### **Why RIS?**

Review of International Studies (RIS) publishes high-quality research that makes significant contributions to conversations about global politics, broadly defined. We encourage submissions that are attentive to historical and contemporary dynamics of global politics and their effects. We welcome theoretically informed, empirically rich, and methodologically rigorous articles that significantly advance scholarship, including interdisciplinary research. RIS strives to be the place where a range of perspectives can flourish, where outstanding work is showcased and debated, and where the voices in those debates are drawn from a global community.

### Why publish with Review of International Studies?

- RIS is a journal with an established global reputation for high quality scholarship.
- We welcome original research on global politics regardless of theoretical perspective of methodology.
- We consider all research on the basis of its contribution regardless of theoretical orientation or empirical focus.
- RIS aims to include underrepresented communities and research.
- We will promote your article widely across different platforms

RIS is a British International Studies Association journal.
