

JOURNAL of the AUSTRALIAN MATHEMATICAL SOCIETY

Series B — Applied Mathematics

Volume 41 Part 1
JULY 1999

Reductions and exact solutions of some nonlinear partial differential equations under four types of generalized conditional symmetries Changzheng Qu	1
A bridging method for global optimization Y. Liu and K. L. Teo	41
Control of continuous-time systems with discrete jumps Peng Shi	58
When can sigmoidal data be fit to a Hill curve? Jack Heidel and John Maloney	83
Existence of solutions of a class of stochastic Volterra integral equations with applications to chemotherapy R. Subramaniam and K. Balachandran	93
A generalized Hankel transform and its use for solving certain partial differential equations I. Ali and S. Kalla	105
Extending the utility of perturbation series in problems of laminar flow in a porous pipe and a diverging channel O. D. Makinde	118
A numerical solution to the flow between eccentric rotating cylinders with a slotted sleeve L. D. Hird, P. F. Siew and S. Wang	129

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Series B is published in volumes comprising four quarterly parts. Information about Series A and other publications of the Society may be found on the inside back cover.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are especially welcomed. All papers should include some indication of applicability, and an introduction that can be understood by non-specialist readers from the whole applied mathematical community.

Editor of the Journal, Series B

C. E. M. PEARCE, Applied Mathematics Department, University of Adelaide, Australia, 5005.

Associate Editors

A. P. BASSOM

Assistant Editors

J. P. DENIER, E. HUNT and Y. STOKES
Applied Mathematics Department
The University of Adelaide, Australia, 5005.

A. GILL
Land Operations Division, DSTO
P.O. Box 1500, Salisbury, SA, 5108.

Manuscripts (three copies) for publication should be sent to the editor or to an appropriate associate editor at the address given above. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere.

Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Irrespective of the number of authors, 50 free offprints of each copy are provided; additional offprints may be ordered at the expense of the authors.

Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.

Journal of the Australian Mathematical Society, Series B—Applied Mathematics (ISSN 0334-2700) is published quarterly for A\$240 (Members A\$34) per annum by the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia. Send address change notices to Dr A. Howe, Journal of the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia.
