

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

MAY 1968

VOL. 10 PART 2

OLIVER & BOYD LTD
EDINBURGH AND LONDON

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. *Notes* are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

Manuscripts should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. *Two* copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,
Animal Production,
A.R.C. Animal Breeding Research Organisation,
West Mains Road, Edinburgh 9.

Manuscripts are not returned with proofs; authors should therefore retain copies.

For guidance to the general style which should be adopted in the writing and presentation of papers authors are referred to *General Notes on the Presentation of Scientific Papers* (2nd revised ed., 1965) published by the Royal Society, London (price 5s.). Points of detail applying particularly to *Animal Production* are given below.

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
- (c) Colour plates are unlikely to be accepted unless authors bear the cost.

[Continued on inside back cover]

Single number, 25s. or \$4.00 net. Annual subscription, 90s. or \$14.00

Front cover centrepiece : Minoan bull-leaping sport shown in mural paintings in the palace of Knossos, Crete (after Evans). The piebald coat is thought (Zeuner, 1963) to indicate domestication of the breed.

BRITISH POULTRY SCIENCE

CONTENTS OF VOLUME 9, PART 1, JANUARY 1968

- LUCAS, J. M. S., OWERS, A. C. and SCOTT, J. F. Dimetridazole. VI. Turkey growth studies.
- VERMEERSCH, G. and VANSCHOUBROEK, F. The quantification of the effect of increasing levels of various fats on body weight gain, efficiency of food conversion and food intake of growing chicks.
- VAN TIJEN, W. F. On the relationship between the height of the thick albumen and the weight of eggs.
- BIGGS, P. M., THORPE, R. J. and PAYNE, L. N. Studies on genetic resistance to Marek's disease in the domestic chicken.
- WOODHAM, A. A. A chick growth test for the evaluation of protein quality in cereal-based diets. I. Development of the method.
- WOODHAM, A. A. and McDONALD, I. A chick growth test for the evaluation of protein quality in cereal-based-diets. 2. Comparison of the total protein efficiency method with gross protein value method.
- LONG, P. L. The effect of breed of chickens on resistance to *Eimeria* infections.
- WARING, J. J., ADDISON, R. F. and BROWN, W. O. A comparative study of energy utilisation by the laying hen from diets containing a high proportion of fat and diets made up mainly from carbohydrate sources.
- VINCE, MARGARET A. Effect of rate of stimulation on hatching time in Japanese quail.
- DAVIDSON, J., HEPBURN, W. R., MATHIESON, J. and PULLAR, J. D. Comparisons of heat loss from young cockerels by direct measurement and by indirect assessment involving body analysis.
- BOARD, PATRICIA A. and BOARD, R. G. A diagnostic key for identifying organisms recovered from rotten eggs.

This Journal is published quarterly in January, April, July and October. The annual subscription is £5 and in the U.S.A. \$17.00, single parts 27s. 6d. and in the U.S.A. \$4.50. Orders and subscriptions may be sent to any bookseller or direct to the publishers:

ANIMAL BREEDING ABSTRACTS

is such an invaluable guide to the latest literature on livestock breeding and production that we can hardly believe you have not heard of it (110s. annually, or 210s. if you live outside the British Commonwealth or the Republic of Ireland) **BUT** do you know about our

ANNOTATED BIBLIOGRAPHIES

<i>Number</i>	<i>Subject</i>	<i>Period covered</i>	<i>Number of References</i>	<i>Price</i>
59	Effect of light on reproductive traits of sheep in the tropics	1950-67	11	6s.
60	A survey of the factors influencing litter size and weight in pigs	1952-67	87	24s.
61	Partial castration (Baiburtcjan's method)	1962-67	42	12s.
62	A.I. in the pig: recent references on technique including equipment and storage	1963-67	27	6s.
63	Cattle breeds in South America	1947-65	48	12s.
64	Pig production in the tropics	1952-66	65	18s.
65	A.I. in beef cattle	1962-67	32	9s.
66	The relation between non-return conception rate and calving rate	1950-66	13	6s.
67	Simmental cattle	1947-67	47	12s.
68	Double muscling in beef cattle	1960-66	13	6s.
69	Genotype-environment interaction in cattle	1961-67	41	12s.
70	N'Dama cattle	1954-66	20	6s.
71	Genetic improvement, selection efficiency and estimation of genetic change	1939-67	200	42s.
72	Comparison between Australian Illawarra Shorthorn performance and other breeds	1952-66	8	6s.
73	Milk production in beef breeds	1950-65	34	9s.
74	Mink breeding and production	1952-67	112	30s.
75	Crossbreeding with Brahman cattle for beef	1954-67	75	21s.
76	The performance of Dorset Horn and Wiltshire Horn sheep in Britain and in the tropics	1952-66	16	6s.
77	Computer simulation of genetic systems	1961-67	42	12s.

These are duplicates of bibliographies prepared on request at the Commonwealth Bureau of Animal Breeding and Genetics, Edinburgh. In addition to the full title reference, the abstract published in *Animal Breeding Abstracts* is reproduced. They can be obtained on application to the Director of the Bureau, The King's Buildings, West Mains Road, Edinburgh, 9. The prices quoted include postage by ordinary mail, and the remittance should be sent with the order *unless you want it posted by air mail*. If the material is to be sent by air mail, do not send money with your request. You will receive an invoice which includes air mail postage.

EXPERIMENTAL AGRICULTURE

EXPERIMENTAL AGRICULTURE is concerned with the application of experimental work to the whole range of agricultural problems in tropical countries.

Volume 4, Number 2, April 1968

- P. G. C. DODSON. Effects of spacing, nitrogen and hormone treatment on pineapple in Swaziland.
- R. D. SINGH and B. N. CHATTERJEE. Growth analysis of perennial grasses in tropical India: I. Herbage growth in pure grass swards.

COMMONWEALTH BUREAU OF ANIMAL NUTRITION

The Bureau announces the first three of a new series of Annotated Bibliographies in which abstracts and titles of papers on specific topics will be brought together. The period covered will usually be from 1950 to the most recent abstracts available in *Nutrition Abstracts and Reviews*.

Annotated Bibliographies now obtainable are:

- AB No. 1. Nutrient requirements of the mouse. 62 references. Price 12s.
- AB No. 2. Metabolism of steam-volatile fatty acids in cattle and sheep. 400 references. Price 80s.
- AB No. 3. Nutritive value of sugar cane by-products for ruminants. 215 references. Price 43s.

Index Veterinarius

A COMPLETE BIBLIOGRAPHY
OF VETERINARY LITERATURE

This subject and author index of current literature on veterinary and related sciences is produced by the Commonwealth Bureau of Animal Health and was first published in 1933. It is issued quarterly and each year about 15,000 references are listed.

For compilation of the *Index* 700 periodicals in 22 languages are searched and coverage embraces the whole world.

Annual subscription is 300s. (\$39) (reduced rate to residents in British Commonwealth or Republic of Ireland—140s.). Orders may be sent to the Central Sales Branch, Commonwealth Agricultural Bureaux, Farnham Royal, Slough, Bucks.
