

TANG CENTER FOR EARLY CHINA

唐氏早期中國研究中心
COLUMBIA UNIVERSITY

The Tang Center for Early China at Columbia University was founded in 2015 through a generous endowment gift from Oscar Tang and Agnes Hsu-Tang. The Tang Center is dedicated to the advancement of the understanding of the richness and importance of early Chinese civilization as a part of a broader common human heritage. It is committed to doing so through both solid scholarship and broad public outreach. The Tang Center sponsors a variety of conferences, workshops as well as public lectures each year including the Columbia Early China Seminar. The Tang Center is especially interested in supporting research initiatives that aim to examine newly discovered paleographic and textual material as well as artifacts, and in promoting the role of archaeology as a path to understand the past.

Tang Center Series in Early China

Sponsored by the Tang Center and published by Columbia University Press, the "Tang Center Series in Early China" includes new studies that make major contributions to our understanding of early Chinese civilization or that which break new theoretical or methodological grounds in Early China studies. The series is especially interested in publishing works that analyze newly discovered paleographic and manuscript materials as well as archaeological data. Disciplinary focuses of the series are history, archaeology, art history, anthropology, literature, philosophy, and the history of sciences and technology. The series spans from the Neolithic period to the end of the Han Dynasty (AD 220), or to the end of the Tang Dynasty (AD 907) for titles in archaeology. All submissions are subject to peer reviews and editorial evaluation. For more information, please see: <http://tangcenter-columbia.org/publications/>.
