## PROCEEDINGS OF THE NUTRITION SOCIETY

### Editor-in-Chief

Maria O'Sullivan

Trinity College Medical Centre, Republic of Ireland

*Proceedings of the Nutrition Society* publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society. The journal provides an invaluable record of the scientific research currently being undertaken, contributing to 'the scientific study of nutrition and its application to the maintenance of human and animal health.'

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

## **Subscription information**

*Public Health Nutrition* is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 18, 2015 (18 issues):  
Internet/print package: £1276/\$2448 Americas only/€2045 EU only  
Internet only: £924/\$1752 Americas only/€1469 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to  
Public Health Nutrition  
Cambridge University Press  
100 Brook Hill Drive  
West Nyack  
New York 10994-2133  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. Neither the Society, nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on [phn.edoffice@cambridge.org](mailto:phn.edoffice@cambridge.org) regarding any other types of submission.

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

**Monitoring and surveillance**

Evaluating the impact of the Baby-Friendly Hospital Initiative on breast-feeding rates: a multi-state analysis  
*SS Hawkins, AD Stern, CF Baum and MW Gillman* 189

Food supply and actions to improve dietary behaviour of students – a comparison between secondary schools participating or not participating in the 'Healthy School Canteen Program'  
*IEJ Milder, J Mikolajczak, SW van den Berg, M van de Veen-van Hofwegen and WJE Bemelmans* 198

Insufficient autumn vitamin D intake and low vitamin D status in 7-year-old Icelandic children  
*A Bjarnadottir, AG Kristjansdottir, H Hrafnkelsson, E Johannsson, KT Magnússon and I Thorsdottir* 208

How do women's diets compare with the new Australian dietary guidelines?  
*GD Mishra, DAJM Schoenaker, S Miharshahi and AJ Dobson* 218

**Assessment and methodology**

Comparison of approaches to correct intake–health associations for FFQ measurement error using a duplicate recovery biomarker and a duplicate 24 h dietary recall as reference method  
*A Geelen, OW Souverein, MC Busstra, JHM de Vries and P van 't Veer* 226

DINO (Diet In Nutrients Out) – an integrated dietary assessment system  
*E Fitt, D Cole, N Ziauddeen, D Pell, E Stickley, A Harvey and AM Stephen* 234

Development of a conceptually equivalent Chinese-language translation of the US Household Food Security Survey Module for Chinese immigrants to the USA  
*CML Kwan, AM Napoles, J Chou and HK Seligman* 242

Validity and reliability of the Arabic version of the Household Food Insecurity Access Scale in rural Lebanon  
*F Naja, N Hwalla, T Fossian, D Zebian and L Nasreddine* 251

Total body water measurement using the 2H dilution technique for the assessment of body composition of Kuwaiti children  
*T Al-Ati, T Preston, S Al-Hooti, N Al-Hamad, J Al-Ghanim, F Al-Khulifi, B Al-Lahou, A Al-Othman and L Davidsson* 259

**Behavioural nutrition**

Language use affects food behaviours and food values among Mexican-origin adults in the USA  
*BA Langellier, R Brookmeyer, MC Wang and D Glik* 264

Parental and self-reported dietary and physical activity habits in pre-school children and their socio-economic determinants  
*M Sotos-Prieto, G Santos-Beneit, S Pocock, J Redondo, V Fuster and JL Peñalvo* 275

Meal pattern among Norwegian primary-school children and longitudinal associations between meal skipping and weight status  
*TH Stea, FN Vik, E Bere, MV Svendsen and IM Oellingrath* 286

**Nutritional epidemiology**

A study of early complementary feeding determinants in the Republic of Ireland based on a cross-sectional analysis of the Growing Up in Ireland infant cohort  
*PD Castro, J Kearney and R Layte* 292

Dietary patterns and cognitive ability among 12- to 13 year-old adolescents in Selangor, Malaysia  
*AR Nurliyana, MTM Nasir, MS Zalilah and A Rohani* 303

Relationship of serum carotenoid concentrations with allostatic load as a measure of chronic stress among middle-aged adults in the USA  
*N Rosenberg, CG Park and K Eldeirawi* 313

A prospective study of body image dissatisfaction and BMI change in school-age children  
*O Duchin, C Marin, M Mora-Plazas, CM de Leon, JM Lee, A Baylin and E Villamor* 322

**Economics and environment**

The production diversity of subsistence farms in the Bolivian Andes is associated with the quality of child feeding practices as measured by a validated summary feeding index  
*AD Jones* 329

The role of unconditional cash transfers during a nutritional emergency in Maradi region, Niger: a pre–post intervention observational study  
*B Fenn, G Noura, V Sibson, C Dolan and J Shoham* 343

The association of binge eating and neighbourhood fast-food restaurant availability on diet and weight status  
*T Ledoux, H Adamus-Leach, DP O'Connor, S Mama and RE Lee* 352

**Interventions**

Impact of a Smarter Lunchroom intervention on food selection and consumption among adolescents and young adults with intellectual and developmental disabilities in a residential school setting  
*KL Hubbard, LG Bandini, SC Folta, B Wansink, M Eliasziw and A Must* 361

**Workforce development**

Professional training in nutrition in Central and Eastern Europe: current status and opportunities for capacity development  
*M Gurinović, R Novaković, Z Štalić, M Nikolić, J Milešević, M Ranić and M Glibetić* 372

**Corrigendum**

Development of a conceptually equivalent Chinese-language translation of the US Household Food Security Survey Module for Chinese immigrants to the USA – Corrigendum  
*CML Kwan, AM Napoles, J Chou and HK Seligman* 378
