of SDS–PAGE protein patterns, 1
- Complement, hereditary deficiency of the seventh component of, and recurrent meningococcal infection: investigations of an Irish family using a novel haemolytic screening assay for complement activity and C7 M/N allotyping, 275
- Contagious pustular dermatitis, western blot analysis of virus-specific antibody responses for capripox and, viral infections in sheep, 377
- Crimean–Congo haemorrhagic fever, serodiagnosis of, 551
- Cryptosporidiosis, municipal drinking water and, among persons with AIDS in Los Angeles County, 313
- Cryptosporidiosis, seroepidemiology of, in children in Papua New Guinea and Australia, 491
- Enteropathogens, flies and water as reservoirs for bacterial, in urban and rural areas in and around Lahore, Pakistan, 435
- Enteroviruses, exposure to, and hepatitis A virus among divers in environmental waters in France, first biological and serological survey of a controlled cohort, 541
- Escherichia coli* O157, immunomagnetic separation as a sensitive method for isolating, from food samples, 31
- Escherichia coli*, the prevalence of, O157. H7 in dairy and beef cattle in Washington State, 199
- Escherichia coli*, resistance in faecal, isolated from pigfarmers and abattoir workers, 45
- Giardiasis, risk factors for: a case-control study in Avon and Somerset, 95
- Haemolytic-uraemic syndrome, a community outbreak of, in children occurring in a large area of Northern Italy over a period of several months, 209
- Hepatitis A, age-specific antibody prevalence to, in England: implications for disease control, 113
- Hepatitis A, exposure to enteroviruses and, virus among divers in environmental waters in France, first biological and serological survey of a controlled cohort, 541
- Hepatitis A, prevalence of, virus infection among sewage workers in Singapore, 121
- Hepatitis B, the prevalence of, and C in an antenatal population of various ethnic origins, 523
- Hepatitis C, the prevalence of hepatitis B and, in an antenatal population of various ethnic origins, 523

- Hepatitis C virus infection in Iceland: a recently introduced blood-borne disease, 529
- Ice cream, the role of home-made, as a vehicle of *Salmonella enteritidis* phage type 4 infection from fresh eggs, 21
- Influenza B, reinfection with, virus in children: analysis of the reinfection influenza B viruses, 103
- Klebsiella pneumoniae*, randomly amplified polymorphic DNA typing: a useful tool for rapid epidemiological typing of, 445
- Measles, outbreak of, in a teenage school population: the need to immunize susceptible adolescents, 355
- Measles, successful control of a school based, outbreak by immunization, 367
- Meningococcal, hereditary deficiency of the seventh component of complement and recurrent, infection: investigations of an Irish family using a novel haemolytic screening assay for complement activity and C7 M/N allotyping, 275
- Mycobacterium tuberculosis*, a school- and community-based outbreak of, in Northern Italy, 1992-3
- Neisseria meningitidis*, molecular epidemiology of recent United Kingdom isolates of, serogroup C, 53
- Neisseria meningitidis*, sero/subtyping of, isolated from patients in Spain, 267
- Norwalk virus, measurement of IgA responses following, infection and other human caliciviruses using a recombinant Norwalk virus protein EIA, 143
- Parvovirus B19, low prevalence of antibody to human, in Singapore, 537
- Parvovirus B19 outbreak on an adult ward, 345
- Porcine transmissible gastroenteritis, a mathematical model of detection and dynamics of, 187
- Puumala virus, prevalence of serum IgG antibodies to, (haemorrhagic fever with renal syndrome) in Northern Sweden, 129
- Pseudomonas pseudomallei* isolates collected over 25 years from a non-tropical endemic focus show clonality on the basis of ribotyping, 307
- Rabies, survey of fox trappers in northern Alaska for, antibody, 137
- Rabies, the epidemiology of bat, in New York State, 1988-1992, 501
- Rubella seroepidemiology in a non-immunized population of São Paulo State, Brazil, 161
- Salmonella enteritidis*, application of physico-chemical typing methods for the epidemiological analysis of, strains of phage type 25/17, 411
- Salmonella enteritidis*, contamination of hands and work surfaces with, PT4 during the preparation of egg dishes, 403
- Salmonella enteritidis*, the role of home-made ice cream as a vehicle of, phage type 4 infection from fresh shell eggs, 21
- Salmonella typhi*, genome fingerprinting of, by pulsed-field gel electrophoresis for subtyping common phage types, 391
- Salmonellosis, changing epidemiology of human, in Hong Kong, 1982-3, 425
- SRSV, the role of the pre-symptomatic food handler in a common source outbreak of food-borne, gastroenteritis in a group of hospitals, 513
- Staphylococci, detection of *mecA*, *femA*, and *femB* genes in clinical strains of, using polymerase chain reaction, 259
- Staphylococcus aureus* strains of type 95. Spread of a single clone, 463
- Staphylococcus intermedius*, application of pulsed-field gel electrophoresis to the epidemiological characterization of, implicated in a food-related outbreak, 75
- Streptococcus pyogenes*, clonal diversity of, within some M-types revealed by multilocus enzyme electrophoresis, 455
- Streptococcus suis*, clonal analysis and virulence of Australian isolates of, type 2, 321

- Trimethoprim resistant dihydrofolate reductases in normal faecal flora isolated in India, 247
- Wound infections, estimated costs of postoperative, 283
- Yersinia enterocolitica*, duration of carriage and transmission of, biotype 4, serotype O:3 in dogs, 471
