

SOUTH WEST CHARTERING

continuing to specialize in Polar Chartering
Over 40 years providing ice-strengthened ships for expeditions to the Arctic and
Antarctic — for charter — for purchase
Our service includes all other types of survey vessels

Contact: Polar Department, South West Chartering (UK) Limited, Suite Five, Lloyds Wharf, Mill
Street, London SE5 2BA Tel 071 231 8565 Telex 886819 Fax 071 231 3712

ANNOUNCEMENTS

POLAR RECORD BACK NUMBERS 1931-87 (1-147)
are available from Bluntisham Books, Oak House, East
Street, Bluntisham PE17 3LS, UK, Tel (1487) 840 449.
Prices: Pre-1982 (1-129) £2.50 each; 1982-85
(130-141) £5.00 each; 1986-87 (142-47) £10.00
each. Postage extra.

ADVERTISING IN *Polar Record*

Quarter page (118 x 81 mm) : £60.00 (US\$120.00)
Half page (240 x 81 mm or 118 x 165) : £90.00
(US\$180.00)
Whole page (240 mm x 165 mm): £140.00
(US\$280.00)
Flier (A4 or A5): £140.00 (US\$280.00)
Announcements: £3.00 per column line.

VAT of 15% is payable on all UK orders. Please send
payment or an official order form with your order. There
are negotiable discounts for running the same advertis-
ment in three successive issues. We make up adver-
tisements (from £20.00) and print fliers (from £50.00) by
arrangement.

BELHAVEN/SPRI POLAR RESEARCH SERIES

Announcing the first three books on polar topics to be published by
Belhaven Press in association with Scott Polar Research Institute

Satellite remote sensing of polar regions

Robert A. Massom

Describes the capture, processing and use of images taken from satellites of the polar regions and their applications to study of ice and snow, and of high latitude meteorological, biological and oceanic variables. It provides also a reference manual for all satellites from 1960. 288 pages, illustrated, hardback. ISBN 1 85293 179 5. £39.50. June 1991.

The Soviet Maritime Arctic

Lawson A. Brigham (editor)

Examines the history, environment, transport systems and strategic importance of the Soviet Union's Arctic territory and sphere of influence. This book also contains material on Soviet Antarctic policy and reprinted documents on environmental and strategic policy. 224 pages, illustrated, hardback. ISBN 1 85293 169 8. £37.50. April 1991.

Antarctica and global climate change

Colin Harris and Bernard Stonehouse (editors)

A state-of-knowledge overview of Antarctica's role in a world of changing climates. The contributors are prominent British and New Zealand scientists, whose research spans both East and West Antarctica and the Southern Ocean. 192 pages, illustrated, hardback. ISBN 1 85293 187 6. £33.00. July 1991.

Obtainable by mail order from:
Scott Polar Research Institute, University of Cambridge
Lensfield Road, Cambridge CB2 1ER UK.

THE ANTARCTIC TREATY HANDBOOK

(Seventh edition, October 1990)

IS NOW AVAILABLE FOR SALE FROM THE
SCOTT POLAR
RESEARCH INSTITUTE

Edited by Dr J. Heap and published by the British Foreign and Commonwealth Office, the Antarctic Treaty Handbook reproduces material arising from Antarctic Treaty deliberations, including recommendations from consultative meetings and separate instruments dealing with seals, living resources and mineral resources.

Now in four parts (not sold separately):
Part 1, General measures: Part 2, The Antarctic environment: Part 3, The Antarctic Protected Area System: Part 4, Other components.

Price £20.00 (US\$40.00) including postage and packing. For second class air mail in-

ORDER YOURS TODAY POLAR BIBLIOGRAPHY & PRICE GUIDE: ALASKA, THE ARCTIC & ANTARCTIC

Over 1150 Polar books are included. Author, Title, Place, Date, Edition, publisher, condition, description, pagination, no. of illustrations, a content summary, & references to other biblios in which each book appears. £ 26.00 sea mail, add £4.00 for Air Mail.

Life in the Polar regions – a stimulating insight...

Managing Editor:
G. Hempel, Bremerhaven

Editor: W. R. Siegfried, Rondebosch

Advisory Editors:
V. Alexander, R. Bannasch, D. Boltovskoy, A. Clarke, G. Høpner Petersen, C. C. E. Hopkins, G. Hubold, L. Legendre, R. I. Lewis-Smith, J. R. E. Lutjeharms, H. Marchant, Y. Naito, P. H. Schalk, T. G. Smith, V. Spiridonov, C. W. Sullivan, M. M. Tilzer, J. Valencia, P. Vernon, P. W. Vincent

Technical Editor: I. Hempel, Kiel

Polar ecosystems and the life of organisms in the extreme polar environment are of interest to an increasing number of scientists working in different fields of biological and environmental research. **Polar Biology** is not only the focal point for scientists working in polar regions but also attracts the interest of those working in general biology, ecology and physiology, as well as in oceanography and climatology related to polar life.

