WEED TECHNOLOGY

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Technology* include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010)

Kevin Bradley, *Columbia, MO* (2012)

Barry Brecke, *Jay, FL* (2013)

Peter Dittmar, *Gainesville, FL* (2016)

Aaron Hager, *Urbana, IL* (2012)

Charles Geddes, *Lethbridge, AB* (2022)

Katherine Jennings, *Raleigh, NC* (2021)

Prashant Jha, *Ames, IA* (2016)

Amit Jhala, *Lincoln, NE* (2018)

David Johnson, *Des Moines, IA* (2019)

William Johnson, *West Lafayette, IN* (2007)

Vipan Kumar, *Hays, KS* (2020)

Drew Lyon, *Pullman, WA* (2018)

Robert Nurse, *Guelph, ON* (2016)

Sandeep Rana, *Galena, MD* (2021)

Darren Robinson, *Ridgetown, ON* (2008)

Larry Steckel, *Jackson, TN* (2007)

Daniel Stephenson, *Alexandria, LA* (2013)

Michael Walsh, *Crawley, Australia* (2016)

Eric Webster, *Laramie, WY* (2018)

Rodrigo Werle, *Madison, WI* (2022)

R. Joseph Wuerffel, *Vero Beach, FL* (2020)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology*, *Weed Science*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at <https://www.cambridge.org/core/journals/weed-technology/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$418.00; UK £290.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/wt>). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.

WEED TECHNOLOGY

VOLUME 37

MARCH–APRIL 2023

NUMBER 2

• RESEARCH ARTICLES

- Harvest weed seed control in soybean with an impact mill
Travis Winans, Raymond Massey, Haylee Schreier, Mandy Bish and Kevin W. Bradley 113
- Discrimination of weeds from sugarcane in Louisiana using hyperspectral leaf reflectance data and pigment analysis
Richard M. Johnson, Albert J. Orgeron, Douglas J. Spaunhorst, I-Shuo Huang and Paul V. Zimba 123
- Delayed cover-crop termination and reduced herbicide inputs produce trade-offs in soybean phase of US Northeast forage-grain rotation
Teala S. Ficks, Heather D. Karsten and John M. Wallace 132
- Effect of glufosinate rate and addition of ammonium sulfate on annual weed control in glyphosate/glufosinate/2,4-D-resistant soybean
Emily Duenk, Nader Soltani, Robert T. Miller, David C. Hooker, Darren E. Robinson and Peter H. Sikkema 141
- Enlist™ corn tolerance to preemergence and postemergence applications of synthetic auxin and ACCase-inhibiting herbicides
Amar S. Godar, Jason K. Norsworthy and Tom L. Barber 147
- Effects of nozzle type and adjuvant selection on common lambsquarters (*Chenopodium album*) and johnsongrass (*Sorghum halepense*) control using nicosulfuron in corn
Milan Brankov, Milena Simić, Lena Ulber, Miodrag Tolimir, Demosthenis Chachalis and Vesna Dragičević 156
- Pro197 and Trp574 substitutions in the acetolactate synthase of corn marigold (*Glebionis segetum*) and their impact on competitive ability against barley
Aristeidis P. Papapanagiotou, Theodore Spanos, Nour E. Zarrougui, Ioannis C. Livieratos and Ilias G. Eleftherohorinos 165
- Rapid necrosis: Implications of environmental conditions and plant growth stage on 2,4-D resistance and effect of other auxinic herbicides in Sumatran fleabane (*Conyza sumatrensis*)
Paula Sinigaglia Angonese, Andrew Rerison Silva de Queiroz, Liana Sinigaglia Angonese, Filipi Mesquita Machado, Richard Napier, Catarine Markus, Carla A. Delatorre and Aldo Merotto Jr. 174
- Effect of core cultivation, fertility, and plant growth regulators on recovery of voided creeping bentgrass greens canopies following annual bluegrass control via methiozolin
Katelyn A. Venner, Erik Ervin, Suk-Jin Koo, John M. Peppers and Shawn D. Askew 185
- Simulated dormant peppermint (*Mentha × piperita*) response to mesotrione: a greenhouse study
Emmanuel G. Cooper, Jeanine Arana and Stephen L. Meyers 192
- Germination ecology and response to herbicides of *Ludwigia prostrata* and their implication for weed control in paddy fields
Tao Li, Huawei Qian, Guohui Yuan, Jiequn Fan and Shuiliang Guo 197
- ## • NOTE
- Glyphosate-resistant downy brome (*Bromus tectorum*) control using alternative herbicides applied postemergence
Charles M. Geddes and Mattea M. Pittman 205
