## Where literature lives

### The Bedford Introduction to Literature Reading, Thinking, Writing

Ninth Edition

Michael Meyer, *University of Connecticut*

*The Bedford Introduction to Literature* is a best seller for a reason: It brings literature to life for students — helping to make them lifelong readers and better writers. Classic works from many periods and cultures exist alongside the best of today's diverse authors, including women, writers of color, and voices that reflect the quirkiness and humor of modern life. Now featuring a new chapter created with poet Billy Collins and accompanied by *VideoCentral: Literature*, a new collection of interviews with literary and popular authors, the ninth edition shows students that writers are real people and literature is a living art form.

“More interesting to me than what a poem means is how it travels,” writes former poet laureate Billy Collins. In a new in-depth chapter, Collins presents five of his own poems, explains how and why he writes, and shares photos and pages from his notebooks.

# Critical & Literary Studies from Chicago

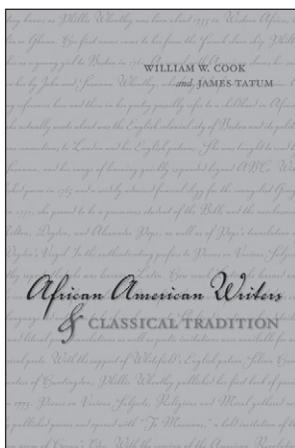

## CRITICAL TERMS FOR MEDIA STUDIES

Edited by W. J. T. Mitchell and Mark B. N. Hansen

“Not simply a collection of critical terms, but a paradigm-shifting re-thinking of the field itself. It represents an extremely important approach to media in the twenty-first century, one that will become increasingly relevant as the ubiquity of new media and new technologies make the questions it raises more and more pressing.”

## AFRICAN AMERICAN WRITERS AND CLASSICAL TRADITION

William W. Cook and James Tatum

“Cook and Tatum offer compelling conclusions alongside insightful interpretations of important literary and rhetorical texts. Erudite but never pedantic, judicious but never compromising, this book exhibits the highest standards of literary scholarship.”

## BULLETPROOF

Afterlives of Anticolonial Prophecy in South Africa and Beyond  
Jennifer Wenzel

“Jennifer Wenzel offers something beautifully paradoxical: a new, anti-canonical canon of South African writing. Concerned with historical and literary ‘failures,’ this work is a profound reflection on the fragmentary and spectral (but not therefore any less compelling) nature of echoes, influences, and prophecies. A work of sophistication and intellectual ambition, *Bulletproof* is a timely and innovative intervention in postcolonial studies.”

## CRITICAL LIVES

“Beautifully produced—very short critical biographies whose main target audience is likely to be undergraduates, but that will also do nicely for a general audience.”—*Times Literary Supplement*