Polar Biology presents results of all kinds of studies in plants, animals and micro-organisms of marine, limnic and terrestrial habitats of arctic and antarctic regions.

Future topics covered:

- U. Bathmann et al.*: Short term sedimentation pulses and stable carbon isotope ratios of biogenic particles off Kapp Norwegia, Antarctica.
- D. Delille*: Factors effecting the horizontal patchiness of coastal Antarctic seawater bacteria.
- Y. Endo & N. Kadoya*: Feeding condition and hepatopancreas colour of Antarctic krill.
- W. Ernst & M. Klages*: Bioconcentration and biotransformation of 14C-γ-hexachlorocyclohexane and 14C-γ-hexachlorobenzene in the Antarctic amphipod *Orchomene* plebs.
- C. Guinet et al.*: Population changes, haul out pattern and movements of the southern Elephant seal at Crozet and Kerguelen Archipelago over the last decades.
- J. Hirche*: Distribution of dominant calanoid copepod species in the Greenland Sea during late fall.
- R. I. Lewis Smith & D. O. Ovstedal*: The Lichen genus *Stereocaulon* in Antarctica and South Georgia.
- T. M. Lancraft et al.*: Micronektonic/macrozooplanktonic community structure and feeding under ice covered Antarctic waters during the winter.
- C. Legendre & M. Gosselin*: In situ radiometric estimation of microalgal biomass in the sea ice.
- V. Montecino et al.*: Spatial and temporal photosynthetic compartments during summer in Antarctic lake Kitiash.
- Y. B. Okolodkov & V. S. Latyshev*: Vertical distribution of algae phosphates and silicates in the first year ice of the East Siberian Sea.
- P. Schatt & J. P. Feral*: Characteristics of the brooded stages of *Abatus chordatus* (Echinodermata: Spatangoida) at Kerguelen Islands. Comparison with other Antarctic brooding Schizasterid Sea-Urchins.
- Ch. Trees et al.*: Bio-optical variability across the Arctic Front as determined by shipboard and satellite observations.
- B. Ullrich et al.*: Microscopic anatomy, functional morphology, and ultrastructure of the stomach of *Euphausia superba* (Crustacea, Euphausiacea).

ARCTIC AND ALPINE RESEARCH

INSTITUTE OF ARCTIC AND ALPINE RESEARCH · UNIVERSITY OF COLORADO AT BOULDER

Editor: Mark F. Meier

Managing Editor: Kathleen A. Salzberg

Arctic and Alpine Research is a quarterly international journal, now in its twenty-third year. It publishes original research papers, shorter contributions, correspondence, book reviews, and miscellaneous items of information. The subject matter deals with any scientific or cultural aspect of arctic and alpine environments and related topics on subarctic, subalpine, antarctic, subantarctic, and paleoenvironments. Papers are uni- or multidisciplinary but have interdisciplinary appeal. Symposia proceedings and monographs are also published from time to time, including the proceedings of the Comité Arctique International Seventh Conference, Reykjavik, Iceland, September 1986: Restoration and Succession in Circumpolar Arctic Lands (Vol. 19, No. 4, 1987), and Circumpolar Ecosystems in Winter, Churchill, Manitoba, February 1990 (Vol. 23, No. 1, 1991).

Recent issues have included papers on the following topics: Arctic hydrology; permafrost studies; glacier fluctuations; Holocene environments; Inuit use of sea ice; alpine grassland vegetation; lichen growth studies; subalpine forest growth.

Manuscripts in English should be submitted to the Managing Editor. Please write for instructions.

Payment must be made in U.S. dollars on a U.S. bank, by international postal order, or by VISA/MasterCard. Please do not send personal checks from foreign countries.

University Press, 110 Midland Avenue, Port Chester, New York, NY 10573-9864.

Claims for missing issues can be considered only if made immediately after receipt of the subsequent issue.

Back issues

For vols 1-23 inclusive apply to Bluntisham Books, Oak House, East Street, Bluntisham, Huntingdon, PE17 3LS, UK. For vols 24 onward apply to Cambridge University Press, UK or USA.

Advertising

Prices appear in the advertisements section; for details apply to the Editor or to the publishers.

