Published for The Social Philosophy and Policy Foundation

Editors

Ellen Frankel Paul, *Bowling Green State University, USA*

Fred D. Miller, Jr., *Bowling Green State University, USA*

Jeffrey Paul, Jr., *Bowling Green State University, USA*

Social Philosophy and Policy is an interdisciplinary journal with an emphasis on the philosophical underpinnings of enduring social policy debates. The issues are thematic in format, examining a specific area of concern with contributions from scholars in philosophy, economics, political science and law. While not primarily a journal of policy prescriptions, some articles in each issue will typically connect theory with practice.

Science in Context

Editors

Leo Corry, *The Cohn Institute for the History and Philosophy of Science and Ideas, Tel Aviv University, Israel*

Jürgen Renn, *Max-Planck-Institut für Wissenschaftsgeschichte, Berlin, Germany*

Science in Context is an international journal edited at The Cohn Institute for the History and Philosophy of Science and Ideas, Tel Aviv University, with the support of the Van Leer Jerusalem Institute. It is devoted to the study of the sciences from the points of view of comparative epistemology and historical sociology of scientific knowledge. The journal is committed to an interdisciplinary approach to the study of science and its cultural development - it does not segregate considerations drawn from history, philosophy and sociology. Controversies within scientific knowledge and debates about methodology are presented in their contexts.

The disciplines of economics and philosophy each possess their own special analytical methods, whose combination is powerful and fruitful. Each discipline can be enriched by the other. *Economics & Philosophy* aims to promote their mutual enrichment by publishing articles and book reviews in all areas linking these subjects. Topics include the methodology and epistemology of economics, the foundations of decision theory and game theory, the nature of rational choice in general, historical work on economics with a philosophical purpose, ethical issues in economics, the use of economic techniques in ethical theory, and many other subjects.