Advice to contributors

Polar Record publishes original articles (2000 to 8000 words) and notes (usually less than 2000 words) of current and historic polar interest. Manuscripts, maps and photographs are accepted on the understanding that they are original, do not infringe copyright, and are not currently being offered elsewhere. Receipt is acknowledged; manuscripts are submitted to referees and any rejected will normally be returned to the author within six to eight weeks. Where the subject matter is appropriate, the Editor is usually prepared to advise authors on ways of making their material acceptable.

Presentation

Typescripts should be double-spaced with 3 cm margins, on one side only of A4 or similar paper. Send two copies and keep one for reference. Give name, affiliation and address of each author on the title page, noting which author the Editor corresponds with. Follow the style of articles and notes in the most recent issue of *Polar Record*.

Articles should start with an abstract of 150–250 words and a table of major headings; secondary and tertiary headings are not listed. Indicate in margins where tables and illustrations fit. Footnotes are discouraged; places where they are considered essential are marked in text with a superscript number, and the footnotes are listed at the end before the References.

Notes are short articles, generally of less than 2000 words. They do not require an abstract or table of headings, but either the first or the final paragraph should summarize the content.

References (essential ones only, please) are cited in text; full references appear in the listing under References at the end; for forms of citations and references see the most recent issue of *Polar Record*. *Authors alone are responsible for the accuracy of their references*. References to privately printed or other unpublished reports and data are not accepted unless copies of the material are freely available from a named library or similar repository. *Tables* should be kept as simple as possible and typed on separate sheets. They will normally be fitted across the single- or double-column page, only exceptionally lengthwise.

Illustrations. Drawings, maps and diagrams must be of professional standard, with lettering and numbers pencilled in clearly. Authors may be charged for re-drawing if an illustration is inadequate. They should if possible allow for about one-third reduction in width to fit a column (7.8 cm) or page (16.4 cm). Photographs (black and white only) that add substantially to the material are welcome. Glossy prints with high contrast, about one-third oversize, generally reproduce well.

Contributions on disc

The Editor welcomes contributions on floppy discs. The most suitable format is Apple Macintosh 3.5" disc. Output from a wide variety of word processing packages can be accepted, but in case of doubt, a MacWrite-compatible document should be produced. Diagrams also can be transferred on Macintosh discs. Discs from other microcomputers may be acceptable if the text is in the form of an ASCII file, with no word processing codes. TA3 characters are acceptable. Currently, *Polar Record* can accept discs from Acorn BBC and Torch microcomputers, Amstrad PCW series microcomputers and, less readily, IBM PC compatible machines (5.25" discs only). If in doubt, please consult the Editor.

POLAR RECORD

VOLUME 27 NUMBER 162 JULY 1991

CONTENTS

ARTICLES

- Environmental effects of human activities on King George Island, South Shetland Islands, Antarctica. C. M. Harris p 193
- Arctic and sub-Arctic soil emissions: possible implications for global climate change. T. Christensen p 205
- Antarctica, Viña del Mar and the 1990 UN debate. P. J. Beck p 211
- Sharing and the ideology of subsistence in a Greenlandic sealing community. M. Nuttall p 217
- Evaluating breeding habitat and populations of ringed seals *Phoca hispida* in Svalbard fjords. C. Lydersen and M. Ryg p 223
- CCAMLR and its approaches to management of the krill fishery. S. Nicol p 229
- Jules Verne and the conquest of the polar regions. B. Riffenburgh p 237
- Organochlorine residues in moss and lichen samples from two Antarctic areas. S. Focardi, C. Gaggi, G. Chemello and E. Bacci p 241
- Fur seal skull from sealers' quarters at Sandy Bay, Macquarie Island, Southern Ocean. K. Townrow and P. D. Shaughnessy p 245
- Life in the Antarctic sea ice zone. G. Hempel p 249

NOTES

- Second International Symposium on Antarctic Sciences: Biology and Geology. B. K. Park p 255
- Possible World Heritage Listing for Heard Island and the McDonald Islands. D. Rootes p 256
- Foundation of the Soviet Union's Association of Northern Peoples. A. Tomtosov p 257
- T. L. Claughton's poem *Voyages of discovery to the polar regions*, 1829. I. R. Stone p 258
- Antarctic Digital Database Project: a new tool for Antarctic environmental science and management. C. M. Harris p 260
- Seal skeletal material in the British Museum from Antarctic expeditions. L. Cruwys p 262
- Bering Bridge Expedition. G. R. Leon p 263

CORRESPONDENCE

- British Polar Expeditions 1919–39: a final word. J. Wright p 263

REVIEWS

- The growth and decay of ice. G. S. H. Lock. *Julian Dowdeswell* p 264. Devolution and constitutional development in the Canadian north. G. Dacks (editor). *W. V. Dunlap* p 264.
